(<http://www.abn.alabama.gov>)

## Explanatory Statement

The statements set forth in this catalog are for informational purposes only and should not be construed as the basis of a contract between a student and this institution. Although the catalog is accurate at the time of printing, matters of curricula and degree progress and completion as adopted by the faculty are subject to deletion, addition, or amendment at any time as deemed necessary. Should changes in a program of study become necessary, those changes will be applied liberally and without penalty. For students having discontinuous enrollment of one year or longer, the catalog of the year of readmission will guide their program of study.

While the provisions of this catalog will ordinarily be applied as stated, Columbus State University reserves the right to change any provision listed in this catalog including, but not limited to, academic requirements for graduation, without actual notice to individual students. Every effort will be made to keep students advised of any such changes. Information on changes will be available in the Office of the Registrar, from the dean of the college, or from the chair of the department concerned. It is the responsibility of each student to be aware of current graduation requirements for particular degree programs.

Students with a documented disability as described by the Rehabilitation Act of 1973 (P.L. 933-112 Section 504) and the Americans with Disabilities Act (ADA) are encouraged to contact the Office of Center for Accommodation and Access, Schuster Center, (706) 507-8755. Course requirements will not be waived, but reasonable accommodations and technical support may be made to assist in meeting course requirements. Columbus State University welcomes qualified students of any race, sex, disability, national and ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the university.

## To online students in Alabama

### Teacher Education

State authorization to provide a program related to the preparation of teachers or other P-12 school/system personnel does not indicate eligibility for an Alabama certificate. Applicants for an Alabama certificate based on reciprocity must meet Alabama's test requirements and submit a valid, renewable professional educator certificate/license issued by another state at the degree level, grade level, and in the teaching field or area of instructional support for which an Alabama certificate is sought and for which Alabama issues a certificate. Applicants for Alabama certification in an area of administration must also document at least three years of full-time employment as an administrator in a P-12 school system(s).

### Nursing

State approval of a program to offer Alabama licensed nurses opportunities for advanced degrees does not indicate eligibility for approval to practice as an advanced practice nurse in Alabama. Applicants for approval in Alabama are required to meet the Alabama requirements for national certification, graduation from a specific-type program for the advanced practice approval, and completion of the appropriate application. Any program offering a pre-licensure track to Alabama students shall meet the requirements of the Alabama regulations for pre-licensure programs or the graduates may not be eligible to take the national licensure examination required by the

# ABOUT CSU

## Introduction

With nationally distinctive programs in the arts, education, business, nursing – and more – Columbus State University provides deeply personal and relevant college experience that is causing more and more students to pick us as their first choice for higher education. Serving the Southeast while attracting students from around the world, Columbus State thrives on community partnerships to deliver excellence for students who want to achieve personal and professional success in an increasingly global environment.

Just 100 miles southwest of Atlanta, Columbus State University is part of the University System of Georgia, enrolling more than 8,200 students in a wide variety of degree programs, from online degrees to a doctorate in education.

At Columbus State, students experience an interactive learning environment where not just the stellar faculty, but also the staff, other students and community partners care about education. We believe learning is rarely confined to the classroom. Our students learn in the field, in the lab, on the stage, with mentors in Fortune 500 boardrooms and in foreign countries.

Our exciting downtown campus – called CSU RiverPark – supports these goals in an environment unlike anything else in the country. Built into a historic area alongside the Chattahoochee River, CSU's downtown campus houses the College of the Arts, student housing for more than 400 and about a dozen different buildings, including some of the finest performing arts facilities in the country. The campus adjoins the nation's largest urban whitewater course, a zip-line and a 14-mile riverside walking/biking path.

Academically, CSU offers about 100 different degree programs, including a growing array of quality online offerings, and an expanding graduate school that recently awarded CSU's first doctorate in education. Many of our programs are nationally accredited and have received attention from a variety of publications for ranking among the top in the country for their combination of quality and value.

Rich learning opportunities – and community experiences – are available through the university's Oxbow Meadows Environmental Learning Center, Coca-Cola Space Science Center, Rankin Arts Center and through the RiverCenter, a state-of-the-art performing arts facility that houses three performance halls, a world-class organ and the university's widely respected school of music. Additional educational opportunities are available in our Honors College, our heralded Servant Leadership Program and a diverse study abroad curriculum.

The student experience outside the classroom is also important at Columbus State University. CSU's attention to student life can be seen in the 100,000-square-foot Student Recreation Center, the expanding array of sports activities, the new student advising center, improved campus dining options and the 100 different student organizations on campus.

## Accreditation and Approvals

- Columbus State University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate, nexus, baccalaureate, masters, and educational specialist degrees, as well as a doctoral degree. Questions about the accreditation of Columbus State University may be directed in writing

to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website ([www.sacscoc.org](http://www.sacscoc.org) (<http://www.sacscoc.org>)).

- The SACSCOC approved degree programs (PDF) ([https://catalog.columbusstate.edu/about-csu/accrreditation-approvals/SACS\\_Approved\\_Degrees\\_2020-2021.pdf](https://catalog.columbusstate.edu/about-csu/accrreditation-approvals/SACS_Approved_Degrees_2020-2021.pdf)) are listed with affiliated CIP codes.
- The baccalaureate degree program in nursing is approved by the Georgia Board of Nursing (<http://sos.ga.gov/index.php/licensing/plb/45/>). The baccalaureate degree program in nursing is accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791. The master's degree program in nursing at Georgia Intercollegiate Consortium for Graduate Nursing Education (Consortium of Columbus State University and Georgia Southwestern University) is accredited by the Commission on Collegiate Nursing Education (<http://www.ccneaccreditation.org>).
- The Georgia Professional Standards Commission (<http://www.gapsc.com/Certification/Home.aspx>) approves all Columbus State University educator preparation programs that lead to certification in teaching, school library media, counseling and educational leadership.
- The Master of Education in School Counseling and the Master of Science in Clinical Mental Health Counseling degree programs are accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP) (<http://www.cacrep.org/template/>).
- The Department of Art is an accredited institutional member of the National Association of Schools of Art and Design (NASAD) (<https://nasad.arts-accredit.org/>).
- The Department of Theatre is an accredited institutional member of the National Association of Schools of Theatre (NAST) (<http://nast.arts-accredit.org/>).
- The Schwob School of Music is an accredited institutional member of the National Association of Schools of Music (NASM) (<http://nasm.arts-accredit.org/>).
- Columbus State University is accredited by AACSB International - The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu/>) to award bachelor's and master's degrees in business through the D. Abbott Turner College of Business.
- The B.S. in Chemistry, ACS-certified track is approved by the American Chemical Society (ACS) (<http://www.acs.org/>).
- The Georgia State Department of Veterans Service (<https://veterans.georgia.gov/services/education-training/approved-programs/>) (State Approving Agency) has approved Columbus State University for the training of veterans and eligible dependents.
- Columbus State University's Continuing Education has been accredited as an Authorized Provider by the International Association for Continuing Education and Training (IACET) (<http://www.iacet.org/>).
- SARA Approved Institution. Columbus State University has been approved to participate in the National Council for State Authorization Reciprocity Agreements (<http://nc-sara.org/>). NC-SARA is a voluntary, regional approach to state oversight of post-secondary distance education.

## Campus and Facilities

Columbus State University's humble origins belied its 21st Century promise. Opening its doors in 1958 in a renovated hosiery mill, Columbus College moved about four years later to its current main campus just off I-185, and has grown so dramatically, the university now has 150 beautifully landscaped acres in the middle of Columbus on its main campus; more than a dozen buildings in the historic district downtown, an area we call CSU RiverPark; and has a presence in England, where CSU is one of only a few American universities with its own house near Oxford University.

Most classes are still taught on main campus, where more than \$50 million in improvements are underway to upgrade facilities, technology and learning spaces for students:

- About \$9 million is being spent to renovate and update two of our workhorse classroom buildings – Arnold Hall and Howard Hall.
- A new \$14 million laboratory science classroom building is planned for next door to LeNoir Hall.
- The student dining center is getting a \$2.5 million upgrade
- A \$25 million freshman housing complex is being built on Clearview Circle.
- Most of the departments in the College of Education and Health Professions will be moving to a new downtown complex being built with private funding in the former Ledger-Enquirer building.
- A new roof and stadium seating are coming for CSU's baseball complex, already one of the finest Division II baseball field in the South.

With these buildings, a recently renovated intramural field, a new soccer complex, a student center, classrooms, laboratories, offices, auditoriums, cafeterias and other gathering areas, students have a wide variety of choices for study and comfort.

Campus computer labs, including some open 24 hours a day, offer student access to e-mail, word processing, online research, and instructional technology. CSU Libraries, made up of the Simon Schwob Memorial Library on the main campus and the Music Library on the RiverPark campus, provides online access to more than 100 databases and electronic full-text access to more than 500 journals.

Apartment-style housing is available on main campus, as well as in exciting downtown Columbus on CSU's RiverPark campus, next door to the RiverCenter for the Performing Arts, which houses CSU's Schwob School of Music. The collection of CSU offerings downtown has helped to revitalize the area while creating a unique campus. State-of-the-art riverside facilities serve the departments of art and theatre, featuring two theatres and new gallery space.

The main campus is minutes away from a commuter airport and several shopping areas. The city offers museums; an outstanding symphony; several minor league sports, concerts and other special events in the Columbus Civic Center; and hiking and biking along the Chattahoochee River and in 48 beautiful city parks. Historic attractions, Georgia's largest state park, mountains, and the Gulf and Atlantic seacoasts are all within convenient travel time from Columbus.

## Campus Safety & University Police

The CSU Police Department (<https://police.columbusstate.edu/>) is a fully authorized state police agency, providing both police and security

services to both the Main and RiverPark campuses. The Department collaborates regularly with the city of Columbus Police Department and other regional law enforcement agencies.

The Department utilizes a philosophy of community policing that integrates crime prevention, problem resolution, and community involvement to provide the support and service deserved by CSU guests, students, and employees.

Headquarters for CSU Police is located next to the Elizabeth Bradley Turner Center, on the corner of College Drive and East Lindsey Drive ([www.ColumbusState.edu/maps/](http://www.columbusstate.edu/maps/) (<http://www.columbusstate.edu/maps/>)). Officers also work from a police station on the CSU RiverPark campus in downtown Columbus.

### Mission Statement

The mission of the Columbus State University Police Department is to complement and support the advancement of the University's goals by providing professional services to the campus community and to enhance the collegiate experience by instilling a safe and secure environment that is conducive to learning, working, and living on our campuses.

### Vision Statement

The Columbus State University Police Department will exemplify a premier model of public safety in higher education through the provision of service-driven, community-oriented policing that emphasizes the values of innovation, diversity, transparency, and the utmost accountability to both internal and external stakeholders of the University

## CSU Creed

The community of scholars at Columbus State University is dedicated to personal and academic excellence.

Membership in the community obligates each person to a code of civil behavior.

As a member

I will practice personal and academic integrity;

I will respect the dignity of all persons;

I will respect the rights and property of others;

I will celebrate diversity, striving to learn from differences in people, ideas and opinions;

I will demonstrate concern for others, their feelings, and their need for support in their work and development.

Allegiance to these ideals obligates each person to encourage behaviors which enhance freedom and respect for all Columbus State University community members.

## Mission, Vision, & Priorities

### Vision

Columbus State University strives to be a first choice institution for discerning students who seek challenging programs, engaged faculty, and a vibrant, globally connected campus culture

## Mission

We empower people to contribute to the advancement of our local and global communities through an emphasis on excellence in teaching and research, life-long learning, cultural enrichment, public-private partnerships, and service to others

## Priorities

- Attract a higher percentage of students with the motivation and preparation to complete a degree
- Employ more creative instructional methods to meet the needs of diverse students (nontraditional, traditional, first generation, international, honors, graduates)
- Increase student academic and social engagement and sense of belonging
- Sustain the university's growth by focusing resources in areas with strong potential based on emerging opportunities
- Improve faculty/staff retention, job satisfaction, and productivity
- Improve stewardship through leadership in sustainability programs, the efficient use of resources, and external partnerships

## Quality Enhancement Plan

In order to maintain its institutional accreditation (p. 9) by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), Columbus State University implements a new Quality Enhancement Plan (QEP) every ten years. In spring 2026, Columbus State University will present a new QEP to SACSCOC for consideration.

The most recent QEP (We Solve It!) concluded in spring 2021. The 2016-2021 QEP Impact Report will be included in CSU's Fifth Year Interim Report due to SACSCOC in March 2022. We Solve It! focused on improvement of students' creative, real-world problem-solving skills. Through a set of initiatives based on successful high-impact practices, faculty and staff targeted students' abilities to collaboratively gather and evaluate information, identify questions or problems, develop strategies and solutions, and articulate and implement quality solutions. As a result of this QEP project, CSU made two enhancements to the General Education Curriculum. The faculty adopted a new General Education learning outcome related to problem solving in its 2020-2021 catalog: Present logical, informed, and evidence-based solutions to real-world problems. Additionally, "Perspectives Courses" were added to introduce students to the academic experience by focusing on a topic or project. Topics vary, but every section engages students in the process of generating creative and evidence-based solutions to problems in the real world. May be repeated for credit one time with a different topic.

## University System of Georgia

Columbus State University is a member of the University System of Georgia (USG), which is comprised of 30 public institutions of higher education. The USG is led by the Chancellor who reports to the USG Board of Regents.

The Board of Regents of the University System of Georgia was created in 1931 as a part of a reorganization of Georgia's state government. With this act, public higher education in Georgia was unified for the first time under a single governing and management authority. The governor appoints members of the Board to a seven year term and regents may be reappointed to subsequent terms by a sitting governor. Regents donate their time and expertise to serve the state through their governance of the

University System of Georgia – the position is a voluntary one without financial remuneration. Today the Board of Regents is composed of 19 members, five of whom are appointed from the state-at-large, and one from each of the state's 14 congressional districts. The Board elects a chancellor who serves as its chief executive officer and the chief administrative officer of the University System. The Board oversees the 30 colleges and universities that comprise the University System of Georgia and has oversight of the Georgia Archives and the Georgia Public Library System.

The mission of the Chancellor's Office is to serve the University System of Georgia, its Board of Regents and thirty institutions, the State of Georgia, and other constituencies by providing leadership in higher education and stewardship of state and University System resources.

- The Chancellor's Office will promote a statewide perspective on higher education that attends to the current and developing needs of the State, its citizens and students, and relates them effectively to the University System and its institutions.
- The Chancellor's Office will support the Board of Regents in furthering and achieving its vision for the University System by providing leadership in analyzing, monitoring, and anticipating higher education trends and developments, and by planning strategically for the future of the University System.

To learn more about the University System of Georgia, visit their website [www.usg.edu](http://www.usg.edu) (<http://www.usg.edu/>).

## Administration

### President's Staff

- Christopher L. Markwood, Ph.D., President
- Deborah Bordelon, Ph.D., Provost and Executive Vice President
- Richard Sears, Interim Vice President for Business and Finance
- Rocky Kettering, Ed.D., Vice President for Advancement
- Gina L. Sheeks, Ph.D., Vice President for Student Affairs
- Ron Williams, Ed.D., Chief of Staff
- Todd Reeser, M.S.A., Athletic Director
- Craig Burgess, J.D., General Counsel

### Academic Council

- Deborah Bordelon, Provost and Executive Vice President
- Alicia Bryan, Interim Associate Provost for Faculty Affairs & Academic Innovation
- Larry Dooley, Chair of Chairs Assembly
- Deirdre Greer, Dean, College of Education and Health Professions
- Linda Hadley, Dean, College of Business
- Tim Howard, Vice Provost
- Susan Hrach, Director, Faculty Center
- Kathleen Hughes, Executive Officer, Faculty Senate
- Alan Karass, Dean of Libraries
- Ted Laskaris, Interim Chief Information Officer
- Kimberly McElveen, Assistant Vice President of Institutional Assessment
- Pat McHenry, Interim Dean, College of the Arts
- Sallie McMullin, Associate Vice President, Enrollment Management
- Cindy Ticknor, Dean, Honors College

- Annice Yarber-Allen, Dean, College of Letters & Sciences
- Margie Yates, Interim Associate Provost for Graduate Education
- Melissa Young, Interim Director, CSU Advise

## College of the Arts

- Pat McHenry, Interim Dean
- Ron Wirt, Associate Dean
- Rex Whiddon, COA Director of Development
- Chris Whittey, Chair, Department of Art
- Danna Gibson, Chair, Department of Communication
- Scott Harris, Director, Schwob School of Music
- Larry Dooley, Chair, Department of Theatre

## D. Abbott Turner College of Business

- Linda Hadley, Dean
- Fonda Carter, Associate Dean
- Fonda Carter, Chair, Department of Accounting and Finance
- Shamim Khan, Interim Chair, TSYS School of Computer Science
- John Finley, Chair, Department of Management and Marketing
- Sonya Boadu, Director of Student Services

## College of Education and Health Professions

- Deirdre Greer, Dean
- Jan Burcham, Associate Dean
- Erica Taylor, Associate Dean
- Deniz Peker, Chair, Department of Teacher Education, Leadership and Counseling
- Clay Nicks, Chair, Department of Kinesiology & Health Sciences
- Shawn Cruzen, Executive Director, Coca-Cola Space Science Center
- Janet Alexander, Director, School of Nursing
- Roger Hatcher, Director, Center for Quality Teaching & Learning (CQTL)
- Peter Anderson, Director, Columbus Regional Math Collaborative
- Jean Partridge, Director, Student Advising and Field Experiences
- Michael Dentzau, Executive Director, Oxbow Meadows

## College of Letters and Science

- Annice Yarber-Allen, Dean
- Eliot Rendleman, Associate Dean
- Bridget Downs, Assistant Dean
- Monica Frazier, Interim Chair, Department of Biology
- Ben Kamau, Chair, Department of Criminal Justice and Sociology
- Clint Barineau, Chair, Department of Earth and Space Sciences
- Ben Kamau, Chair, Department of Mathematics
- Kimberly Gill, Chair, Department of Political Science, Philosophy, and Public Administration
- Judi Livingston, Chair, Department of English
- Floyd Jackson, Chair, Department of Chemistry
- Joelle Bonamy, Chair, Modern and Classical Languages
- Doug Tompson, Chair, Department of History and Geography
- Mark Schmidt, Chair, Department of Psychology
- Floyd Jackson, Chair, Environmental Science

- Nick Norwood, Director, Carson McCullers Center for Writers and Musicians
- William Mixon, Director, Command College

## Academic Affairs

- Deborah Bordelon, Provost and Executive Vice President
- Tim Howard, Vice Provost
- Margie Yates, Interim Associate Provost for Graduate Education
- Alicia Bryan, Interim Associate Provost for Faculty Affairs & Academic Innovation
- Terry Moshier, Faculty Affairs Budget and Operations Manager
- Sridhar Sitharaman, Director, Institutional Research
- Kimberly McElveen, Assistant Vice President for Institutional Assessment
- Amber Dees, State Authorization and Academic Compliance Coordinator
- Susan Hrach, Director, Faculty Center
- Samantha Miller Gurski, Interim Director, Continuing Education and CSU Testing Center
- Melissa Young, Interim Director, CSU Advise
- Hillary Fleenor, Director, Academic Center for Tutoring
- Cindy Ticknor, Dean, Honors College
- Eric Spears, Director, Center for Global Engagement
- Courtney Laughlin, Director, Servant Leadership
- Jennifer Knott, Director, Center of Online Learning
- Sallie McMullin, Associate Vice President, Enrollment Management
- Ted Laskaris, Interim Chief Information Officer

## Business and Finance

- Richard Sears, Interim Vice President for Business and Finance
- Anna Brooks, Comptroller
- Melanie White, Director, Budget
- Byron Harris, Director, Transportation & Environmental Safety, Plant Operations
- Kelly Wilson, Executive Director, Facilities
- Steve Morse, Director, Campus Services
- Carole Clerie, Director, Human Resources
- Donna Ogle, Director, Student Accounting Services
- David Mitchell, Director, Enterprise Development
- Vacant, Director, Purchasing
- Richard Barrow, Director of Enterprise Risk Management
- Justin Gurski, Food Services Director

## Student Affairs

- Gina L. Sheeks, Vice President for Student Affairs
- John McElveen, Associate Vice President for Student Affairs
- Aaron "Chip" Reese, Assistant Vice President for Student Affairs
- Mark Lott, Chief, University Police
- Dana Larkin, Assistant Dean of Students
- Sarah Secoy, Director, Residence Life
- Melissa Dempsey, Director, Student Life and Development
- Lauren Jones, Director, Center for Accommodation and Access

- Dan Rose, Director, Counseling Center
- Victoria Roebuck, Director, Student Health Services

## University Advancement

- Rocky Kettering, Executive Director of the CSU Foundation, Vice President for University Advancement
- Jennifer Joyner, Vice President for Alumni Relations and Donor Engagement
- Brett Evans, Senior Director of Development and CSU Fund
- Gena Stone, CFO of CSU Foundations

## University Information and Technology Services

- Ted Laskaris, Interim Chief Information Officer
- Valerie Alexander, Executive Director, Operations and Infrastructure
- Mary Covington, Executive Director, IT Services
- Loretta Marshall, Interim Director, Information Security

## Faculty

President: Christopher L. Markwood

Year Appointed: 2015

B.S., Southwest Baptist University

M.A., Ph.D., University of Missouri - Columbia

Provost & Executive Vice President: Deborah E. Bordelon

Year Appointed: 2018

B.A., M.Ed., Ph.D., University of New Orleans

## Emeriti Faculty

# ACADEMIC REGULATIONS

- Undergraduate Academic Regulations (p. 14)
- Graduate Academic Regulations (p. 23)

## Undergraduate Academic Regulations

### Academic Appeal

Students may appeal a grade received as well as certain degree requirements. Students who wish to exercise this right should follow the appropriate procedure as follows:

- A student who wishes to appeal a grade received that the student feels is unfair or inaccurate should follow the academic grievance process listed under the Student Rights and Responsibilities section of the Student Handbook.
- A student who wishes to appeal a general university requirement should meet with his or her advisor to discuss the nature of the appeal. If both believe the appeal should be considered, the advisor will assist the student in completing an Exception Petition form to be submitted to the university's Academic Standards Committee for review. If the committee recommends approval, the petition is sent to the Vice President for Academic Affairs for a final decision.

### Academic Credit

Credits are expressed in terms of semester hours. The course numbering system used by Columbus State University is such that in general, the first digit of the course corresponds to the level of the class (1- Freshman, 2- Sophomore, 3- Junior, 4- Senior, 5-Senior and Graduate, 6-8- Graduate).

Courses are identified by a three or four-letter prefix and a four-digit number. Select science courses are designated on the schedule and on the students' transcripts by a "K" suffix at the end of the course number. This "K" suffix designates that the lab is embedded with the lecture. An embedded lab means that while the course requires a lecture and a lab, there is only one grade posted for the course.

### Academic Misconduct

The university recognizes honesty and integrity as central virtues of academic life and as fully necessary to its very existence. The university also recognizes and accepts that cooperation, discussion, and group studying outside of the classroom are essential elements of the academic experience, and that students may seek assistance in their studies, such as tutoring and peer review. However, while such practices are acceptable and even encouraged, students must understand the parameters of accountability in their academic performance and need to respect the academic freedom of the faculty. Students are responsible for adhering to the regulations pertaining to academic misconduct published under Student Rights and Responsibilities in the Student Handbook available in the Student Life Office and on the Web at <http://students.columbusstate.edu/>.

### Academic Standing

The progress of all students is evaluated at the end of each semester. Determination of academic standing is based on a student's institutional and semester grade point averages. Students receiving financial aid should also refer to Satisfactory Academic Progress (SAP) under the financial aid section of this catalog. Students on University Support

Status are required to participate in CSU's University Support Program as a condition of registering for courses in the following academic term.

**University Support Status** occurs when a student's institutional grade point average falls below 2.0.

**Continued University Support Status** occurs when, at the end of a semester, a student currently on University Support Status achieves a term grade point average of 2.0 or higher but an institutional grade point average lower than 2.0.

**Removal from University Support Status** occurs when, at the end of a semester, a student's institutional grade point average equals or exceeds 2.0.

### Academic Renewal

Undergraduate students who have been admitted after a period of absence of three calendar years or longer may be eligible for academic renewal. The GPA may be restarted by petitioning the Office of the Registrar for Academic Renewal. This provision allows degree-seeking students who earlier experienced academic difficulty to make a fresh start.

Credit will be retained for previous courses completed with a grade of C or better. Courses completed previously with a grade of D will no longer be used toward degree completion. The renewed GPA will be used to determine academic standing, graduation and eligibility for honors. To graduate, students must meet CSU's residency requirement for graduation after receiving Academic Renewal. Residency for associate degrees is 16 hours. Residency for bachelor's degrees is 31 hours.

Academic Renewal does not supersede financial aid policies regarding the HOPE scholarship program or Satisfactory Academic Progress (SAP). Academic Renewal does not supersede other policies such as required GPA for admission into a new major. Academic Renewal does not remove previous academic standings from CSU transcripts. Academic Renewal cannot be applied to a previously awarded degree.

Students who wish to participate in the Academic Renewal program must submit the request form to the Office of the Registrar. The request must be submitted within one calendar year. A student can be granted Academic Renewal status only one time within the USG system. Once granted, the petition for Academic Renewal cannot be rescinded.

### Academic Year

Columbus State University operates on the semester system, which includes fall, spring, and summer terms.

### Add/Drop/Withdraw

**Adding Courses.** You may add classes during the registration period through the add/drop period. Refer to <http://registration.columbusstate.edu> for specific dates and additional information regarding adding courses.

**Dropping a Course with no Record of Enrollment.** Students may drop one, some, or all of their classes during the Drop/Add period (as specified by the official calendar). Courses dropped in this manner do not appear on a student's transcript and are not considered as hours attempted for financial aid purposes. No grade is assigned for such courses. Tuition payments received will be refunded at 100% for classes dropped during the drop add period.

**Dropping a Course with a Record of Enrollment (W Grade).** Students who withdraw from courses before the withdrawal deadline (as specified by the official calendar) will receive a grade of W.

A grade of W will not affect a student's GPA. However, withdrawing from classes could affect a student's future enrollment status, especially for those receiving financial aid. It is the student's responsibility to determine the impact withdrawing from classes would have on academic standing and degree progress. Refer to <http://registration.columbusstate.edu> (<http://registration.columbusstate.edu/>) for specific dates and additional information regarding course withdrawal.

Students cannot withdraw from courses under the following circumstances:

- A student charged with academic dishonesty may not withdraw from the course in which the alleged offense occurred unless the charge has been overturned through the appeals process. The CSU Office of Judicial Affairs may be consulted for more information about filing an appeal.
- Students that have been reported to the registrar as excessively absent will not be permitted to withdraw from the course.
- Students will not be able to withdraw from their coursework if they have an active financial or registration hold on their record.

**Dropping a Course with a Record of Enrollment (WF Grade).** A grade of WF will be assigned when the student withdraws online past the published deadline (as specified by the official calendar), or when the student submits a roll correction form after the deadline. A student may appeal the assignment of a WF grade by submitting the Grade Appeal Form to the Office of the Registrar once all appropriate signatures and substantiating documentation have been obtained. The appeal will then be forwarded to the Academic Standards Committee for review. The Committee will notify the student of the decision rendered.

A WF grade will calculate in the student's GPA as an F grade.

**Reductions In Attempted Hours.** No refund is available for a reduction in hours due to individual course withdrawals that occur after the drop/add period.

Students should be aware that a reduction in their hours might result in the loss of full-time student status and thus affect their financial aid, scholarships, athletic and ticket eligibility, University housing accommodations, use of University resources and access to University facilities, immigration status for international students, Veterans Educational Benefits. Students should contact the appropriate office and their academic advisor with questions about the impact of their withdrawal from a course before initiating a withdrawal. Students who are returning from academic dismissal are advised to consult with their academic advisor prior to withdrawal because violation of the minimum enrollment requirements can lead to a second dismissal from the University. Veterans and dependents of veterans who receive educational benefits must notify the Veterans Affairs Office of any course load reductions.

**Official Withdrawal from Semester.** An "official withdrawal" occurs when a student withdraws from all courses for that semester. Depending on the date of the student's "official withdrawal", it may be necessary for the University and/or the student to return some or all of the financial aid the student received during the term. Tuition and fee charges will be prorated at a percentage calculated depending on the official date of withdrawal. The refund schedule is posted online in MyCSU.

At the end of each semester we will identify any such students which may result in the University requiring the student to repay all financial aid received for the term.

**Withdrawal for Non-attendance.** Non-Attendance does not constitute a withdrawal. Students are required to withdraw from courses they no longer wish to attend. Instructional departments may request an administrative withdrawal if the student has excessive absences in a course. The term "excessive absences" is defined in the syllabus for the course. The grade assigned for an excessive absence is a WF. See Attendance Policy.

**Unofficial Withdrawal.** An "unofficial withdrawal" occurs when a student stops attending all classes and stops participating in any academic activities beyond the date he/she last attended classes. Federal regulations require students who have been awarded any type of federal student aid to fulfill their academic requirements. Occasionally a student will receive all "F" and/or "WF" grades for a term and we are required to determine whether the student "unofficially withdrew" from the University.

At the end of each semester we will identify any such students which may result in the University requiring the student to repay all financial aid received for the term.

**Hardship Withdrawals.** If a student experiences significant personal hardship (e.g., medical or family emergency, prolonged illness), the Office of the Dean of Students can approve a hardship withdrawal from all courses in the term for which a student is currently registered. In the case of an approved hardship withdrawal from all courses, the Registrar will assign grades of W for those classes. The instructor will be informed of the assignment of the W grade. The deadline for final approval of a hardship withdrawal by Dean of Students is the last day of classes for the semester. If the hardship withdrawal process is not complete by the last day of classes, a student must appeal for a retroactive hardship withdrawal from the Academic Standard Committee.

Tuition and fee charges will be prorated at a percentage calculated depending on the official date of withdrawal. The refund schedule is posted online in MyCSU.

A hardship withdrawal cannot ordinarily be used to withdraw selectively from some courses while remaining enrolled in other courses. Selective withdrawal will be permitted only under exceptional circumstances.

All academic standing rules apply regardless of the circumstances of the withdrawal.

**Administrative withdrawal.** An academic dean may withdraw a student from a course when, in consultation with the instructor, the dean determines that the student has not satisfied the prerequisites for the course.

**Military Withdrawal.** Military reservists who are called to active duty or active duty military personnel who receive change-of-station orders or deployment orders during an academic semester may officially withdraw from the university with a full refund of matriculation fees upon providing a copy of the official orders. Those who have completed sufficient work may be awarded a grade and credit or an I (Incomplete) grade. Military withdrawals are not granted for TDY assignments.

## Age of Credit

Courses, in general, have no limit imposed on the age of credit. However, each academic department may elect to restrict the age of courses

applied to a specific degree program. Please refer to the departmental student handbook.

## Changing or Declaring Majors

Students who wish to declare or change his/her major or add/change their concentration will need to request this in MyCSU on the Student Page, Student Records tab. The appropriate academic department of the new major will address the request. Major change requests approved after the schedule change period will become effective for the following term. Students should note that when changing majors, there is a possibility that additional hours of course work beyond those required for the completion of the original program may need to be taken.

## Class Attendance

**Attendance policy.** Attendance policy is ordinarily established by individual faculty. If an instructor does not provide a written attendance policy statement during the first week of classes, a student is permitted to accumulate a total of nine hours of absences in a three credit-hour course, or the equivalent in courses carrying other credit hours. Regular attendance at class or laboratory is a student obligation. Students are expected to account to individual instructors for absences and, at the discretion of the instructors, to make up all work missed because of absence. Students absent from a previously announced quiz or test may be given a zero on the quiz or test. To be permitted to take a final examination at a time other than the date and time published on the Web at <http://academics.columbusstate.edu/exams/>, students must have permission of the instructor and the dean of the college offering the course.

Student members of an official Columbus State University organization or students whose attendance is required by the faculty or staff person in charge of the group are officially excused from classes when traveling to university-sanctioned events (e.g., athletic event, band competition, etc.) and are to be given the opportunity to complete exams or other assignments missed as a result of this absence provided that no more than 15% of the class hours (INCLUDING other absences) per course per semester are missed. Any absences that exceed the 15% allotted must be approved, in advance, by the faculty member in charge of the class. Exceptions to this policy (i.e., where make-up assignments will NOT be allowed) include programs whose accreditation won't allow 15% as well as interactive classes or laboratory classes where points for attendance and participation are lost due to absences of any kind. Affected students must submit an Event Participation Form, provided by the faculty sponsor, to their instructors at the beginning of the semester, in order to obtain consideration for the make-up work. (The Event Participation Form can be found on the Web at <http://academics.columbusstate.edu/eventform.pdf> (PDF).)

## DegreeWorks

DegreeWorks is a degree auditing system located in MyCSU. It provides easy access for students and advisors to track completed courses and plan for those still needed in preparation for registration and graduation. Students will not be awarded a degree from Columbus State University unless their DegreeWorks is 100% satisfied.

## Directory Information

The items listed below are designated as "Directory Information" at Columbus State University and may be released for any purpose at the discretion of Columbus State University.

- student name
- current enrollment status
- major field of study
- previous dates of attendance
- degrees earned
- email address
- photograph
- participation in officially recognized activities or sports
- awards and honors received

Directory information will be withheld if requested by the student. To withhold directory information, the student must complete the Directory Information Non-Disclosure form.

## Double Majors

Double major consists of two separate majors in the same baccalaureate degree (for example, Bachelor of Science with separate majors in Mathematics and Psychology).

Students are eligible for a double major when the following conditions are met:

- All of the requirements for two CSU majors are satisfied, including all residency and institutional requirements for each major; and
- CSU courses taken to meet residency and institutional requirements of one major may be counted toward the residency and institutional requirements for the second major;
- At least 21 semester hours of unduplicated upper-division coursework required for each major; and
- The second major must be completed at the time of graduation with the first major.

Whether in one degree or two, a student may not graduate with more than two majors.

## Dual Degree

A dual degree consists of two separate majors leading to different baccalaureate degrees (for example, Bachelor of Arts degree with a major in English and Bachelor of Science degree with a major in Mathematics).

Students are eligible for a dual degree when the following conditions are met:

- All of the requirements for two CSU degree programs are satisfied, including all residency and institutional requirements for each degree program; and
- CSU courses taken to meet residency and institutional requirements for one degree may be counted toward the residency and institutional requirements of the second degree;
- At least 21 semester hours of unduplicated upper-division coursework required for each degree; and
- The second degree must be completed at the time of graduation with the first degree.

## Second Bachelor's Degrees

A second bachelor's degree consists of students who have previously earned a baccalaureate degree from a regionally accredited institution and are also enrolling and obtaining a second baccalaureate degree at CSU. The second degree can be the same as the first degree (for example, Bachelor of Science in Mathematics - first degree, and Bachelor

of Science in Psychology - second degree) or the second degree can be different from the first degree (for example, Bachelor of Arts in English- first degree, and Bachelor of Science in Mathematics- second degree).

The second baccalaureate degree requires satisfying the following requirements:

- Meet all major requirements (including prerequisite courses) listed for the chosen program of study.
- Complete the Georgia Legislative History and Constitution requirements.
- Earn at least 25 percent of the credit hours, through instruction offered by Columbus State. If the first baccalaureate degree was earned at CSU, these hours must be in excess of any hours used toward the first baccalaureate degree, unless the first degree was received within five years of receiving the second degree.
- Complete at least 21 semester hours of upper-division coursework in residence beyond the courses required for the student's first degree.
- If the first degree is earned at Columbus State University, a student may seek a second baccalaureate degree only if the second major is significantly different from the first major.

## Enrollment/Degree Verification

Columbus State University has authorized the National Student Clearinghouse to act as our agent for all verifications of student enrollment and award of degrees. Once registration is final, the Office of the Registrar reports enrollment data monthly to the National Student Clearinghouse. Students may request a verification of enrollment via the Student Records tab in MyCSU. To verify a degree, please visit the Clearinghouse online at [www.studentclearinghouse.org](http://www.studentclearinghouse.org) (<http://www.studentclearinghouse.org>).

## Grades and Grade Point Averages (GPA)

Columbus State University uses a 4.0 grade point system.

### Grades Averaged in the GPA

| Grade                                | Grade Points Per Semester Hour |
|--------------------------------------|--------------------------------|
| A, Excellent                         | 4                              |
| B, Good                              | 3                              |
| C, Average                           | 2                              |
| D, Poor, passing                     | 1                              |
| F, Failing                           | 0                              |
| WF, Withdrawal, failing <sup>1</sup> | 0                              |

<sup>1</sup> WF is assigned when a student withdraws from a course after the W grade deadline or when an instructor drops a student for excessive absences.

### Grades Not Averaged in the GPA

| Grade | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| I     | Indicates that a student was doing satisfactory work but, for non-academic reasons, was unable to meet the full requirements of the course. The requirements for removing an I grade and the length of time for completing work (not to exceed 12 months) are left to the instructor. The student will, however, receive a copy of the written plan for completion of the course (also copied to the department chair). The instructor has the option of reporting a default grade if the work is not completed by the completion date. If no default grade is submitted the grade of I will be changed to F by the registrar. |
| IP    | Indicates that credit has not been given in a course that requires a continuation of work beyond the semester for which the student registered for the course. The use of this grade is approved for learning support courses, directed studies, internships, practica, project courses, and exit examinations. Students enrolled in a learning support course must re-enroll in the course. This grade cannot be substituted for an I grade.                                                                                                                                                                                  |
| W     | Indicates that a student was permitted to withdraw without penalty. Withdrawals without penalty will not be permitted after the W grade deadline except in cases of hardship as determined by the Academic Standards Committee. A W grade may also be awarded in the case of credit by examination courses and for excessive absence when auditing a course.                                                                                                                                                                                                                                                                   |
| S     | Indicates that credit has been given for completion of degree requirements other than academic course work. These are limited to student teaching, clinical practica, junior seminars, internships, college success courses, exit examinations, and senior projects as specified in the course descriptions section of the catalog.                                                                                                                                                                                                                                                                                            |

|           |                                                                                                                                                                                                                                                                                                                                             |
|-----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>U</b>  | Indicates unsatisfactory performance in an attempt to complete degree requirements other than academic course work. These are limited to student teaching, clinical practica, junior seminars, internships, college success courses, exit examinations, and senior projects as specified in the course descriptions section of the catalog. |
| <b>V</b>  | Indicates that a student audited a course. Students may not change from audit to credit status or vice versa after the first week of the term.                                                                                                                                                                                              |
| <b>K</b>  | Indicates that a student was given credit for a course through examination.                                                                                                                                                                                                                                                                 |
| <b>WM</b> | Withdrawn for military purposes/deployment.                                                                                                                                                                                                                                                                                                 |

An asterisk (\*) following a grade indicates that the course is developmental studies, learning support, or basic studies and no degree credit was awarded. Courses with this symbol are not calculated into the GPA.

A less than symbol (<) following a grade indicates that the course is below college level, but not learning support or basic studies. Courses with this symbol are not calculated into the GPA.

A pound symbol (#) following a grade indicates that Academic Renewal was granted. Courses with this symbol are not calculated into the GPA.

## COVID-19 Grade Codes

**I9** Indicates the student was doing satisfactory work, but was unable to meet the full requirements of the course.

**W9** Indicates the student was allowed to withdraw from class without academic or SAP penalty.

## How to Compute a GPA

1. multiply the number of grade points earned (A=4; B=3; C=2; D=1; F=0; WF=0) by the number of GPA credit hours for the course;
2. add all GPA credit hours together;
3. add all grade points together;
4. divide the total grade points by the total number of GPA credit hours

| Course        | Credit Hours        | Grade Points           |
|---------------|---------------------|------------------------|
| ENGL 1101     | 3 (hrs) x 4 (A) =   | 12                     |
| MATH 1111     | 3 (hrs) x 3 (B) =   | 9                      |
| HIST 1112     | 3 (hrs) x 2 (C) =   | 6                      |
| BIOL 2221     | 3 (hrs) x 3 (B) =   | 9                      |
| PEDS 2376     | 1 (hrs) x 3 (B) =   | 3                      |
| <b>Totals</b> | <b>13 GPA hours</b> | <b>39 grade points</b> |

39 divided by 13 = 3.00  
GPA

*Note: Grades of I, IP, W, WM, S, U, V, and K do not have GPA hours nor grade points, and are not used in computing a grade point average.*

## Explanation of Grade Point Averages

The following grade point averages are computed and are used to determine the fulfillment of academic requirements. The semester, Regents' (cumulative), institutional, and overall grade point averages appear on the official academic transcript. The formula above is used to compute all grade point averages. GPA hours are determined using grades of A, B, C, D, F, and WF, excluding courses numbered 0001-0999.

**Semester grade point average** is computed using GPA hours attempted and grade points earned for the semester, excluding courses numbered 0001-0999.

**Regents' (cumulative) grade point average** is computed using the total number of GPA hours attempted at Columbus State University and the total number of grade points earned at Columbus State University, excluding courses numbered 0001-0999. Courses repeated will be averaged into the Regents' grade point average every time taken.

**Institutional grade point average** is computed using the total number of GPA hours attempted at Columbus State University and the total number of grade points earned at Columbus State University (excluding courses numbered 0001-0999) after applying the Academic Forgiveness Policy, explained below. For example, if a student made a C in ENGL 1101 in Fall 2019, then repeated the course and made a D in Spring 2020, only the C from Fall 2019 would be calculated into the Institutional GPA.

**Overall grade point average** is computed using the total number of GPA hours attempted at Columbus State University and all other institutions attended and the total number of grade points earned at Columbus State University and all other institutions attended (excluding courses numbered 0001-0999) after omitting all but the highest grade of courses that have been repeated at Columbus State University (except in the case of courses that may be repeated for credit), as explained in the Academic Forgiveness Policy below.

**Degree progress grade point average** is computed using the total number of credit hours applied to the degree and the total number of grade points applied to the degree. This GPA is calculated using the courses that DegreeWorks applies to the program.

**Major grade point average** is computed using the total number of grade points earned in major courses (as designated by the department offering the major) and the total number of credit hours for those courses. Students should contact their major department for details on their major GPA.

### HOPE and Zell Miller STEM GPA Boost

Some courses in STEM (Science, Technology, Engineering, and Math) fields have been approved to receive an additional 0.5 point per credit hour for students who earn a B, C, or D grade in these courses. This credit addition affects only the HOPE and Zell Miller GPA. For a complete list of STEM courses approved for the GPA boost, please access the STEM Weighted Courses Directory ([https://apps.gsfc.org/securenextgen/dsp\\_stem\\_course\\_listings.cfm](https://apps.gsfc.org/securenextgen/dsp_stem_course_listings.cfm)) available at the GA Futures website and then select Columbus State University among the list of University System of Georgia Institutions. The GPA boost will not appear on a student's transcript, and it will not be used in calculating academic standing; eligibility for the Dean's List or President's List; eligibility for various honors organizations; or eligibility for graduation or graduation honors.

Transfer courses will be given the GPA bump if and only if a course was approved as a HOPE and Zell Miller STEM course at a participating Georgia institution and was taken during or after the Fall 2017 semester.

Transfer courses from non-participating institutions that equate to Georgia College STEM courses will not receive additional GPA points at Georgia College. Students interested in transferring credit from another Georgia institution should consult that institution to determine if a course will carry the STEM bump at that institution.

## Grade Changes

Grade changes shall be initiated by the course instructor, and the department chair in which the course is offered or his or her designee must approve a grade change before it will be honored by the Office of the Registrar. Final grades will not be changed after one calendar year from the date assigned except by appeal to, and subsequent approval by, the university's Academic Standards Committee. A grade that appears to be incorrect should be reported to the instructor promptly. No grade changes will be accepted after graduation.

## Grade Reports and Transcripts

Reports of final grades are available in MyCSU on the Students Page and Student Records tab. The academic transcript includes all undergraduate and graduate credit courses taken at Columbus State University. Transcripts should be requested in MyCSU or directly through Credential Solutions linked on the Office of the Registrar website. University policies regarding release of academic records and compliance with regulations under the Family Educational Rights and Privacy Act of 1974.

## Graduation

Applications for graduation should be submitted in MyCSU on the Students Page and the Student Records tab by the deadline below. A non-refundable graduation fee of \$60 is required whether or not participating in the ceremony. Fee will be applied to student's invoice for the intended graduation term. Students participating in the graduation ceremony are required to have the appropriate graduation regalia – i.e. cap and gown, etc.

### Graduation Application Deadline:

Spring- January 30

Summer- May 30

Fall- August 30

Candidacy requirements must be completed no later than the official graduation candidacy deadline of the intended term of graduation. Candidacy requirements are:

- Enrollment in all courses required for degree completion. Students enrolled in other institutions during the final term must submit proof of enrollment.
- All approved substitutions/waivers must be reflected in Degree Works.
- Removal of all "Incomplete" grades from their record.
- Associates and Bachelors: Completion of the Outcomes Assessment test, and the U.S. and Georgia history and constitution requirements.
- All students must meet the 25% residency requirement.
- All students must have a minimum overall grade point average of 2.00 for graduation. Specific degree programs may have higher requirements.
- \$60.00 graduation fee

Students who satisfy the above requirements will be considered candidates for graduation and will be eligible to participate in graduation ceremonies.

Credentials will only be awarded for officially declared programs.

Students who do not satisfy degree requirements will have their graduation application deferred.

**Honors.** Students who have attained high scholastic achievement are recognized at graduation by being designated honor graduates. Academic honors announced at graduation will be based on grade point averages calculated the semester prior to the graduation term. Honors reflected on the diploma and transcript will be determined by GPA calculation including the final semester. Students attending Columbus State University only must attain an honors grade point average on course work attempted at the university. Transfer students must attain an honors grade point average on course work attempted at Columbus State University and an honors grade point average on the combined total of courses attempted at Columbus State University and all other institutions attended. Students seeking an additional baccalaureate degree must earn at least 60 additional semester hours in residence at Columbus State University with an honors grade point average.

Honor designations and corresponding grade point averages required are:

### **Baccalaureate Degree**

Summa cum laude 3.80 - 4.00

Magna cum laude 3.60 - 3.79

Cum laude 3.40 - 3.59

### **Associate Degree**

High honors 3.80 - 4.00

Honors 3.50 - 3.79

**Graduation ceremony.** A graduation ceremony is held at the end of the fall and spring semesters. Students who do not plan to attend the ceremony must indicate so on the application for graduation.

Fall and Spring candidates may only participate in a graduation ceremony in the term of which their degree requirements are completed.

Students completing the requirements at the end of a summer term may participate only in the fall semester graduation ceremony. Students with extenuating circumstances may appeal.

Participation in a commencement ceremony does not constitute earning a degree, and the conferred date on a diploma will coincide with the semester that the degree requirements are completed.

Students are invited to take part in commencement, but participating is not required in order to have a degree awarded.

Students who petition after the established deadline are not guaranteed to be represented in the commencement program.

Graduated students who wish to continue enrollment after earning a degree must complete a readmission application to update their student status.

## Holds

Holds may be placed on a student's record in order to satisfy an obligation owed to the university. Holds are displayed in MYCSU. Failure to return library books, equipment or lab supplies may also result in a financial hold. Registration and transcript requests may not proceed unless all holds are removed.

## Math Requirements

All undergraduate students are required to complete an Area A Math course during their first 30 semester hours of study. Selecting the appropriate Math course depends on the student's major, career goals, and preparedness for the study of college-level Mathematics. The lists below indicate recommended Area A Math courses according to the discipline of study. As indicated, students majoring in science, computer science, information technology, and mathematics are required to take Pre-calculus, or Calculus; students in Robotics Engineering are required to take calculus.

### Disciplines that require Pre-calculus or Calculus

- Biology
- Chemistry
- Computer Science
- Cybersecurity
- Earth and Space Sciences
- Information Technology
- Mathematics
- Middle Grades Education (Math and Science concentrations)
- Robotics Engineering (calculus is required)

### Disciplines that recommend College Algebra

- Business (including Accounting, Finance, General Business, Management, Management Information Systems, and Marketing)
- Exercise Science
- Health Science
- Kinesiology

### Disciplines that recommend Elementary Statistics

- Criminal Justice
- English
- History
- Sociology

### Disciplines that recommend Quantitative Skills and Reasoning or Mathematical Modeling

- Art
- Art History
- Communication
- Elementary Education
- Interdisciplinary Studies
- Middle Grades Education (Language Arts and Social Studies concentrations)
- Music
- Nursing
- Political Science
- Psychology
- Spanish
- Spanish Education
- Theatre

### Math Placement

Before the term begins, each new student will receive a math placement, which indicates the highest course into which the student is permitted to enroll, based on ACT or SAT math scores, high school GPA among CPC courses completed at the time of admission, and an optional mathematics placement test. This placement may require the completion of co-requisite learning support courses. Students admitted through Learning Support will take the Accuplacer Math test for appropriate placement.

Non-traditional students will be placed in MATH 1001 and 0997B upon applying to Columbus State University. These students may take the Accuplacer Math test for a placement in a higher Math course.

| Maximum Placement | Disciplines that require College Algebra, Pre-calculus, or Calculus | Disciplines that recommend Quantitative Skills and Reasoning or Mathematical Modeling |
|-------------------|---------------------------------------------------------------------|---------------------------------------------------------------------------------------|
| Level 1           | MATH 1111 College Algebra + MATH 0999B                              | MATH 1001 Quantitative Skills and Reasoning + MATH 0997B                              |
| Level 2           | MATH 1111 College Algebra + MATH 0999C                              | MATH 1001 Quantitative Skills and Reasoning + MATH 0997C                              |
| Level 3           | MATH 1111 College Algebra                                           | MATH 1001 Quantitative Skills and Reasoning (or MATH 1101 Mathematical Modeling)      |
| Level 4           | MATH 1125 Applied Calculus (or MATH 1113 Pre-calculus)              | MATH 1111 College Algebra                                                             |
| Level 5           | MATH 1131 Calculus with Analytical Geometry 1                       | MATH 1113 Pre-calculus                                                                |

The ACT Math Readiness Score is calculated as follows:

**Score = ACTM + (9x GPA),**

Where GPA is the student's high school grade point average among CPC courses completed at the time of admission to the university. Sufficiently high readiness scores will enable students to place directly into the following courses:

| ACT Math Readiness of at least | Eligible to register for the following courses                   |
|--------------------------------|------------------------------------------------------------------|
| Up to 49                       | MATH 1111 concurrently with MATH 0999B*, MATH 1001, or MATH 1101 |
| 43-49                          | MATH 1111 concurrently with MATH 0999C                           |
| 50                             | MATH 1111                                                        |
| 55                             | MATH 1113, or MATH 1125                                          |

The SAT Math Readiness Score is calculated as follows:

**Score = SATM + (200 x GPA),**

where GPA is the student's high school grade point average among CPC courses completed at the time of admission to the university. Sufficiently

high readiness scores will enable students to place directly into the following courses:

| SAT Math Readiness of at least | Eligible to register for the following courses                   |
|--------------------------------|------------------------------------------------------------------|
| Up to 1199                     | MATH 1111 concurrently with MATH 0999B*, MATH 1001, or MATH 1101 |
| 1050- 1199                     | MATH 1111 concurrently with MATH 0999C                           |
| 1200                           | MATH 1111                                                        |
| 1300                           | MATH 1113, or MATH 1125                                          |

**If a student changes his/her major, he/she may have to take additional math requirements depending on the new major selected.** The student should contact his/her academic advisor for more details.

A student may wish to take the Math Placement exam at the CSU Testing Center if one or more of the following conditions apply:

- The student's math readiness score indicates that he/she is not eligible to take the math course required by his/her major;
- The student does not feel that the score he/she earned on the mathematics portion of the SAT or ACT is indicative of his/her true mathematical ability; or
- The student wishes to enroll in MATH 1131: Calculus with Analytic Geometry 1.

If a student chooses to take the Math Placement test, it is highly recommended that he/she utilize the links below to prepare for the test and that he/she arranges a time to take the test prior to his/her scheduled Orientation date if possible.

- <https://Accuplacer.Collegeboard.org> (<http://fye.columbusstate.edu/>)
- <http://fye.columbusstate.edu/> (click on Preparation for Accuplacer Skills or Math Placement Testing)

The Math Placement test is administered by appointment at the CSU Testing Center. Appointments are scheduled online at <http://testing.columbusstate.edu> (<https://testing.columbusstate.edu/>). A government-issued photo ID with signature (such as a valid driver's license) is required. There is a \$35 fee for the test.

#### Credit for Prior Learning in Mathematics

If a student has taken an Advanced Placement (AP) test and has earned credit for a mathematics course, he/she should have an official score report sent from College Board directly to the CSU Office of the Registrar. Upon receipt of the official transcript, the score(s) will be evaluated and, if appropriate, credit awarded. The AP exams that would apply to the Area A requirement are listed below.

| AP Test     | Score Earned | CSU Credit Awarded      | CSU Credit Hours |
|-------------|--------------|-------------------------|------------------|
| Calculus AB | 3, 4, or 5   | MATH1131                | 4                |
| Calculus BC | 3, 4, or 5   | MATH 1131 and MATH 1132 | 8                |

#### Transfer Students

Students who have transferred a college-level math course from another institution should check with their academic advisor prior to registering for an additional math course. Transfer students who have not taken a

math course previously must take the Math Placement exam at the CSU Testing Center. Students who have taken the ACT or SAT no longer than two years before enrollment may provide test scores and a high school transcript to determine a math readiness score for placement in lieu of taking the placement exam.

## Minors

Courses taken to satisfy core areas A- E may not be counted as coursework in the minor. Courses required in areas F- G of a student's major may be applied toward a minor as long as the minor field and major field of study are from significantly different disciplines.

## Privacy of Student Records

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights to access and amend incorrect educational records. It also regulates the disclosure of record information to outside parties. All students regardless of age must give written permission to release academic records to anyone who is not associated with the university, including parents or legal guardians. According to the U.S. Department of Education, "under FERPA, schools may release any and all information to parents, without the consent of the eligible student, if the student is dependent for tax purposes under IRS rules."

For additional information, students should review the Office of the Registrar website or the federal FERPA website at [www2.ed.gov/policy/gen/guid/fpco/index.html](http://www2.ed.gov/policy/gen/guid/fpco/index.html) (<http://www2.ed.gov/policy/gen/guid/fpco/>).

## Registration

Registration procedures at Columbus State University are maintained by the Office of the Registrar. Notifications of these procedures and any changes in the Academic Calendar will be posted on the University website.

**Early registration.** A special advisement and early registration period is held each semester. Before early registration begins, all advisors set aside ample time to be available for academic advisement for the upcoming semester. Students are encouraged to make an appointment each semester to take advantage of this opportunity. The advising hold will be removed after the advising session.

**Late registration and schedule change.** Students who do not register early may register during late registration prior to the first day of classes. Additionally, students who wish to change their schedules may do so during the late registration and schedule change periods. A late registration fee may be assessed to any student registering outside the published registration dates.

Students may register via the web in MyCSU on the Students Page and Student Records tab. Please refer to the Columbus State University Class Schedules page on the university's Web for specific dates and information regarding early registration, late registration and schedule change.

In keeping with Board of Regents' policy, students are required to pay all tuition and fees by the published Fee Payment Deadline. Students are not considered enrolled in the institution until all tuition and fees have been paid. Students who do not pay their tuition and fees by the published deadline may be subjected to a drop for non-payment.

Verification of attendance in all courses is required by the primary faculty member and must be completed by the published deadline. Students who

are reported as never attended during the first two weeks of class will be removed from the official class roll.

Regularly enrolled students may audit a course. No academic credit shall be awarded for audit status. No changes from audit to credit or credit to audit will be permitted after the last day of the schedules drop/add period for the term. Students auditing courses will be required to pay regular tuition and fees for enrollment. Courses taken as audit do not count toward financial aid eligibility. A grade of V is assigned for the audited course.

Students eligible to register must enroll during one semester during the year. If a student is not enrolled four (4) terms or more (including summer), he/she must apply for readmission through the Office of Undergraduate Admissions. The student would then be subject to the curriculum rules and regulations of the new academic catalog.

## Repetition of Courses for Credit

**Repeat credit.** Certain courses may be repeated for credit. To determine if a course may be repeated for credit, refer to the course description in this catalog.

**Forfeiture of credit.** Students who repeat a course for which credit has already been earned either at Columbus State University or by transfer of credits from another institution forfeit all but the highest course grade (except in the case of courses that may be repeated for credit). For example, a student makes a C in Math 1001 at another institution, transfers that credit to CSU, repeats the equivalent course at CSU, and makes a D. In this case, the CSU credit would be forfeited and the transferred C would apply to the student's program. The student's GPA would be calculated according to the policies listed above. After earning a baccalaureate degree at Columbus State University, a student will forfeit credit earned for courses taken as repeats after graduation (except in the case of courses that may be repeated for credit).

### Academic Forgiveness Policy

Students may repeat courses to improve their academic record at Columbus State University. The policies regarding academic forgiveness are as follows:

- The courses must be taken and repeated at Columbus State University. Transferred courses are not calculated in the institutional grade point average.
- The institutional (forgiveness) grade point average is maintained on the academic record. Only the highest grade will be included in the institutional grade point average when a course is repeated.
- The institutional grade point average is used to determine graduation with honors and admission to certain academic programs. Students should consult individual program admission requirements to determine whether the Regents' (cumulative) or institutional grade point average is required for admission.

## Semester Honors

**President's List:** Students who have a semester GPA of 3.8- 4.0 while enrolled in 12 or more hours, who have no remedial courses and no course with incomplete grades.

**Dean's List:** Students who have a semester GPA of 3.6- 3.79 while enrolled in 12 or more hours, who have no remedial courses and no course with incomplete grades

## Student Notification Policy

Upon admission to Columbus State University, each student is provided with a student email account. Student email is the official channel of communication between the University and its students. It is the responsibility of the student to periodically monitor his/her student e-mail account and be aware of the information sent by the University. Lack of knowledge that results from failure to monitor University email communications will not excuse students from complying with University policies, procedures and/or deadlines and will not be considered grounds for appeal for relief from those policies, procedures and deadlines.

## Study Loads

**Normal study load.** Students enrolled in 12 semester hours or more are considered full-time. However, most courses count as three semester hours of credit, and the normal course load for full-time students is five courses or 15 semester hours.

**Academic overload.** Enrollment in more than 19 semester hours during a fall or spring semester and more than 13 semester hours during a summer term is considered an overload. Academically superior students may take an overload only with the approval of the dean of the college in which they are enrolled.

**Enrollment status<sup>1</sup>.** Enrollment status for undergraduate students is based on the number of hours enrolled during a semester, excluding withdrawn courses, as follows:

| Number of Semester Hours Enrolled Undergraduate Enrollment Status |                     |
|-------------------------------------------------------------------|---------------------|
| 12 or more                                                        | Full-time           |
| 9 to 11.99                                                        | Three Quarter-Time  |
| 6 to 8.99                                                         | Half-time           |
| 5.99 or less                                                      | Less than Half-time |

<sup>1</sup> For summer terms, enrollment status certification other than for financial aid is determined as follows: 6 semester hours or more, full time; 3-5 semester hours, half time; and 1-2 semester hours, less than half time. Enrollment in a course as an audit student does not count toward enrollment status for federal or state financial aid programs. Students on financial aid seeking information about how enrollment status may impact financial aid eligibility (<http://finaid.columbusstate.edu/enrollstatus.php>) should contact the Financial Aid office.

**Classification.** Classification is based upon the number of semester hours a student has earned, as follows:

| Semester Hours Earned | Classification |
|-----------------------|----------------|
| 0 - 29                | Freshman       |
| 30 - 59               | Sophomore      |
| 60 - 89               | Junior         |
| 90 or more            | Senior         |

**Undergraduate Students and Graduate Work.** Undergraduate students with a minimum institutional grade point average of 2.75 who are within six semester hours of completing the baccalaureate degree from Columbus State University may register for graduate courses upon recommendation of their advisor. The total course load may not exceed 12 semester hours. A grade of B or better in the graduate course is required for use toward a master's degree. No more than nine semester hours of graduate credit may be earned before completion of the baccalaureate degree. Under no circumstances may a course be

used for both graduate and undergraduate credit. Students must submit an application for graduation prior to registering for graduate courses; the registrar will verify eligibility for enrollment. Students desiring to take College of Education and Health Professions courses must fulfill graduate admission requirements and be accepted for graduate studies in their desired program area prior to enrollment.

## Testing

The CSU Testing Center, located on the 2nd floor of the Elizabeth Bradley Turner Center, is a nationally certified test center that provides institutional testing, professional certification and licensure tests, other academic tests, and proctor services for current and prospective CSU students, students of other educational institutions, and the community at large. Tests administered for CSU students include ACCUPLACER, the Math Placement test, the U.S. and Georgia History and Constitution exams, the nursing entrance exam, CLEP tests, and the Student Outcomes Assessment, among others. The Center also operates a Prometric Testing Center, which administers GRE, TOEFL, FINRA, USMLE, PMI, and CPA among many other academic and professional certification and licensure exams.

## Transient Permission

A Columbus State University student must be in good standing and must obtain prior approval to enroll in any and all credit courses at any other institution as a transient or visiting student. This prior approval must be obtained from the student's Columbus State University academic department chair. Students who do not request (and receive) transient permission to attend another institution or who do not take the requested/approved courses risk not having their course applied to their CSU degree program.

## U.S. and Georgia Constitutions and History Requirements

Georgia law requires that all candidates for a degree from an institution supported by public funds shall pass an examination of the history of the United States and the history of Georgia and an examination upon the provisions and principles of the United States Constitution and the Constitution of Georgia. The requirements for instruction in the above areas can be met by passing a test in each of the four areas or by satisfactorily completing one of the following courses at Columbus State University or a university in the University System of Georgia: HIST 2111, HIST 2112 or POLS 1101.

Students who transferred from a Technical College System of Georgia (TCSG) institution and have earned credit for HIST 2111 or HIST 2112, will satisfy the Georgia History and U.S. History requirements only. Students with earned credit for POLS 1101, will satisfy the Georgia Constitution and the U.S. Constitution requirements only.

Students who transferred one or more of these courses to Columbus State University from a private or out-of-state institution, will have to take at least two exams to meet the mandated requirements. See the following exam options:

- Students who transferred from another state or received AP or CLEP credit for POLS 1101 & HIST 2111 or HIST 2112 will need to take the Georgia Constitution and the Georgia History exam.
- Students who transferred from another state or received AP or CLEP credit for POLS 1101 will need to take the Georgia Constitution, Georgia History, and U.S. History exams.

- Students who transferred from another state or received AP or CLEP credit for HIST 2111 or HIST 2112 will need to take the U.S. Constitution, Georgia Constitution and Georgia History exams.

## Graduate Academic Regulations

### Academic Appeal

Students may appeal a grade received as well as certain degree requirements. Students who wish to exercise this right should follow the appropriate procedure as follows:

A student who wishes to appeal a grade received that the student feels is unfair or inaccurate should follow the academic grievance process listed under the Student Rights and Responsibilities section of the Student Handbook.

A student who wishes to appeal a general university requirement should meet with his or her advisor to discuss the nature of the appeal. If both believe the appeal should be considered, the advisor will assist the student in completing an Exception Petition form to be submitted to the university's Academic Standards Committee for review. If the committee recommends approval, the petition is sent to the Vice President for Academic Affairs for a final decision.

### Academic Credit

Credits are expressed in terms of semester hours. The course numbering system used by Columbus State University is such that in general, the first digit of the course corresponds to the level of the class (1- Freshman, 2- Sophomore, 3- Junior, 4- Senior, 5-Senior and Graduate, 6-8- Graduate).

Courses numbered 6000 and above are open only to graduate students. Courses with 5000 numbers are open to both graduate and advanced-standing undergraduate students. In these courses, however, graduate students must do more extensive reading, prepare additional reports, and produce papers or other projects requiring more intensive research.

**Undergraduate Students and Graduate Work.** Undergraduate students with a minimum institutional grade point average of 2.75 who are within six semester hours of completing the baccalaureate degree from Columbus State University may register for graduate courses upon recommendation of their advisor. The total course load may not exceed 12 semester hours. A grade of B or better in the graduate course is required for use toward a master's degree. No more than nine semester hours of graduate credit may be earned before completion of the baccalaureate degree. Under no circumstances may a course be used for both graduate and undergraduate credit except in the case of approved BS to MS programs. Students must submit an application for graduation prior to registering for graduate courses; the registrar will verify eligibility for enrollment. Students desiring to take College of Education and Health Professions courses must fulfill graduate admission requirements and be accepted for graduate studies in their desired program area prior to enrollment.

### Academic Misconduct

The university recognizes honesty and integrity as central virtues of academic life and as fully necessary to its very existence. The university also recognizes and accepts that cooperation, discussion, and group studying outside of the classroom are essential elements of the academic experience and that students may seek assistance in their studies, such as tutoring and peer review. However, while such practices are acceptable and even encouraged, students must understand the

parameters of accountability in their academic performance and need to respect the academic freedom of the faculty. Students are responsible for adhering to the regulations pertaining to academic misconduct published under Student Rights and Responsibilities in the Student Handbook (<http://students.columbusstate.edu/policies.php>) available in the Student Life Office and on the Web at <http://students.columbusstate.edu/>.

## Academic Standing

**Non-degree Status.** Non-degree students seeking re-certification, endorsement, or professional development must also meet the following academic standing requirements.

Students classified as non-degree cannot use these credits toward any degree at Columbus State University unless previously approved by the appropriate graduate program director.

**Required Academic Standing.** Students enrolled in a degree program must maintain a minimum graduate overall grade point average of 3.0 for the masters and specialist degrees and a 3.25 for the Doctor of Education. The overall GPA of 3.0 also applies to undergraduate courses which are required in some graduate programs. Students must be in Good Academic Standing to be eligible for graduation and for admission to Doctoral Candidacy.

Courses earned with grades of "D" may not be used toward a graduate degree or certificate, but will be calculated in the overall grade point average.

Courses with earned grades of "C" or below may not be transferred from another institution for credit toward a graduate degree or certificate.

A maximum of two courses (not to exceed eight semester credit hours) with a grade of "C" may apply to a masters degree.

A maximum of one course (not to exceed four semester credit hours) with a grade of "C" may apply to a specialist degree in education.

A minimum graduate program grade point average of 3.25 is required in the doctoral program. A maximum of one course with a grade of C may apply to the Doctor of Education in Curriculum and Leadership. Courses with earned grades of D or below (including grades of D, F, or WF) may not be used toward degree or certification completion, but will be calculated in the overall graduate grade point average.

Graduate students are expected to maintain Good Academic Standing as they progress toward completing their programs. Students will be evaluated each term on the basis of the overall GPA. The academic standing of graduate students is classified as follows:

1. Good Academic Standing
2. Academic Probation
3. Academic Exclusion

**Good Academic Standing.** Good Academic Standing is defined for graduate students as an overall GPA of 3.0 or higher.

**Additional Policy for Academic Standing of EdD Students.** Ed.D students will be evaluated each semester or term based on their final course grades. The following values will be denoted for each final course grade: C = 1; D, F, WF or U = 2. If an EdD student earns at least 1 point, he or she will be notified in writing by the Director of the Doctoral Program in Education and will receive an academic warning. A student who earns 2 points will be placed on academic probation. If an EdD student

accumulates 3 or more points, the EdD student will be placed on academic exclusion.

**Academic Probation.** A student whose overall grade point average falls below 3.0 (3.25 for the Doctor of Education) after the completion of at least nine (9) hours of graduate work in their program begins the next term on academic probation. A student must earn a term GPA of 3.0 or higher (3.25 for the doctoral degree) each term while on Academic Probation.

One of three possible actions will be implemented for a student on Academic Probation at the end of each term of enrollment:

1. A student who earns a term GPA of 3.0 or higher and raises his or her overall GPA to 3.0 or higher will return to Good Academic Standing.
2. A student whose term GPA is 3.0 or higher, but whose overall GPA remains below 3.0, will remain on Academic Probation.
3. A student who earns a term GPA below 3.0 while on Academic Probation, regardless of the overall GPA, will be excluded for one term.

In 1-3 above, the minimum requirement for the doctoral degree is 3.25.

**Removal from Probation.** Occurs when at the end of a probationary term a student's graduate overall grade point average equals or exceeds 3.0; 3.25 for the Doctor of Education.

**Academic Exclusion.** Occurs when a student on academic probation earns a term GPA below 3.0, regardless of the overall GPA.

The length of exclusion will be a minimum of one term. One term is defined as the Fall, Spring, or Summer term. The Summer term includes all sessions; thus, an excluded student is required to sit out all sessions that comprise the Summer term. The student must apply to be reinstated by the program and college.

**Reinstatement for the Masters and Specialist Degrees.** After the mandatory period of exclusion, a student on academic exclusion must apply for reinstatement by the appropriate program, either to a degree program or to non-degree status, in order to continue graduate study.

The student on Academic Exclusion is not guaranteed the opportunity to return to the University. The excluded student must apply for reinstatement to return to the University and program after the one-term absence. Reinstatement criteria are established by the college or school which houses the student's graduate program.

If a student's request for reinstatement is approved by the program that excluded the student by any other program, the student returns to the University on Academic Probation. One of three possible actions will be implemented for a reinstated student on Academic Probation at the end of each term of enrollment:

1. A reinstated student who earns a term GPA of 3.0 or higher and raises his or her overall GPA to 3.0 or higher will return to Good Academic Standing.
2. A reinstated student who earns a term GPA is 3.0 or higher, but whose overall GPA remains below 3.0, will remain on Academic Probation.
3. A reinstated student who earns a term GPA below 3.0 while on Academic Probation, regardless of the overall GPA, will be academically excluded from the University.

**Reinstatement for the Doctor of Education Program.** The mandatory period of exclusion is a minimum of one term. Students must apply for

reinstatement after the period of exclusion to the College of Education and Health Professions Doctoral Admissions Committee.

## College, Department, or Program-Specific Academic Standards

General Academic Standards apply to all graduate programs, which include both degree and certification programs. Some colleges/school, departments, or programs have additional and/or different academic standards which govern a student's progress toward program completion. Students should be aware of the academic regulations that apply to their programs of study and to the process and requirements for readmission.

## Process for Applying for Readmission Following Exclusion

The student on Academic Exclusion is not guaranteed the opportunity to return to the University.

Steps to be followed for students seeking to be reinstated are:

1. Following the period of exclusion, the student must apply for readmission to the university.
2. The student should submit a letter indicating justification for reinstatement to the Chair of the Department that houses the student's program of study (or to a new program of study).
3. The Department Chair or designee obtains input from faculty in the program of study and makes a recommendation (and any conditions) to a representative group designated by the dean for reviewing such appeals (e.g. Doctoral Program Admissions Committee, college Graduate Council, or similar groups designated by the Dean for making reinstatement decisions.). Recommendations made by the Council/Appeals Committee are reviewed by the dean, who renders a decision. If an appeal for reinstatement is denied at the college level, it may be appealed to the Office of the Provost.
4. With a positive recommendation by the Dean and committee, the student will be reinstated on probation and allowed to continue his or her coursework, subject to the prevailing course schedule and all provisions or conditions established by the Department Chair, Dean, or committee.
5. The student being reinstated must sign a statement indicating that he or she understand the conditions under which reinstatement is occurring such as, the requirements for returning to Good Academic Standing, the consequences for obtaining a term GPA lower than 3.0 (3.25 for the doctoral program), and the knowledge that students must be in Good Academic Standing to be eligible for graduation and for admission to Doctoral Candidacy.

**Exception Policy:** With the approval of the college Graduate Council/ Graduate Appeals Committee and the Dean, a graduate student may change majors one time and have the GPA re-set so that the GPA going forward applies only to the new program of study, i.e. the student will be allowed to use the Graduate Program GPA rather than the overall GPA to determine both Academic Standing and Graduation.

## Academic Year

Columbus State University operates on the semester system, which includes fall, spring, and summer terms.

## Add/Drop/Withdraw Policy

**Adding Courses.** You may add classes during the registration period through the add/drop period. Refer to <http://registration.columbusstate.edu> for specific dates and additional information regarding adding courses.

**Dropping a Course with no Record of Enrollment.** Students may drop one, some, or all of their classes during the Drop/Add period (as specified by the official calendar). Courses dropped in this manner do not appear on a student's transcript and are not considered as hours attempted for financial aid purposes. No grade is assigned for such courses. Tuition payments received will be refunded at 100% for classes dropped during the drop add period.

**Dropping a Course with a Record of Enrollment (W Grade).** Students who withdraw from courses before the withdrawal deadline (as specified by the official calendar) will receive a grade of W.

A grade of W will not affect a student's GPA. However, withdrawing from classes could affect a student's future enrollment status, especially for those receiving financial aid. It is the student's responsibility to determine the impact withdrawing from classes would have on academic standing and degree progress. Refer to <http://registration.columbusstate.edu> for specific dates and additional information regarding course withdrawal.

Students cannot withdraw from courses under the following circumstances:

- A student charged with academic dishonesty may not withdraw from the course in which the alleged offense occurred unless the charge has been overturned through the appeals process. The CSU Office of Judicial Affairs may be consulted for more information about filing an appeal.
- Students that have been reported to the registrar as excessively absent will not be permitted to withdraw from the course.
- Students will not be able to withdraw from their coursework if they have an active financial or registration hold on their record.

**Dropping a Course with a Record of Enrollment (WF Grade).** A grade of WF will be assigned when the student withdraws online past the published deadline (as specified by the official calendar), or when the student submits a roll correction form after the deadline. A student may appeal the assignment of a WF grade by submitting the Grade Appeal Form to the Office of the Registrar once all appropriate signatures and substantiating documentation have been obtained. The appeal will then be forwarded to the Academic Standards Committee for review. The Committee will notify the student of the decision rendered.

A WF grade will calculate in the student's GPA as an F grade.

**Reductions In Attempted Hours.** No refund is available for a reduction in hours due to individual course withdrawals that occur after the drop/add period.

Students should be aware that a reduction in their hours might result in the loss of full-time student status and thus affect their financial aid, scholarships, athletic and ticket eligibility, University housing accommodations, use of University resources and access to University facilities, immigration status for international students, Veterans Educational Benefits. Students should contact the appropriate office and their academic advisor with questions about the impact of their withdrawal from a course before initiating a withdrawal. Students who are returning from academic dismissal are advised to consult with

their academic advisor prior to withdrawal because violation of the minimum enrollment requirements can lead to a second dismissal from the University. Veterans and dependents of veterans who receive educational benefits must notify the Veterans Affairs Office of any course load reductions.

**Official Withdrawal from Semester.** An "official withdrawal" occurs when a student withdraws from all courses for that semester. Depending on the date of the student's "official withdrawal", it may be necessary for the University and/or the student to return some or all of the financial aid the student received during the term. Tuition and fee charges will be prorated at a percentage calculated depending on the official date of withdrawal. The refund schedule is posted online in MyCSU.

At the end of each semester we will identify any such students which may result in the University requiring the student to repay all financial aid received for the term.

**Withdrawal for Non-attendance.** Non-Attendance does not constitute a withdrawal. Students are required to withdraw from courses they no longer wish to attend. Instructional departments may request an administrative withdrawal if the student has excessive absences in a course. The term "excessive absences" is defined in the syllabus for the course. The grade assigned for an excessive absence is a WF. See Attendance Policy.

**Unofficial Withdrawal.** An "unofficial withdrawal" occurs when a student stops attending all classes and stops participating in any academic activities beyond the date he/she last attended classes. Federal regulations require students who have been awarded any type of federal student aid to fulfill their academic requirements. Occasionally a student will receive all "F" and/or "WF" grades for a term and we are required to determine whether the student "unofficially withdrew" from the University.

At the end of each semester we will identify any such students which may result in the University requiring the student to repay all financial aid received for the term.

**Hardship Withdrawals.** If a student experiences significant personal hardship (e.g., medical or family emergency, prolonged illness), the Office of the Dean of Students can approve a hardship withdrawal from all courses in the term for which a student is currently registered. In the case of an approved hardship withdrawal from all courses, the Registrar will assign grades of W for those classes. The instructor will be informed of the assignment of the W grade. The deadline for final approval of a hardship withdrawal by Dean of Students is the last day of classes for the semester. If the hardship withdrawal process is not complete by the last day of classes, a student must appeal for a retroactive hardship withdrawal from the Academic Standard Committee. Tuition and fee charges will be prorated at a percentage calculated depending on the official date of withdrawal.

A hardship withdrawal cannot ordinarily be used to withdraw selectively from some courses while remaining enrolled in other courses. Selective withdrawal will be permitted only under exceptional circumstances.

All probation and exclusion rules apply regardless of the circumstances of the withdrawal.

**Administrative withdrawal.** An academic dean may withdraw a student from a course when, in consultation with the instructor, the dean determines that the student has not satisfied the prerequisites for the course.

**Military Withdrawal.** Military reservists who are called to active duty or active duty military personnel who receive change-of-station orders or deployment orders during an academic semester may officially withdraw from the university with a full refund of matriculation fees upon providing a copy of the official orders. Those who have completed sufficient work may be awarded a grade and credit or an I (Incomplete) grade. Military withdrawals are not granted for TDY assignments.

## Changing or Declaring Majors

Students who wish to declare or change his/her major or add/change their concentration will need to request this through the Office of Graduate Admission.

## Class Attendance

**Attendance policy.** Attendance policy is ordinarily established by individual faculty. If an instructor does not provide a written attendance policy statement during the first week of classes, a student is permitted to accumulate a total of nine hours of absences in a three credit-hour course, or the equivalent in courses carrying other credit hours. Regular attendance at class or laboratory is a student obligation. Students are expected to account to individual instructors for absences and, at the discretion of the instructors, to make up all work missed because of absence. Students absent from a previously announced quiz or test may be given a zero on the quiz or test. To be permitted to take a final examination at a time other than the date and time published on the Web at <http://academics.columbusstate.edu/exams/>, students must have permission of the instructor and the dean of the college offering the course.

Student members of an official Columbus State University organization or students whose attendance is required by the faculty or staff person in charge of the group are officially excused from classes when traveling to university-sanctioned events (e.g., athletic event, band competition, etc.) and are to be given the opportunity to complete exams or other assignments missed as a result of this absence provided that no more than 15% of the class hours (INCLUDING other absences) per course per semester are missed. Any absences that exceed the 15% allotted must be approved, in advance, by the faculty member in charge of the class. Exceptions to this policy (i.e., where make-up assignments will NOT be allowed) include programs whose accreditation won't allow 15% as well as interactive classes or laboratory classes where points for attendance and participation are lost due to absences of any kind. Affected students must submit an Event Participation Form, provided by the faculty sponsor, to their instructors at the beginning of the semester, in order to obtain consideration for the make-up work. (The Event Participation Form can be found on the Web at <http://academics.columbusstate.edu/eventform.pdf> (PDF).)

## Continuous Enrollment: Registration for Thesis or Dissertation Hours

A graduate student who is working on a thesis or dissertation must register for Thesis or Dissertation hours each semester after initially enrolling in the course. Graduate programs that offer variable hours of credit for the Thesis or Dissertation should guide students to register for the number of hours of research that is consistent with a realistic appraisal of the amount of work to be done as well as the extent of faculty involvement and use of university resources required. A realistic accounting for graduate student credit hours helps support quality graduate programs.

Students do not need to enroll in the summer if they will not be working with faculty or using university resources unless summer is the term in which the student will graduate.

Students may appeal this policy to the college's graduate council/appeals committee through a letter to the program coordinator, providing a rationale for circumstances that clearly warrant the exception.

Students who fail to register for thesis or dissertation hours without obtaining approval for the exception must reapply for admission to the program.

**0-Credit Thesis/Dissertation Defense.** Graduate students in programs with a dissertation or thesis option are required to enroll in a zero-credit defense course during their final semester.

## DegreeWorks

DegreeWorks is a degree auditing system located in MyCSU. It provides easy access for students and advisors to track completed courses and plan for those still needed in preparation for registration and graduation. Students will not be awarded a degree from Columbus State University unless their DegreeWorks is 100% satisfied.

## Directory Information

The items listed below are designated as "Directory Information" at Columbus State University and may be released for any purpose at the discretion of Columbus State University.

- student name
- current enrollment status
- major field of study
- previous dates of attendance
- degrees earned
- email address
- photograph
- participation in officially recognized activities or sports
- awards and honors received

Directory information will be withheld if requested by the student. To withhold directory information, the student must complete the Directory Information Non-Disclosure form.

## Enrollment/Degree Verification

Columbus State University has authorized the National Student Clearinghouse to act as our agent for all verifications of student enrollment and award of degrees. Once registration is final, the Office of the Registrar reports enrollment data monthly to the National Student Clearinghouse. Students may request a verification of enrollment via the Student Records tab in MyCSU. To verify a degree, please visit the Clearinghouse online at [www.studentclearinghouse.org](http://www.studentclearinghouse.org) (<http://www.studentclearinghouse.org/>).

## Grades and Grade Point Averages

Columbus State University uses a 4.0 grade point system.

### Grades Averaged in the GPA

| Grade        | Grade Points Per Semester Hour |
|--------------|--------------------------------|
| A, Excellent | 4                              |
| B, Good      | 3                              |

|                                      |   |
|--------------------------------------|---|
| C, Average                           | 2 |
| D, Poor, passing                     | 1 |
| F, Failing                           | 0 |
| WF, Withdrawal, failing <sup>1</sup> | 0 |

<sup>1</sup> *WF is assigned when a student withdraws from a course after the W grade deadline or when an instructor drops a student for excessive absences.*

### Grades Not Averaged in the GPA

| Grade | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| I     | Indicates that a student was doing satisfactory work but, for non-academic reasons, was unable to meet the full requirements of the course. The requirements for removing an I grade and the length of time for completing work (not to exceed 12 months) are left to the instructor. The student will, however, receive a copy of the written plan for completion of the course (also copied to the department chair). The instructor has the option of reporting a default grade if the work is not completed by the completion date. If no default grade is submitted the grade of I will be changed to F by the registrar. |
| IP    | Indicates that credit has not been given in a course that requires a continuation of work beyond the semester for which the student registered for the course. The use of this grade is approved for learning support courses, directed studies, internships, practica, project courses, and exit examinations. Students enrolled in a learning support course must re-enroll in the course. This grade cannot be substituted for an I grade.                                                                                                                                                                                  |
| W     | Indicates that a student was permitted to withdraw without penalty. Withdrawals without penalty will not be permitted after the W grade deadline except in cases of hardship as determined by the Academic Standards Committee. A W grade may also be awarded in the case of credit by examination courses and for excessive absence when auditing a course.                                                                                                                                                                                                                                                                   |

|           |                                                                                                                                                                                                                                                                                                                                             |
|-----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>S</b>  | Indicates that credit has been given for completion of degree requirements other than academic course work. These are limited to student teaching, clinical practica, junior seminars, internships, college success courses, exit examinations, and senior projects as specified in the course descriptions section of the catalog.         |
| <b>U</b>  | Indicates unsatisfactory performance in an attempt to complete degree requirements other than academic course work. These are limited to student teaching, clinical practica, junior seminars, internships, college success courses, exit examinations, and senior projects as specified in the course descriptions section of the catalog. |
| <b>V</b>  | Indicates that a student audited a course. Students may not change from audit to credit status or vice versa after the first week of the term.                                                                                                                                                                                              |
| <b>K</b>  | Indicates that a student was given credit for a course through examination.                                                                                                                                                                                                                                                                 |
| <b>WM</b> | Withdrawn for military purposes/ deployment.                                                                                                                                                                                                                                                                                                |

## Explanation of Grade Point Averages

The following grade point averages are computed and are used to determine the fulfillment of academic requirements:

**Semester grade point average** is computed using GPA hours attempted and grade points earned for the semester.

**Graduate cumulative grade point average** is computed using the total number of graduate GPA hours attempted at Columbus State University and the total number of graduate grade points earned at Columbus State University, regardless of the number of times a course is attempted.

**Graduate institutional grade point average** is computed by dividing the total number of graduate grade points earned at Columbus State University by the total number of graduate GPA hours attempted at Columbus State University after omitting grades in previous courses which have been taken and repeated at Columbus State University.

**Graduate overall grade point average** is computed by dividing the total number of graduate grade points earned at Columbus State University and all hours accepted from other institutions by the total number of graduate GPA hours attempted at Columbus State University and all other institutions attended. The Graduate overall GPA will be used to determine both academic standing and graduation except as noted in the Exception Policy.

**Graduate program GPA** is computed using all program course work attempted at Columbus State University as well as courses transferred from another institution and applied to the program of study; disregards

grades from earlier attempts of any repeated courses except courses that may be repeated for credit.

An explanation of how to (p. 14) compute a GPA (p. 14) can be found under the Undergraduate Academic Regulations section.

**Exception Policy:** With the approval of the college Graduate Council/ Graduate Appeals Committee and the Dean, a graduate student may change majors one time and have the GPA re-set so that the GPA going forward applies only to the new program of study, i.e. the student will be allowed to use the Graduate Program GPA rather than the overall GPA to determine both Academic Standing and Graduation.

## Grade Changes

Grade changes shall be initiated by the course instructor, and the department chair in which the course is offered or his or her designee must approve a grade change before it will be honored by the Office of the Registrar. Final grades will not be changed after one calendar year from the date assigned except by appeal to, and subsequent approval by, the university's Academic Standards Committee. A grade that appears to be incorrect should be reported to the instructor promptly. No grade changes will be accepted after graduation.

## Grade Reports and Transcripts

Reports of final grades are available in MyCSU on the Students Page and the Student Record tab. The academic transcript includes all undergraduate and graduate credit courses taken at Columbus State University. Transcripts should be requested in MyCSU or directly through Credential Solutions/Parchment linked on the Office of the Registrar website. University policies regarding release of academic records and compliance with regulations under the Family Educational Rights and Privacy Act of 1974.

## Graduate Assistantships

A student holding an appointment as a graduate assistant must be fully admitted to a graduate degree program, be in good academic standing, and earn a minimum of six and a maximum of 10 semester hours of graduate course work (or required prerequisites) during the period in which the assistantship is held. A graduate assistant may take up to 12 semester hours with the advisor's approval. Work assignments cannot exceed 19 hours per week. Students interested in seeking an assistantship should contact the department chair or program coordinator in the graduate program in which they are enrolled. Students granted an assistantship are not permitted to reduce their course load to less than six hours and retain the assistantship.

## Graduation

Applications for graduation should be submitted in MyCSU on the Students Page and the Student Record tab by the deadline below. A non-refundable graduation fee of \$60 is required whether or not participating in the ceremony. The fee will be applied to student's invoice for the intended graduation term. Students participating in the graduation ceremony are required to have the appropriate graduation regalia - i.e. cap, gown and hood.

### Graduation Application Deadline:

Spring- January 30

Summer- May 30

Fall- August 30

Candidacy requirements must be completed no later than the official graduation candidacy deadline of the intended term of graduation.

Candidacy requirements are:

- Enrollment in all courses required for degree completion. Students enrolled in other institutions during the final term must submit proof of enrollment.
- Removal of all "Incomplete" grades from their record.
- All approved substitutions/waivers must be reflected in DegreeWorks
- \$60.00 graduation fee
- 3.0 graduate overall GPA
- Meets all program requirements

Students who satisfy the above requirements will be considered candidates for graduation and will be eligible to participate in graduation ceremonies.

Students who do not satisfy degree requirements will have their graduation application deferred.

Credentials will only be awarded for officially declared programs.

**Graduation Ceremony.** A graduation ceremony is held at the end of the fall and spring semesters. Students who do not plan to attend the ceremony must indicate so on the application for graduation.

Fall and Spring candidates may only participate in a graduation ceremony in the term of which their degree requirements are completed.

Students completing the requirements at the end of a summer term may participate only in the fall semester graduation ceremony. Students with extenuating circumstances may appeal.

Participation in a commencement ceremony does not constitute earning a degree, and the conferred date on a diploma will coincide with the semester that the degree requirements are completed.

Students are invited to take part in commencement, but participating is not required in order to have a degree awarded.

Students who petition after the established deadline are not guaranteed to be represented in the commencement program.

Graduated students who wish to continue enrollment after earning a degree must complete a readmission application to update their student status.

## Holds

Holds may be placed on a student's record in order to satisfy an obligation owed to the university. Holds are displayed in MYCSU. Failure to return library books, equipment or lab supplies may also result in a financial hold. Registration and transcript requests may not proceed unless all holds are removed.

## Privacy of Student Records

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights to access and amend incorrect educational records. It also regulates the disclosure of record information to outside parties. All students regardless of age must give written permission to release academic records to anyone who is not associated with the university, including parents or legal guardians. According to the U.S. Department of Education, "under FERPA, schools may release any and all information

to parents, without the consent of the eligible student, if the student is dependent for tax purposes under IRS rules."

For additional information, students should review the Office of the Registrar website or the federal FERPA website at [www2.ed.gov/policy/gen/guid/fpco/index.html](http://www2.ed.gov/policy/gen/guid/fpco/index.html) (<http://www2.ed.gov/policy/gen/guid/fpco/>).

## Registration

Registration procedures at Columbus State University are maintained by the Office of the Registrar. Notifications of these procedures and any changes in the Academic Calendar will be posted on the University website.

**Early registration.** A special advisement and early registration period is held each semester. Before early registration begins, all advisors set aside ample time to be available for academic advisement for the upcoming semester. Students are encouraged to make an appointment each semester to take advantage of this opportunity. The advising hold will be removed after the advising session.

**Late registration and schedule change.** Students who do not register early may register during late registration prior to the first day of classes. Additionally, students who wish to change their schedules may do so during the late registration and schedule change periods. A late registration fee may be assessed to any student registering outside the published registration dates.

Students may register via the web in MyCSU on the Students Page and the Student Record tab. Please refer to the Columbus State University Class Schedules (<https://academics.columbusstate.edu/classes/>) page on the Web for specific dates and information regarding early registration, late registration and schedule change.

In keeping with Board of Regents' policy, students are required to pay all tuition and fees by the published Fee Payment Deadline. Students are not considered enrolled in the institution until all tuition and fees have been paid. Students who do not pay tuition and fees by the posted deadline may be subject to a drop for non-payment.

Verification of attendance in all courses is required by the primary faculty member and must be completed by the published deadline. Students who are reported as never attended during the first two weeks of class will be removed from the official class roll.

Regularly enrolled students may audit a course. No academic credit shall be awarded for audit status. No changes from audit to credit or credit to audit will be permitted after the last day of the schedules drop/add period for the term. Students auditing courses will be required to pay regular tuition and fees for enrollment. Courses taken as audit do not count toward financial aid eligibility. A grade of V is assigned for the audited course.

Students eligible to register must enroll during one semester during the year. If a student is not enrolled four (4) terms or more (including summer), he/she must apply for readmission through the Office of Graduate Admissions. The student would then be subject to the curriculum rules and regulations of the new academic catalog.

## Repetition of Courses

Students repeating a course for which credit has already been earned either at Columbus State University or by transfer of credits from another institution forfeit the previous credit in that course (except in the case of courses that may be repeated for credit). The student's final grade in

the course will be the one made on repetition (even if the grade in the previous course is higher). No more than two courses may be repeated and for no more than one time each. Only courses with grades C or below may be repeated. After earning a graduate degree at Columbus State University, a student will forfeit credit earned for courses taken as repeats after graduation (except in the case of courses that may be repeated for credit). There is no grade forgiveness for graduate courses.

## Residence and Time Limits

**Residence requirement.** A minimum of 75 percent of the graduate credit hours required for a master's degree must be taken at Columbus State University. For the specialist degree, the minimum residence requirement is 20 graduate credit hours taken at Columbus State University. For the Ed.D. in Curriculum and Leadership, students are required to complete 48 hours in residence, to include 15 hours of research and 9 hours toward the dissertation. Asynchronous (online) and distance learning courses administered through Columbus State University constitute courses taken in residence.

**Time Limits.** All work credited toward a graduate degree must be completed within seven years. For the Ed.D. in Curriculum and Leadership, all work toward the degree must be completed within 10 years. Extension of time may be granted only on conditions beyond the control of the student. In each instance a formal statement outlining the conditions upon which the extension of time is requested should be addressed to the director of the specific graduate program.

## Student Notification Policy

Upon admission to Columbus State University, each student is provided with a student email account. Student email is the official channel of communication between the University and its students. It is the responsibility of the student to periodically monitor his/her student email account and be aware of the information sent by the University. Lack of knowledge that results from failure to monitor University email communications will not excuse students from complying with University policies, procedures and/or deadlines and will not be considered grounds for appeal for relief from those policies, procedures and deadlines.

## Study Loads

**Maximum Study Load.** The maximum course load for any graduate student is 12 semester hours. Students holding graduate assistantships must register for at least nine, but no more than 10 semester hours of graduate credit. In all cases, graduate students are urged to register only for the number of hours they can complete successfully.

**Enrollment Status.** Enrollment status for graduate students is based on the number of hours enrolled, excluding withdrawn courses, as follows:

| Number of Semester Hours Enrolled | Enrollment Status   |
|-----------------------------------|---------------------|
| 9 or more                         | Full-time           |
| 7-8                               | Three Quarter-time  |
| 5-6                               | Half-time           |
| 4 or less                         | Less than Half-time |

*For summer terms, enrollment status certification other than for financial aid is determined as follows: 6 semester hours or more, full time; 3-5 semester hours, half time; and 1-2 semester hours, less than half time.*

Students on financial aid seeking information about how enrollment status may impact financial aid eligibility (<http://>

[finaid.columbusstate.edu/enrollstatus.php](http://finaid.columbusstate.edu/enrollstatus.php)) should contact the Financial Aid office.

## Transient Permission

A Columbus State University student must be in good standing and must obtain prior approval to enroll in any and all credit courses at any other institution as a transient or visiting student. This prior approval must be obtained from the student's Columbus State University academic department chair. Students who do not request (and receive) transient permission to attend another institution or who do not take the requested/approved courses risk not having their applied to their CSU degree program.

# ACADEMIC CALENDAR

---

Academic Calendars can be found at <https://academics.columbusstate.edu/calendars/index.php>. (<https://academics.columbusstate.edu/calendars/>)

# ACADEMIC UNITS

- College of the Arts (p. 32)
- Turner College of Business (p. 139)
- College of Education & Health Professions (p. 220)
- College of Letters & Sciences (p. 247)
- Academic Support Services (p. 409)
- Other Academic Units (p. 410)

## College of the Arts

The College of the Arts, with nationally accredited programs in art, music and theatre and career-ready communication programs in integrated media, public relations, and film production, is building upon its well-deserved reputation for excellence. With world-class, state-of-the-art facilities on the RiverPark Campus, the College retains nationally and internationally recognized faculty who foster active student engagement in the intellectual and creative process.

Faculty strive to achieve a high level of distinction by demonstrating a commitment to leadership in faculty and student scholarship and creative activity. The College cultivates its heritage of collaborative relationships with artistic, cultural, professional and educational organizations by continually developing contemporary, rigorous and innovative programming targeted at enriching the lives of Georgians.

The College is a major economic force in the revitalization of Uptown Columbus, contributing more than \$25 million to the local economy while attracting thousands of visitors by hosting international conferences in music, state meetings in art and theatre, and by presenting over 250 performances and art exhibitions annually. Additionally, the College partners with more than a dozen non-profit organizations that receive more than 1,000 student work hours of assistance with communication projects through the College's NPACE Non-Profit and Civic Engagement center (NPACE) each year.

The College of the Arts provides excellent academic programs and dynamic community outreach as it continues its transformational effect on the RiverPark Campus and Uptown Columbus.

## Departments

- Department of Art (p. 32)
- Department of Communication (p. 59)
- Department of Theatre (p. 80)
- Schwob School of Music (p. 104)

## Department of Art

The Department of Art offers a comprehensive, rigorous curriculum accredited by the National Association of Schools of Art and Design (NASAD). Students can major in Art Education, Art History, or Studio Art, including options in animation and graphic design. Our department is located within the College of the Arts on the dynamic RiverPark Campus in the historic riverfront area. Students participate in a robust array of courses, exhibitions, workshops and lectures in state-of-the-art facilities. Our unique Visiting Artist and Scholar Residency Program provides residencies to diverse, outstanding studio artists, art historians, art critics, and curators. Artists in residence lead workshops or teach special courses related to their disciplines, as well as giving public lectures on their work. Our students benefit from the downtown

arts economy, with a multitude of visiting artists, performances, lectures, visual art, music, and lecture presentations offered every year.

The Department of Art offers the following degrees and programs:

- Art (BA) (p. 36)
- Art (BFA) (p. 40)
- Art Education (BSEd) (p. 46)
- Art Education (MAT) (p. 51)
- Art Education (MEd) (p. 53)
- Art History (BA) (p. 55)

# Associate of Arts (AA)

## Program Overview

The Associate of Arts (AA) degrees is a 2-year undergraduate transfer degree program designed largely for the completion of the general education requirements and related lower division studies typically pursued during the first two years of a four-year baccalaureate degree program. Most of the coursework in this transfer AA degree program encompasses CSU's Core Curriculum requirements, which include some preparatory or introductory coursework for upper division requirements in particular majors. However, these transfer associate degrees do not include in-depth studies in a particular major, which are typically pursued at the upper division level (last two years) of a four-year degree program.

## Career Opportunities

This degree is intended to serve as an undergraduate transfer degree program, designed largely for the completion of the general education requirements and related lower division studies typically pursued during the first two years of a four-year baccalaureate degree program.

## Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

## Core Requirements

| Code                                              | Title                                       | Credit Hours |
|---------------------------------------------------|---------------------------------------------|--------------|
| <b>Area A Essential Skills</b>                    |                                             |              |

<sup>1</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1-2 hours;
- Area D1, 7-8 hours;
- Area D2, 3-4 hours.

<sup>2</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within two years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- Students must complete "Area A " (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and STAT 1401 or MATH 1\*\*\*) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

There are no program specific academic regulations.

## Program Learning Outcomes

- Students demonstrate competency in written communication by writing effectively in a variety of situations and for a variety of audiences.
- Students demonstrate competency in reading by interpreting the meaning of key terms; recognizing the primary purpose of a passage; making appropriate inferences; and recognizing rhetorical devices.
- Students demonstrate competency in quantitative reasoning by solving real-world problems that involve numerical data.
- Students demonstrate competency in critical thinking by interpreting and evaluating evidence in a piece of writing and drawing valid conclusions based on the information presented.

# Art (BA)

## Program Overview

The Bachelor of Arts (BA) in Art program provides students with an opportunity to discover their own creative talents while preparing themselves for arts related careers or graduate school. The curriculum is designed to develop individual artistic vision, technical skills, visual literacy, aesthetic inquiry, and proficiency in verbal and written communication. The BA in Art program allows students to explore their interests and refine skills in ceramics, digital media, drawing, painting, photography, printmaking, and sculpture while pursuing a liberal arts degree at CSU. The BA in Art program is oriented towards a general and broad immersion in the field of art. Studio courses are supplemented with studies in art history, visual culture, foreign language, and campus wide electives.

## Career Opportunities

Students who graduate from this program may be prepared to apply for graduate programs and a number of other career possibilities. Along with pursuing further study within the arts fields through graduate programs, students who graduate from this program may seek employment in entry-level art related jobs as identified in the US Bureau of Labor and Statistics Occupational Outlook Handbook. Graduates with Bachelors degrees in the arts may find employment in arts administration, design, museum and gallery work, non-profit arts agencies, arts business management, community art education, in addition to studio art careers. Graduates may decide to pursue P-12 teacher accreditation through our Master of Arts in Teaching teacher education program. Majors may also combine their studies with one of the many minors or certificate programs at CSU, in order to pursue a wider range of placement opportunities.

<sup>1</sup> Select two credits from the following options: PERS 1507, LEAD 1705, ITDS 1779.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.
- All BA in Art Majors must earn a "C" or higher in all Area F-H courses.
- The BA in Art requires two Foreign Language courses in Area F (Foreign Language 1002 & Foreign Language 2001).

## Admission Requirements

There are no additional admission requirements for the Bachelor of Arts in Art. Please see the general undergraduate admission requirements.

## Additional Program Requirements

There are no additional academic regulations for the Bachelor of Arts in Art. Please see the undergraduate academic regulations section of the catalog.

## Program Learning Outcomes

- Students will demonstrate competence in the development of a Thesis Project.
- Students will demonstrate competence in the application of Art Media and Technology in their Thesis Project.
- Students will demonstrate competence in the use of written communication in their Thesis Portfolio Artist's Statement.

# Art (BFA)

## Program Overview

The Bachelor of Fine Arts (BFA) in Art is designed for students discovering, exploring and developing their own creative talents while preparing them for graduate school or arts-related careers. The degree is a well-rounded general fine arts degree with approximately 60% of the total program in studio courses, art history and supportive courses in art and design. Students must choose to focus in one of several media concentrations and may investigate in a broad interdisciplinary manner. The focus is on the progressive nature of the learning experience combined with a rigorous review and culminates in a professionally mounted final exhibition.

The BFA program is dedicated to preparing students for futures as professional artists and providing them with the resources necessary for success in the fields of art and design. The curriculum is designed to develop individual artistic vision, technical skills, visual literacy, aesthetic inquiry, and proficiency in verbal and written communication. Our faculty continually fosters a challenging environment where research, creativity, critical thinking, and experimentation are promoted. Students are required to select one of the areas of focus below. By providing a strong curriculum and personal contact with faculty and visiting artists, our BFA program produces a positive environment of diverse artistic philosophies that contribute to our students' knowledge, studio practice, and individual artistic vision.

Areas of Focus for the Bachelor of Fine Arts (BFA) in Art include:

### 3-D, Expanded Media, & Sculpture

3-D, Expanded Media, and Sculpture fosters a broad historical and contemporary understanding of three-dimensional art production. The faculty embrace an interdisciplinary approach to object-based creation and cultivate an environment for students to explore installation, new media, and performance.

### Animation

The Animation focus is designed to provide students with the necessary skills needed to migrate into the professional market after graduation. While studying animation at CSU, students are presented with a framework of industry standard animation practices and given the opportunity to explore the traditional, experimental and interactive aspects of digital animation.

### Ceramics

The Ceramics program provides students with a foundation in the technical and aesthetic aspects of the ceramic medium. Students develop skills in the construction of ceramics works and an understanding of firing techniques and relevant chemistry.

### Graphic Design

Graphic Design is a creative and inspiring process that combines art and technology to develop visual solutions to communication problems. Building upon traditional art foundations, we focus on design fundamentals such as typography, information hierarchy, concept development and visual exploration. Through their studio work, Graphic Design focused students will address a variety of graphic design issues, develop abilities in collaboration, and build an understanding of research-based design all while being prepared to enter into an evolving creative industry.

### Painting & Drawing

In the Painting and Drawing program, students develop their skills in liquid and dry media. Teaching the traditional techniques, the faculty enhances their students understanding of art history and visual production while preparing them to explore other media through independent research. The Narrative Illustration curriculum supports and supplements the drawing and painting program.

### Photography

Photography foster a historical and pragmatic understanding of lens-based art making. Photography develops skills in multiple photographic formats using analog and digital processes to investigate contemporary approaches to art making.

### Printmaking

In the Printmaking program, students learn to apply print processes to both historical paradigms and contemporary problems. Students establish skills with traditional print techniques such as monotype, intaglio, lithography, and relief printing. Book arts and paper making courses supplement the printmaking curriculum.

## Career Opportunities

The Bachelor of Fine Arts (BFA) program prepares students to work as professional studio artists, and to pursue a wide variety of careers and leadership opportunities in the arts including employment in museums and galleries, arts related for-profit and non-profit organizations, and various design professions. The program also prepares students for application to graduate programs in the arts.

<sup>1</sup> The course not used in Area C will be taken here.

<sup>2</sup> Students will complete the required 39 hours of Upper Division coursework by including at least 12 hours of coursework at the 3000 level or above in Area H2.

<sup>3</sup> Students who did not take ARTH 2125 Introduction to the History of Art I– Prehistoric through Gothic or ARTH 2126 Introduction to the History of Art II– Renaissance through Modern in Area C must take one of those courses here.

## Areas of Emphasis

### Area of Emphasis - Ceramics

| Code       | Title                                        | Credit Hours |
|------------|----------------------------------------------|--------------|
| ARTS 2248  | Ceramics I                                   | 3            |
| ARTS 3348  | Ceramics II Wheel-throwing                   | 3            |
| ARTS 3349  | Ceramics II Slip Casting                     | 3            |
| ARTS 5248U | Ceramics: Advanced Methods (may be repeated) | 3            |

### Area of Emphasis - Drawing

| Code         | Title                                                      | Credit Hours |
|--------------|------------------------------------------------------------|--------------|
| ARTS 2010    | Figure Drawing                                             | 3            |
| or ARTS 2011 | Drawing: Perspective & Synthesis                           |              |
| ARTS 3307    | Alternative Drawing Media                                  | 3            |
| ARTS 4237    | Narrative Illustration                                     | 3            |
| ARTS 4236    | Advanced Drawing (may be repeated)                         | 3            |
| ARTS 4357    | Advanced Methods: Narrative Illustration (may be repeated) | 3            |

**Area of Emphasis- Animation**

| Code       | Title                                     | Credit Hours |
|------------|-------------------------------------------|--------------|
| ARTS 4315  | Advanced Animation                        | 3            |
| ARTS 4316  | Advanced modeling and surface Development | 3            |
| ARTS 5315U | Animation Studio I                        | 3            |
| ARTS 5316U | Animation Studio II                       | 3            |

**Area of Emphasis - Graphic Design**

| Code      | Title                                              | Credit Hours |
|-----------|----------------------------------------------------|--------------|
| ARTS 3021 | Graphic Design I                                   | 3            |
| ARTS 4021 | Graphic Design II                                  | 3            |
| ARTS 4521 | Graphic Design III                                 | 3            |
| ARTS 4721 | Graphic Design: Advanced Methods (may be repeated) | 3            |

**Area of Emphasis - Painting**

| Code       | Title                                        | Credit Hours |
|------------|----------------------------------------------|--------------|
| ARTS 3256  | Painting I                                   | 3            |
| ARTS 4256  | Painting II                                  | 3            |

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.
- All BFA Majors must earn a "C" or higher in all ARTS and ARTH courses.
- All BFA Majors must successfully pass milestone courses (ARTS 2000 Art Foundation: Portfolio Review and ARTS 3000 Pre-Exhibit Review). Failure to complete either AR.

## Admission Requirements

A portfolio of student work is required. Students may also enter the BA degree without this portfolio requirement and apply to the BFA later in their first year of study.

## Additional Program Requirements

Students must maintain a C or better in all major courses

Students must successfully complete two milestone courses (ARTS 2000 Art Foundation: Portfolio Review and ARTS 3000 Pre-Exhibit Review).

Failure to complete each of these within two attempts will result in the student being advised to choose another major.

Student must select and complete an Area of Focus in either: 3D, Expanded Media and Sculpture; Ceramics; Animation; Graphic Design; Painting; Drawing; Photography; or Printmaking.

Students must complete a professional capstone Thesis Exhibition (ARTS 4796 Art Seminar: Thesis Exhibition).

ARTS 2000 Art Foundation: Portfolio Review review requirement will be waived for incoming students when they transfer in a minimum of 24 credit hours of ARTS/ARTH classes and a minimum GPA of 2.5 in their art courses.

## Program Learning Outcomes

- Students will demonstrate competence in the application of Art Media and Technology in their portfolio.
- Students will demonstrate competence in the use of written communication in an Artist's Statement.
- Students will demonstrate competence in the application of Art Theory and Art Movements in their portfolio.
- Students will demonstrate competence in the development of a Focused Portfolio in preparation for Exhibition.
- Students will demonstrate competence in the ability to Critique, Present Defend their portfolio.

# Art Education (BSEd)

## Program Overview

The Art Education program at Columbus State University provides pre-service teachers a solid knowledge base emphasizing pedagogy, curriculum content, and assessment consistent with the national, state, and local standards and goals. In the first two years, students complete studies that establish eligibility for admission to teacher education. This is followed by a sequence of campus and field-based courses culminating in the student teaching semester during the senior year.

All educator preparation programs are approved by the Georgia Professional Standards Commission. The CSU Department of Art is accredited by the National Association of Schools of Art and Design (NASAD).

In addition to the degree requirements, there are further requirements for teaching certification. Visit the Certification page (<https://cqtl.columbusstate.edu/certification.php>) on the CSU Center for Quality Teaching and Learning (CQTL) website for detailed information about certification requirements and the certification process.

## Career Opportunities

While the Bachelor of Science in Education in Art Education (BSEd) program primarily prepares students to work as P-12 teachers, they may also choose to pursue a wide variety of careers and leadership opportunities in the arts, or apply to graduate degree programs in the arts such as the MEd.

The preparation of elementary, middle, and secondary school teachers in Art Education is accomplished through the joint efforts of the College of Education and Health Professions and the Department of Art. Teacher education programs, typically, are closely structured; therefore, students should select a teaching field early in their academic career and follow the appropriate curriculum after declaring a major.

## Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

## Core Requirements

| Code                                             | Title                                       | Credit Hours |
|--------------------------------------------------|---------------------------------------------|--------------|
| <b>Area A Essential Skills</b>                   |                                             |              |

| <b>Total Credit Hours</b> |                      | <b>128-130</b> |

- <sup>1</sup> Credit hours in Area B2 depend on whether a student takes one or two lab science courses in Area D.
- <sup>2</sup> Students will complete their required 39 hours of upper-division coursework by including at least 9 hours of coursework at the 3000-level or above in Area H.
- <sup>3</sup> There is a recent rule change for certification from the GaPSC. As of July 1, 2019, students must make a B or higher in the Exceptional Children's course. The course could be any of the following depending on your major: SPED 2256, EDCI 6228, KINS 4245, SPED 4115, PHED 6219. This rule change will not affect your graduation but you cannot become a certified educator with the state of Georgia until you receive the grade of B or higher in this course.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.
- Other requirements are needed in order to enter the Teacher Education Program in addition to the completion of 45 earned semester hours and EDUC 2130 Exploring Learning and Teaching with a "C" or better, while maintaining a 2.5 GPA or higher. Please see your advisor or the department administrative assistant for a list of the undergraduate Teacher Education Program requirements.
- All BSED Majors must earn a "C" or higher in all ARTE, ARTS, and ARTH courses and students must successfully pass milestone courses (ARTS 2000 Art Foundation: Portfolio Review and ARTE 3000 Pre Exhibit Review (BSED)). Failure to complete either ARTS 2000 within two (2) attempts or ARTE 3000 Pre Exhibit Review (BSED) within two (2) attempts will result in the student being removed from the BSED- Art Education program.

## Admission Requirements

Students pursuing the Bachelor of Science in Education (BSED) in Art Education must meet all admission requirements set forth by the College of Education and Health Professions (COEHP) and meet all requirements set forth by the Department of Art.

During the sophomore year as an art major, students intending to complete a teacher education program make formal application to the teacher education program. Normally, this occurs after the student has completed three semesters of full-time course work. Admission to

Teacher Education is completed through TK20. For further information please go to <https://cctl.columbusstate.edu/teacher-education.php>. (<https://cctl.columbusstate.edu/teacher-education.php>) Students should make themselves familiar with the COEHP processes and requirements by visiting the COEHP (p. 220) catalog section.

## Additional Program Requirements

Students must maintain a C or better in all major courses

Students must successfully complete two milestone courses (ARTS 2000 Art Foundation: Portfolio Review and ARTE 3000 Pre Exhibit Review (BSEd)). Failure to complete each of these within two attempts will result in the student being advised to choose another major.

Students must mount a professional capstone Thesis Exhibition (ARTS 4796 Art Seminar: Thesis Exhibition).

Students must complete all Teaching Requirements, which includes application for admission into the Teacher Education Program through COEHP.

## Program Learning Outcomes

- BSED graduates will demonstrate competence in the application of Art Media and Technology in their portfolio.
- BSED graduates will demonstrate competence in the application of Art Theory and Art Movements in their portfolio.
- BSED graduates will demonstrate competence in the application of Concepts of Art Education Foundations.
- BSED graduates will demonstrate competence in the development of P-12 curriculum.

# Art Education (MAT)

## Program Overview

MAT programs are designed for individuals holding a bachelor's degree in a closely related field who wish to obtain a teaching certificate and master's degree in education. Programs provide professional and pedagogical studies that develop proficiency in the knowledge, skills, and dispositions of beginning teachers.

Art Education prepares highly qualified teachers of art for instruction in elementary and secondary schools by providing challenging course work in pedagogy, curriculum content, and assessment consistent with the national, state, and local standards and goals. The graduate program in art education provides students with an opportunity to further their knowledge through investigation and research of current issues and curriculum in art education and to pursue their creative work in the studios.

All educator preparation programs are approved by the Georgia Professional Standards Commission. The CSU Department of Art is accredited by the National Association of Schools of Art and Design (NASAD). In addition to the degree requirements, there are further requirements for teaching certification. Visit the Certification page (<https://cctl.columbusstate.edu/certification.php>) on the CSU Center for Quality Teaching and Learning (CQTL) website for detailed information about certification requirements and the certification process.

## Career Opportunities

Successful completion of the M.A.T. program and passing scores on the appropriate Georgia Assessments for the Certification of Educators (GACE) basic skills and content tests allow the candidate to be recommended to the Georgia Professional Standards Commission for teacher certification at the T-5 level (i.e., *the letter "T" indicates that the certificate is in a teaching field and the number "5" indicates that the candidate's highest degree is a master's degree recognized by the Georgia Professional Standards Commission*).

## Admission Requirements

- Degree in related field or a minimum of 25 semester hours of approved coursework
- Transcript evaluation to determine content courses needed for certification.
- Minimum grade point average (GPA) of 2.75 (regular admission) or 2.50 (provisional admission) on all undergraduate work at an accredited United States institution in fulfillment of the requirements for a baccalaureate degree
- Satisfactory scores on the general portion (quantitative and verbal) of the Revised Graduate Record Exam (GRE) with "writing assessment" component; **or** passing scores on the GACE content examinations required in the intended teacher certification field
- Passing score on the GACE Basic Skills Tests [Reading (200), Mathematics (201), Writing (202)] or exemption through satisfactory scores on the SAT, ACT, GRE, or having a masters degree or above from a PSC-accepted accredited institution.
  - GACE Basic Skills Exemption Scores:
    - SAT – 1000 (combination of Verbal and Math scores)
    - ACT – 43 (combination of English and Math scores)
    - GRE – Combined score of 1030 (Verbal and Quantitative) on tests taken before August 1, 2011 or combined score of 297 (Verbal and Quantitative) on tests taken after August 1, 2011

- The successful applicant must not have a criminal record or discharge from the armed services that would prevent recommendation for related teacher certifications
- Completion of a satisfactory FBI background check with fingerprints to ensure no criminal record and no discharge from the armed services that would prevent recommendation for teacher certification. Instructions and applications for the FBI background check can be found at [safe.columbusstate.edu](http://safe.columbusstate.edu) (<http://safe.columbusstate.edu>) or can be picked up in Jordan Hall, Room 107. Provisionally certified teachers may submit a letter from their school on official school letterhead stating that they have undergone a background check as a condition of employment.

## Additional Program Requirements

This Degree is subjected to the following requirements

- Students must earn a 3.0 GPA calculated on all graduate work attempted. "Academic Forgiveness" policy does not apply to graduate studies.
- Students cannot graduate with a grade of "C" or below in more than two (2) graduate courses (may be appealed to the College of Education Graduate Council).
- A minimum of 27 hours of the hours required for the degree must be earned in residence. Asynchronous (online) and distance learning courses administered through Columbus State University constitute courses taken in residence.
- A maximum of nine (9) semester hours of transfer credit or courses taken at CSU prior to full admission to a masters degree program may be applied toward the degree. Courses with earned grades of "C" or below cannot be transferred. The student's advisor and the coordinator of the program in which the student is enrolled must approve any courses transferred.
- All degree requirements must be completed within seven (7) years of first enrollment

## Program Learning Outcomes

- Students will demonstrate competence in the development of a Focused Portfolio in preparation for exhibition.
- Students will demonstrate competence in the application of Art History and critical analysis in a research paper.
- Students will demonstrate competence in the application of art education concepts.
- Students will demonstrate competence in the development of P-12 curriculum.

# Art Education (MEd)

## Program Overview

The M.Ed. program in art education provides candidates the opportunity to further their knowledge through investigation and research of current issues, concepts and curriculum and to pursue their creative work in the studios as well as advanced studies in art history. This degree is for teachers with a clear renewable teaching certification.

Students admitted as candidates for the Master of Education degree must satisfactorily complete a planned program of study and a minimum of 36 semester credit hours. At least 18 of these hours must be in courses numbered 6000 or above. A graduate student's program, planned cooperatively with an advisor from the College of Education and Health Professions, will emphasize development both in the teaching field and in professional studies. Specific questions concerning Georgia Professional Standards Commission requirements for teacher certification should be directed to the COEHP Office of Student Advising and Field Experiences, or to the department that offers the student's area of study.

Teachers holding a teaching certificate or Certificate of Eligibility may pursue advanced professional and pedagogical studies by enrolling in a Master of Education (MEd) degree program. The MEd programs are designed to increase the candidate's expertise in the selected program of study. All advanced education programs are based on the principles identified by the National Board for Professional Teaching Standards (NBPTS). At the conclusion of each program of study, the candidate demonstrates expertise through the successful completion of carefully designed exit requirements. These may include a written comprehensive examination, a completed research project, or other related exit requirements.

Educator Preparation at Columbus State University is accredited by the National Council for Accreditation of Teacher Education (NCATE) and approved by the Georgia Professional Standards Commission. The CSU Department of Art is accredited by the National Association of Schools of Art and Design (NASAD).

## Career Opportunities

Upon successful completion of the M.Ed. program, the candidate may apply to upgrade teacher certification to the T-5 level.

## Admission Requirements

- The general portion of the Revised Graduate Record Examination (GRE) with "writing assessment" component for Master of Education (MED) Program
- Minimum grade point average (GPA) of 2.75 (regular admission) or 2.50 (provisional admission) on all undergraduate work at an accredited United States institution in fulfillment of the requirements for a baccalaureate degree
- A clear renewable teaching license or documentation of eligibility for certification (approved program completion and applicable licensure exam scores)
- The successful applicant must not have a criminal record or discharge from the armed services that would prevent recommendation for related teacher certifications

- An official transcript and portfolio evaluation and an interview with the art education program coordinator to determine the level of studio skills, qualifications, and if applicable, courses to transfer. Students may be advised to complete certain undergraduate courses and/or prerequisites for graduate-level courses.

## Additional Program Requirements

The M.Ed. program in art education is collaboratively planned and delivered by the College of Education and the Department of Art. It is designed for those who currently hold a baccalaureate degree and teacher certification. The program builds on this foundation of knowledge and provides greater breadth and depth in content and opportunities to develop a higher level of expertise in teaching.

This Degree is subject to the following requirements:

- Students must earn a 3.0 GPA calculated on all graduate work attempted. "Academic Forgiveness" policy does not apply to graduate studies.
- Students cannot graduate with a grade of "C" or below in more than two (2) graduate courses (may be appealed to the College of Education Graduate Council).
- A minimum of 27 hours of the hours required for the degree must be earned in residence (75%). Asynchronous (online) and distance learning courses administered through Columbus State University constitute courses taken in residence.
- A maximum of nine (9) semester hours of transfer credit or courses taken at CSU prior to full admission to a master degree program may be applied toward the degree. Courses with earned grades of "C" or below cannot be transferred. The student's advisor and the coordinator of the program in which the student is enrolled must approve any courses transferred.
- All degree requirements must be completed within seven (7) years of first enrollment.
- Students must pass an exit examination in the Department of Art. The Department of Art offers students the option of an exit examination, thesis, or exhibition of studio art.

## Program Learning Outcomes

- Students will demonstrate competence in the development of a focused portfolio in preparation for exhibition.
- Students will demonstrate competence in the application of Art History and critical analysis in a research paper.
- Students will demonstrate competence in the ability to conduct research in art.
- Students will demonstrate competence in the application of art education concepts.
- Students will demonstrate competence in the development of P-12 curriculum.

# Art History (BA)

## Program Overview

Students in our Art History degree program study Western and Non-Western Art from pre-history to the present day. They learn about how works of art reflect the lives and cultures of the artists who made them. Art History draws on every field of study from the fine arts, literature and history to science and mathematics as a means to understand works of art and their broader histories.

## Career Opportunities

Students who graduate from this program will be prepared to enter graduate school in art history but art history majors may pursue other educational and professional opportunities as well. Art History majors may find success in fields as diverse as museum and gallery administration, advertising, interior design, publishing, business management, medicine and law. Whether pursuing graduate study or careers upon leaving college, Art History majors are valued for their highly developed skills in visual analysis and interpretation, research, writing and oral communication. Our students may leave with experience studying abroad, presenting research at conferences and symposia as well as internships in museums and galleries.

<sup>1</sup> Students who complete ARTH 2125 Introduction to the History of Art I– Prehistoric through Gothic or ARTH 2126 Introduction to the History of Art II– Renaissance through Modern to fulfill Area C, select one of the following for Area F:

- Foreign Language 2002
- ENGL 2157 Writing for the English Major
- HIST 1111 World History to 1500
- HIST 1112 World History since 1500
- ANTH 2105 Ancient World Civilizations

<sup>2</sup> Students who plan to pursue graduate study should complete a Foreign Language through the 2002-level.

<sup>3</sup> Students will complete their required 39 hours of upper-division coursework by including 6 additional hours of coursework at the 3000-level or above in Area H.

<sup>4</sup> Courses must **not** be taken in Area G.

## Program Map

| Course              | Title                                                                                  | Credit Hours |

 ITDS 1779 Scholarship Across the Disciplines (2 cr)  
 LEAD 1705 Introduction to Servant Leadership (2 cr)  
 PERS 1506 Perspectives (1 cr; may be repeated with a different topic)  
 PERS 1507 Perspectives (2 cr)

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A " (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.
- All BA in Art History majors must earn a "C" or higher in all ARTS and ARTH courses.

## Admission Requirements

There are no additional admission requirements for the Bachelor of Arts in Art History. Please see the general undergraduate admission requirements.

## Additional Program Requirements

There are no additional academic regulations for the Bachelor of Arts in Art History. Please see the undergraduate academic regulations section of the catalog.

## Program Learning Outcomes

- Students will demonstrate competence in the application of tools and techniques of scholarship.
- Students will demonstrate competence in the use of written communication in a research paper.
- Students will demonstrate competence in the identification of monuments and principal artists of major art periods.
- Students will demonstrate competence in the application of theory, analysis and criticism in a research paper.

## Department of Communication

The Department of Communication emphasizes putting the principles of best practice to work in “real world” learning environments. Students learn the fundamentals of their discipline in the classroom, but what sets this program apart from others is its emphasis on student application of material in practical projects before leaving the classroom. In several classes, students will have the opportunity to work on class projects and in applied internships where they will be able to reinforce the lessons learned in class by putting them into practice with local nonprofit or public sector organizations. One benefit is that our students evolve into civically engaged citizens through the experience of learning how to solve the problems in their community in class. The other benefit of this approach is that our students graduate with professional-grade portfolios, making them competitive in the marketplace.

The Department of Communication offers the following degrees and programs:

- Associate of Arts in Communication (AA) (p. 59)
- Associate of Arts in Film Production (AA) (p. 61)
- Communication (BA) - Communication Studies Track (p. 64)
- Communication (BA) - Film Production Track (p. 67)
- Communication (BA) - Integrated Media Track (p. 71)
- Communication (BA) - Public Relations Track (p. 74)
- Communication (MA) - Creative Services Management Track (<https://catalog.columbusstate.edu/academic-units/arts/communication/communication-creative-services-mgmt-track-ma/>)
- Communication (MA) - Strategic Communication Management Track (<https://catalog.columbusstate.edu/academic-units/arts/communication/communication-strategic-comm-mgmt-track-ma/>)
- Film Production (Nexus) (p. 78)

## Associate of Arts in Communication (AA)

### Program Overview

The Associate of Arts in Communication (AA) degree is a 2-year undergraduate transfer degree program designed for the completion of the general education requirements and related lower division studies typically pursued during the first two years of a four-year baccalaureate degree program. Most of the coursework in this transfer AA degree program encompasses CSU's Core Curriculum requirements, which include preparatory or introductory coursework for the Communication Studies major. This associate degree does not include in-depth studies in Communication Studies as in-depth studies are pursued at the upper division level (last two years) of a four-year program.

### Career Opportunities

This degree is intended to serve as an undergraduate transfer degree program, designed largely for the completion of the general education requirements and related lower division studies typically pursued during the first two years of a four-year baccalaureate degree program.

<sup>1</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1-2 hours;
- Area D1, 7-8 hours;
- Area D2, 3-4 hours.

<sup>2</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

<sup>1</sup> If COMM 1115 On-Set Film Production I, then student need not take remaining COMM elective in Spring 2.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within two years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and STAT 1401 or MATH 1\*\*\*) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

There are no program specific academic regulations.

## Program Learning Outcomes

- Students will demonstrate an understanding of cultural impacts on communication rules.
- Students will apply communication theories to daily life and interactions.
- Students will demonstrate the ability to effectively deliver a formal presentation before a live audience.

## Associate of Arts in Film Production (AA)

### Program Overview

The Associate of Arts in Film Production (AA) degree is a 2-year undergraduate transfer degree program designed for the completion of the general education requirements and related lower division studies typically pursued during the first two years of a four-year baccalaureate degree program and including 18 credit hours of film production courses.

Most of the coursework in this AA degree program encompasses CSU's Core Curriculum requirements, which include some preparatory or introductory coursework for particular upper division majors. However, these associate degrees do not include in-depth studies in a major, as in-depth studies in a major field are typically pursued at the upper division level (last two years) of a four-year program.

### Career Opportunities

Job placement assistance is provided upon completion of the Associate of Arts in Film Production.

<sup>1</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1-2 hours;
- Area D1, 7-8 hours;
- Area D2, 3-4 hours.

<sup>2</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

- <sup>1</sup> Recommended class but any math/science/tech class from Area D can be used here.
- <sup>2</sup> One of these courses could be taken in Spring 2 and the On-Set Internship taken Fall 2.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within two years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- Students must complete "Area A " (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and STAT 1401 or MATH 1\*\*\*) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

There are no program specific academic regulations.

## Program Learning Outcomes

- Students will demonstrate the basic skills required for working on film industry sets.
- Students will demonstrate hands on understanding of job responsibilities required for a variety of entry-level on-set jobs.
- Students will demonstrate ability to market themselves for entry-level positions in the film industry.

# Communication (BA) - Communication Studies Track

## Program Overview

Built upon the theoretical foundations of interpersonal, group and rhetorical communication, this program explores concepts and applications designed for students wanting careers in organizational communication, training and development, and rhetorical analysis. It has proven to be an excellent preparation program for students desiring to continue their education in a variety of graduate and professional schools.

## Career Opportunities

- Communication Management
- Human Resources
- Community Relations Specialist/Organizer
- Nonprofit Research

## Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

<sup>2</sup> COMM 1115 On-Set Film Production I is a 6 credit course (Could be used for a Certificate in Film Production or an Associate of Arts degree in Film Production).

<sup>3</sup> Note on general elective: This could be used for a minor or Writing for Social Media Certificate.

<sup>4</sup> COMM 2498 On-Set Internship is a 6 credit course (Could be used for a Certificate in Film Production or an Associate of Arts degree in Film Production).

**Additional Notes**

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.
- A 2.5 GPA is required in all major classes.

**Admission Requirements**

There are no program specific admission requirements.

**Additional Program Requirements**

There are no program specific academic regulations.

**Program Learning Outcomes**

- Students will demonstrate competency in use of adaptability skills by demonstrating appropriate message creation and dissemination that is appropriate for audience, context, and medium..
- Students will demonstrate research skills competency through the application of appropriate tools and techniques of credible and ethical scholarship.
- Students will demonstrate competency in the application of critical analysis skills
- Students will demonstrate competency in communication skills including oral, written, social, and/or digital communication
- Students will demonstrate competency to engage in contextually appropriate persuasive communication in a public forum (e.g., social media campaigns, community engagement or work assignments)

**Communication (BA) - Film Production Track****Program Overview**

The Film Production track is designed to meet the need for qualified individuals to serve as film production personnel in the burgeoning \$6 billion film industry in Georgia. The degree program will require the successful completion of 123 undergraduate credit hours. All credit hours earned in obtaining the Film Production Certificate and AA can be applied to the BA in Communication / Film Production Concentration program.

**Credit Hours** **15**

**Total Credit Hours** **123**

<sup>1</sup> GFA 1000 Introduction to On-Set Film Production/GFA 2000 Film & Television Production Internship could be used for a Certificate in Film Production or an Associate of Arts degree in Film Production.

<sup>2</sup> Elective will use HIST 3126 History in Film or other courses listed in the Program of Study, Area H2.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.
- A 2.5 GPA is required in all major classes.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

There are no program specific academic regulations.

## Program Learning Outcomes

- Students will demonstrate competency in use of adaptability skills by demonstrating appropriate message creation and dissemination that is appropriate for audience, context, and medium..
- Students will demonstrate research skills competency through the application of appropriate tools and techniques of credible and ethical scholarship.
- Students will demonstrate competency in the application of critical analysis skills

- Students will demonstrate competency in communication skills including oral, written, social, and/or digital communication
- Students will demonstrate the workforce skills required for working on film productions.

## Communication (BA) - Integrated Media Track

### Program Overview

This program uses a computer mediated communication focus to prepare graduates to enter the fast-changing mass media profession where the convergence of media models requires students to work across all media platforms. This training includes the traditional print and broadcast media as well as Internet, digital and social media. Students develop multi-platform media content (radio, television, digital) at all phases and work with industry professionals to hone their skills.

### Career Opportunities

- Digital Communication Director
- Social Media Director
- Web Designer
- Camera Crew
- Film & Documentary Pro

### Program of Study

<sup>1</sup> GFA 1000 Introduction to On-Set Film Production is a 6 credit-hour course. (Could be used for a certificate in Film Production, or an Associate of Arts degree in Film Production.)

<sup>2</sup> Note on general elective: This could be used for a minor or Writing for Social Media Certificate.

<sup>3</sup> GFA 2000 Film & Television Production Internship is a 6 credit-hour course. (Could be used for a certificate in Film Production, or an Associate of Arts degree in Film Production.)

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.
- A 2.5 GPA is required in all major classes.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

There are no program specific academic regulations.

## Program Learning Outcomes

- Students will demonstrate competency in use of adaptability skills by demonstrating appropriate message creation and dissemination that is appropriate for audience, context, and medium..
- Students will demonstrate research skills competency through the application of appropriate tools and techniques of credible and ethical scholarship
- Students will demonstrate competency in the application of critical analysis skills

- Students will demonstrate competency in communication skills including oral, written, social, and/or digital communication
- Students will demonstrate pre-production, production, and post-production skills competency

# Communication (BA) - Public Relations Track

## Program Overview

Using a management centered approach, this program combines the theoretical concepts of persuasion, public opinion formation, and mass communication with applied research, planning, communication, and evaluation of comprehensive public relation campaigns. These campaigns are developed for non profit organizations within the community so as to provide real-world professional experiences.

## Career Opportunities

- Public/Community Relations
- Marketing Specialist
- Campaign Director
- Media Planner
- Corporate Affairs

## Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

- <sup>1</sup> COMM 1115 On-Set Film Production I is a 6 credit course. (Could be used for a certificate in Film Production, or an Associate of Arts degree in Film Production.)
- <sup>2</sup> Note on general elective: This could be used for a minor or Writing for Social Media Certificate.
- <sup>3</sup> COMM 2498 On-Set Internship is a 6 credit course. (Could be used for a certificate in Film Production, or an Associate of Arts degree in Film Production.)

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.
- A 2.5 GPA is required in all major classes.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

There are no program specific academic regulations.

## Program Learning Outcomes

- Students will demonstrate competency in use of adaptability skills by demonstrating appropriate message creation and dissemination that is appropriate for audience, context, and medium..

- Students will demonstrate research skills competency through the application of appropriate tools and techniques of credible and ethical scholarship.
- Students will demonstrate competency in the application of critical analysis skills
- Students will demonstrate competency in communication skills including oral, written, social, and/or digital communication
- Students will demonstrate competency in creating effective strategic communication messaging and campaigns

## Film Production (Nexus)

### Program Overview

The nexus degree will provide Georgians access to a career in the high demand area of Film Production (as defined by the Governor's report on High Demand Career Initiatives). The Nexus Degree is tightly aligned with high priority talent demand of film production and the competencies and capabilities valued most within the industry. The Nexus degree is intended for anyone interested in pursuing a career in a film production-related-area – people who have not earned a degree, people who have a degree but want to transition into a high demand career field, and people who work in a high demand career field and want to advance in their film career ladder.

The Film Production Nexus consists of 60 credit hours, with a minimum requirement of 12 credit hours of upper-division courses (e.g., 3000-4000) and includes a substantive experiential learning component. Experiential learning components are foundational to each course offered in this degree.

Area E Total 12

#### Area F Courses Related to Major

The program consists of 18 hours of which at least 12 must be upper division. A Grade of C or better is required for all GFA courses.

|          |                                        |   |
|----------|----------------------------------------|---|
| GFA 1000 | Introduction to On-Set Film Production | 6 |
|----------|----------------------------------------|---|

Select 12 Hours of 3000 or 4000 level GFA courses OR select one of the following pathways: 12

#### Post Production Pathway (choose two courses):

|          |                                                      |
|----------|------------------------------------------------------|
| GFA 3040 | Intro to Editing with Avid Media Composer 100        |
| GFA 3140 | Introduction to Sound Design with Avid Pro Tools 100 |
| GFA 4040 | Advanced Editing with Avid Media Composer 200        |

#### Motion Picture Set Light Pathway:

|          |                                |
|----------|--------------------------------|
| GFA 3020 | Motion Picture Set Lighting I  |
| GFA 4020 | Motion Picture Set Lighting II |

#### Production Design Pathway:

|          |                      |
|----------|----------------------|
| GFA 3010 | Production Design I  |
| GFA 4010 | Production Design II |

Area F Total 18

**Total Credit Hours 60**

- Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges: Area B, 4-5 hours; Area D1, 7-8 hours; Area D2, 3-4 hours. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.
- ITDS 1145, though listed under both humanities and fine arts, may be taken only once.

## Program Map

| Course                                            | Title                                                                                            | Credit Hours |

<sup>1</sup> Recommended class but any math/science/tech class from Area D can be used here.

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

There are no program specific academic regulations.

## Program Learning Outcomes

- Demonstrate the competencies needed to receive industry OSHA certification.
- Demonstrate professional level skills in the High Demand Career Initiative (HDCI) craft of film production.
- Demonstrate use of on-set film production equipment at a level appropriate to industry-standard practice.

## Department of Theatre

The Department of Theatre at Columbus State University educates students in the collaborative art of theatre and prepares them for professional employment, careers in theatre education, and graduate study. The course of study teaches the craft and artistry of acting, directing, design, technical, and educational theatre. The professional and energetic faculty encourages students to experiment, explore, and discover in a supportive yet challenging environment. CSU productions serve as a laboratory where students practice classroom theories, test analytical skills, and undertake cooperative endeavors while promoting the creative act of theatre. CSU's Department of Theatre is accredited by the National Association of Schools of Theatre, which means that CSU's Department of Theatre offers an education that meets or exceeds the national standard and the education provides a base of academic strength and operational integrity.

The Department of Theatre offers the following degrees and programs:

- Theatre (BA) (p. 80)
- Theatre (BFA) - Performance Track (p. 85)
- Theatre (BFA) - Theatre Design & Technology Track (p. 89)
- Theatre Education (BSEd) - Certification Track (p. 94)
- Theatre Education (BSEd) - Non-Certification Track (p. 99)
- Theatre Education (MEd) (p. 103)

## Theatre (BA)

### Program Overview

The Department of Theatre offers comprehensive undergraduate programs, which are accredited by the National Association of Schools of Theatre. The Bachelor of Arts (BA) provides students with a well-rounded education in all areas of theatre arts – production & performance (including acting, directing, and design/technical skills), literature, and history.

### Career Opportunities

This degree enables and assists individuals seeking careers in theatre, careers related to theatre, or graduate studies.

### Program of Study

*This program requires a minimum GPA of 2.0 for all Theatre Courses. Students must earn at least a C grade in each field course; earn at least a C grade in each professional course; and maintain a total GPA of 2.75 based on the hours attempted, and an institutional GPA of 2.75.*

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

<sup>1</sup> See Spring 3 for other option.

<sup>2</sup> If requirement not met in Fall 3.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

Admission to the Department of Theatre is by **audition only**. There are a limited number of spaces in the Freshman class each year.

All applicants are **automatically** considered for scholarships at the time of the audition.

- An accompanist will **not** be provided during Auditions. If singing, please bring a CD of your music, or you may choose to sing acapella.

Prospective students must submit the following:

- Audition Application
- Headshot (professional grade not necessary) and a Theatre Resumé
- A copy of your most recent transcript, including a cumulative GPA
- **Two** Letters of Recommendation from teacher/advisor that speak to applicant's academic and artistic abilities
- Interview including presentation of portfolio materials demonstrating previous theatre involvement (may include design/tech, dramaturgy, playwriting, or other supporting materials)

BFA Performance Track and BA acting focus must also prepare the following:

- Presentation of Audition - Two contrasting monologues, or one monologue and 16 bars of music, not to exceed **90 seconds** total

If any part of your Audition Packet, (Audition Application, Headshot, Theatre Resume', recent Transcript, and two Recommendation Letters), is missing, it very well could delay a decision on whether or not you are accepted into the department.

## Additional Program Requirements

All Theatre Majors are required to maintain a 2.75 GPA in their program of study.

## Program Learning Outcomes

- General knowledge of all areas and methods of the theatrical production process.
- Knowledge of the theatre history and appreciation for dramatic literature of western civilization.
- Understanding of and basic proficiency in theatre design, technology, acting, directing, and writing.
- BA students will demonstrate a general knowledge of the Theatrical Arts and proficiency in one or more of the following areas: Playwriting, criticism, history, dramaturgy, management, production, directing, and performance.

## Theatre (BFA) - Performance Track

### Program Overview

The Department of Theatre offers comprehensive undergraduate programs, which are accredited by the National Association of Schools of Theatre. The department offers the Bachelor of Fine Arts (BFA) in Performance and the Bachelor of Fine Arts (BFA) in Theatre Design and Technology which provide a concentrated theatrical background in acting, design, and technical theatre for students.

### Career Opportunities

This degree enables and assists individuals seeking careers in the professional theatre and in higher education.

### Program of Study

*This program requires a minimum GPA of 2.0 for all Theatre Courses. Students must earn at least a C grade in each field course; earn at least a C grade in each professional course; and maintain a total GPA of 2.75 based on the hours attempted, and an institutional GPA of 2.75.*

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

Admission to the Department of Theatre is by **audition only**. There are a limited number of spaces in the Freshman class each year.

All applicants are **automatically** considered for scholarships at the time of the audition.

- An accompanist will **not** be provided during Auditions. If singing, please bring a CD of your music, or you may choose to sing acapella.

Prospective students must submit the following:

- Audition Application
- Headshot (professional grade not necessary) and a Theatre Resumé
- A copy of your most recent transcript, including a cumulative GPA
- **Two** Letters of Recommendation from teacher/advisor that speak to applicant's academic and artistic abilities
- Interview including presentation of portfolio materials demonstrating previous theatre involvement (may include design/tech, dramaturgy, playwriting, or other supporting materials)

BFA Performance Track and BA acting focus must also prepare the following:

- Presentation of Audition - Two contrasting monologues, or one monologue and 16 bars of music, not to exceed **90 seconds** total

If any part of your Audition Packet, (Audition Application, Headshot, Theatre Resume', recent Transcript, and two Recommendation Letters), is missing, it very well could delay a decision on whether or not you are accepted into the department.

## Additional Program Requirements

All Theatre Majors are required to maintain a 2.75 GPA in their program of study.

## Program Learning Outcomes

- General knowledge of all areas and methods of the theatrical production process.
- Knowledge of the theatre history and appreciation for dramatic literature of western civilization.
- Understanding of and basic proficiency in theatre design, technology, acting, directing, and writing.
- BFA Performance students will demonstrate knowledge of and proficiency in the profession of acting.

## Theatre (BFA) - Theatre Design & Technology Track

### Program Overview

The Department of Theatre offers comprehensive undergraduate programs, which are accredited by the National Association of Schools of Theatre. The department offers the Bachelor of Fine Arts (BFA) in Performance and the Bachelor of Fine Arts (BFA) in Theatre Design and Technology which provide a concentrated theatrical background in acting, design, and technical theatre for students.

### Career Opportunities

This degree enables and assists individuals seeking careers in the professional theatre and in higher education.

### Program of Study

*This program requires a minimum GPA of 2.0 for all Theatre Courses. Students must earn at least a C grade in each field course; earn at least a C*

grade in each professional course; and maintain a total GPA of 2.75 based on the hours attempted, and an institutional GPA of 2.75.

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

## Core Requirements

| Code                                               | Title                                                                | Credit Hours |

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

Admission to the Department of Theatre is by **audition only**. There are a limited number of spaces in the Freshman class each year.

All applicants are **automatically** considered for scholarships at the time of the audition.

- An accompanist will **not** be provided during Auditions. If singing, please bring a CD of your music, or you may choose to sing a cappella.

Prospective students must submit the following:

- Audition Application
- Headshot (professional grade not necessary) and a Theatre Resumé
- A copy of your most recent transcript, including a cumulative GPA
- **Two** Letters of Recommendation from teacher/advisor that speak to applicant's academic and artistic abilities
- Interview including presentation of portfolio materials demonstrating previous theatre involvement (may include design/tech, dramaturgy, playwriting, or other supporting materials)

BFA Performance Track and BA acting focus must also prepare the following:

- Presentation of Audition - Two contrasting monologues, or one monologue and 16 bars of music, not to exceed **90 seconds** total

If any part of your Audition Packet, (Audition Application, Headshot, Theatre Resumé, recent Transcript, and two Recommendation Letters),

is missing, it very well could delay a decision on whether or not you are accepted into the department.

## Additional Program Requirements

All Theatre Majors are required to maintain a 2.75 GPA in their program of study.

## Program Learning Outcomes

- General knowledge of all areas and methods of the theatrical production process.
- Knowledge of the theatre history and appreciation for dramatic literature of western civilization.
- Understanding of and basic proficiency in theatre design, technology, acting, directing, and writing.
- BFA Design and Technology students will demonstrate knowledge of and proficiency in the professions of designing, implementing, and running theatrical productions.

## Theatre Education (BSEd) - Certification Track

### Program Overview

The Department of Theatre offers comprehensive undergraduate programs that are accredited by the National Association of Schools of Theatre (NAST). The Bachelor of Science in Education (BSEd) in Theatre Education provides pre-service teachers a solid knowledge base emphasizing pedagogy, curriculum content, and assessment consistent with the national, state, and local standards and goals. In the first two years, students complete studies that establish eligibility for admission to teacher education. This is followed by a sequence of campus and field-based courses culminating in the student teaching semester during the senior year.

All educator preparation programs are approved by the Georgia Professional Standards Commission. In addition to the degree requirements, there are further requirements for teaching certification. Visit the Certification page (<https://cqtl.columbusstate.edu/certification.php>) on the CSU Center for Quality Teaching and Learning (CQTL) website for detailed information about certification requirements and the certification process.

## Career Opportunities

The Bachelor of Science in Education (BSEd) in theatre provides a broad theatrical background for students planning careers in professional, higher education, or community theatre.

## Program of Study

*This program requires a minimum GPA of 2.0 for all Theatre Courses. Students must earn at least a C grade in each field course; earn at least a C grade in each professional course; and maintain a total GPA of 2.75 based on the hours attempted, and an institutional GPA of 2.75.*

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

| SPED 2256 | Introduction to the Exceptional Learner in General Education (minimum grade of C; see note below) | 3 |

There is a recent rule change for certification from the GaPSC. As of July 1, 2019, students must make a B or higher in the Exceptional Children's course. The course could be any of the following depending on your major: SPED 2256, EDCI 6228, KINS 4245, SPED 4115, PHED 6219. This rule change will not affect your graduation but you cannot become a certified educator with the state of Georgia until you receive the grade of B or higher in this course.

I would encourage you to the following in the summers:

1. Do CSU Summer Repertory and take classes (suggestions: Summer Rep as an elective, Theatre Practice, and then one core class such as Sciences in Area D)
2. Study abroad (combine so that it counts as Theatre History etc.)

3. Work an internship at a children's theatre at least one summer (with or without credit hours)

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

Admission to the Department of Theatre is by **audition only**. There are a limited number of spaces in the Freshman class each year.

All applicants are **automatically** considered for scholarships at the time of the audition.

- An accompanist will **not** be provided during Auditions. If singing, please bring a CD of your music, or you may choose to sing a cappella.

Prospective students must complete the following:

- Audition Application (DOCX) (DOCX) (<http://theatre.columbusstate.edu/auditionapplication1.docx>)
- Headshot (professional grade not necessary) and a Theatre Resumé
- A copy of your most recent transcript, including a cumulative GPA
- Interview including presentation of portfolio materials demonstrating previous theatre involvement (may include design/tech, dramaturgy, playwriting, or other supporting materials)

OR

- Presentation of Audition/Interview - Two contrasting monologues, or one monologue and 16 bars of music, not to exceed **90 seconds** total
- **Two** Letters of Recommendation (PDF) (PDF) ([http://theatre.columbusstate.edu/recommendation\\_form.pdf](http://theatre.columbusstate.edu/recommendation_form.pdf)) from teacher/advisor that speak to applicant's academic and artistic abilities
- If any part of your Audition Packet, (Audition Application, Headshot, Theatre Resume', recent Transcript, and two Recommendation Letters), is missing, it very well could delay a decision on whether or not you are accepted into the department.

Incoming freshman may audition for any of the above areas (with the exception of the MEd in Theatre Education) but may be admitted into the BA program prior to being able to qualify for another area of study within the department. If this is the case, then incoming students may apply to one of the other areas of study as part of the Freshman Jury process during their Freshmen Year.

## Additional Program Requirements

All Theatre Majors are required to maintain a 2.75 GPA in their program of study.

## Program Learning Outcomes

- General knowledge of all areas and methods of the theatrical production process.
- Knowledge of the theatre history and appreciation for dramatic literature of western civilization.
- Understanding of and basic proficiency in theatre design, technology, acting, directing, and writing.
- BSEd graduates will be able to demonstrate knowledge of and proficiency in the methods of teaching theatre.

## Theatre Education (BSEd) - Non-Certification Track

### Program Overview

The Department of Theatre offers comprehensive undergraduate programs that are accredited by the National Association of Schools of Theatre (NAST). The Bachelor of Science in Education (BSEd) in Theatre Education provides pre-service teachers a solid knowledge base emphasizing pedagogy, curriculum content, and assessment consistent with the national, state, and local standards and goals. In the first two years, students complete studies that establish eligibility for admission to teacher education. This is followed by a sequence of campus and field-based courses culminating in the student teaching semester during the senior year.

All educator preparation programs are approved by the Georgia Professional Standards Commission.

### Career Opportunities

The Bachelor of Science in Education (BSEd) in theatre provides a broad theatrical background for students planning careers in professional, higher education, or community theatre.

### Program of Study

*This program requires a minimum GPA of 2.0 for all Theatre Courses. Students must earn at least a C grade in each field course; earn at least a C grade in each professional course; and maintain a total GPA of 2.75 based on the hours attempted, and an institutional GPA of 2.75.*

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

| EDUF 4205 | Technology for the 21st Century Classroom (minimum grade of C) | 2 |
|-----------|----------------------------------------------------------------|---|

|           |                                                |    |
|-----------|------------------------------------------------|----|
| THEA 4485 | Student Teaching: Theatre (minimum grade of C) | 10 |
|-----------|------------------------------------------------|----|

|                     |           |
|---------------------|-----------|
| <b>Credit Hours</b> | <b>14</b> |
|---------------------|-----------|

|                           |            |
|---------------------------|------------|
| <b>Total Credit Hours</b> | <b>129</b> |
|---------------------------|------------|

I would encourage you to the following in the summers:

1. Do CSU Summer Repertory and take classes (suggestions: Summer Rep as an elective, Theatre Practice, and then one core class such as Sciences in Area D)
2. Study abroad (combine so that it counts as Theatre History etc.)
3. Work an internship at a children's theatre at least one summer (with or without credit hours)

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

Admission to the Department of Theatre is by **audition only**. There are a limited number of spaces in the Freshman class each year.

All applicants are **automatically** considered for scholarships at the time of the audition.

- An accompanist will **not** be provided during Auditions. If singing, please bring a CD of your music, or you may choose to sing acapella.

Prospective students must complete the following:

- Audition Application (DOCX) (DOCX) (<http://theatre.columbusstate.edu/auditionapplication1.docx>)
- Headshot (professional grade not necessary) and a Theatre Resumé

- A copy of your most recent transcript, including a cumulative GPA
- Interview including presentation of portfolio materials demonstrating previous theatre involvement (may include design/tech, dramaturgy, playwriting, or other supporting materials)

OR

- Presentation of Audition/Interview - Two contrasting monologues, or one monologue and 16 bars of music, not to exceed **90 seconds total**
- **Two** Letters of Recommendation (PDF) (PDF) ([http://theatre.columbusstate.edu/recommendation\\_form.pdf](http://theatre.columbusstate.edu/recommendation_form.pdf)) from teacher/advisor that speak to applicant's academic and artistic abilities
- If any part of your Audition Packet, (Audition Application, Headshot, Theatre Resume', recent Transcript, and two Recommendation Letters), is missing, it very well could delay a decision on whether or not you are accepted into the department.

Incoming freshman may audition for any of the above areas (with the exception of the MEd in Theatre Education) but may be admitted into the BA program prior to being able to qualify for another area of study within the department. If this is the case, then incoming students may apply to one of the other areas of study as part of the Freshman Jury process during their Freshmen Year.

## Additional Program Requirements

All Theatre Majors are required to maintain a 2.75 GPA in their program of study.

## Program Learning Outcomes

- General knowledge of all areas and methods of the theatrical production process.
- Knowledge of the theatre history and appreciation for dramatic literature of western civilization. Understanding of and basic proficiency in theatre design, technology, acting, directing, and writing.
- BEd graduates will be able to demonstrate knowledge of and proficiency in the methods of teaching theatre.

## Theatre Education (MEd)

### Program Overview

The Department of Theatre is accredited by the National Association of Schools of Theatre (NAST). The Master of Education in Theatre Education program is designed to provide teachers of theatre with in-depth training in the art of theatre. The program is designed as a three-summer program.

All educator preparation programs are approved by the Georgia Professional Standards Commission.

### Career Opportunities

Upon successful completion of the MEd in Theatre, the candidate may teach or continue to teach at K-12 schools or continue their education with a PhD or MFA in Theatre. Candidates may also work toward theatre certification while working on their MEd.

## Admission Requirements

Apply and get accepted into CSU as a Graduate student. Use the online application found on the CSU website under Graduate Program. General Requirements:

- A baccalaureate degree from an accredited college or university. (If your undergraduate degree is not in theatre, you may have to take additional courses to supplement your theatre study.)
- Application plus \$40 application fee
- Certificate of Immunization (PDF online)
- Official transcript from each college and university attended
- Test scores from the GRE, GMAT, MAT or other standardized test as required by the individual degree program. (The GRE is not required for the MEd in Theatre if your undergraduate degree GPA is a 2.75 or above)
- Verification and proof of Lawful presence

Send the following to the Theatre Department:

- Cover letter/letter of intent
- Statement of Philosophy of Teaching of Theatre
- Resume or vitae
- Three letters of recommendation
- Copies of transcripts

Send to:

Brenda May Ito  
CSU Department of Theatre  
4225 University Avenue  
Columbus, GA 31907

## Additional Program Requirements

This Degree is subject to the following requirements:

- The program is an on-site three summer program, but it is possible to take some education courses online.
- Students must earn a 3.0 GPA calculated on all graduate work attempted. "Academic Forgiveness" policy does not apply to graduate studies.
- Students cannot graduate with a grade of "C" or below in more than two (2) graduate courses (may be appealed to the College of Education Graduate Council).
- A minimum of 27 hours of the hours required for the degree must be earned in residence (75%). Asynchronous (online) and distance learning courses administered through Columbus State University constitute courses taken in residence.
- A maximum of nine (9) semester hours of transfer credit or courses taken at CSU prior to full admission to a master degree program may be applied toward the degree. Courses with earned grades of "C" or below cannot be transferred. The student's advisor and the coordinator of the program in which the student is enrolled must approve any courses transferred.
- All degree requirements must be completed within seven (7) years of first enrollment.

## Program Learning Outcomes

- Use the techniques of the theatre artist to improve the learning process across the curriculum and in the differentiated classroom.
- Demonstrate effective pedagogical strategy and practical teaching effectiveness through development of curriculum and instruction as the vehicle for addressing student needs.
- Apply appropriate research methods in constructing thesis paper, and for creating a more complex understanding of how the dramatic arts can impact the curriculum in P-12 schools and the community as a whole.
- Demonstrate and assess practical skills for the creation and production of plays in P-12 schools.
- Analyze previous research, attitudes, and performance theories in theatre arts from a critical perspective.

## Schwob School of Music

The Schwob School of Music of Columbus State University has become one of the leading and fastest-growing university-level music programs in the southeast. The accomplished artist faculty of the Schwob School of Music serve an internationally diverse student population, and the School's effect on the cultural life of Columbus is everywhere apparent. The Schwob School is a past recipient of the Regents Teaching Excellence Award for Departments and Programs by the Board of Regents of the University System of Georgia. The Schwob School of Music is an accredited institutional member of the National Association of Schools of Music.

The Schwob School of Music offers the following degrees and programs:

- Music (BA) (p. 104)
- Music Education (BM) - Choral Concentration (p. 110)
- Music Education (BM) - Instrumental Concentration (p. 115)
- Music Performance (BM) - Instrumental Concentration (p. 120)
- Music Performance (BM) - Piano/Organ Concentration (p. 128)
- Music Performance (BM) - Vocal Concentration (p. 132)
- Music Performance (MM) (p. 136)

## Music (BA)

### Program Overview

The **Bachelor of Arts in Music** degree offers students a versatile liberal arts education within an extraordinary music school. By fostering intellectual and scholarly engagement in many disciplines, it is particularly well-suited for musically talented students who have additional academic interests and desire a flexible career trajectory.

The BA curriculum provides a comprehensive academic education with rigorous musical training that develops creative and intellectual habits essential for success in careers of all kinds. It encourages the creative spirit and flexibility needed in a quickly evolving global economy. Students will choose a track either from inside the School of Music (audio technology, composition, or jazz) or are encouraged to choose a minor from those offered from other departments at CSU. The various tracks allow students to tailor the degree to their particularly academic or career interests. While studying a wide range of academic disciplines, BA students receive exceptional professional training in musicianship,

including private study with our artist faculty in applied music, and are able to participate fully in the musical life of the Schwob School of Music.

## Career Opportunities

- Music performance
- Production
- Studio instruction
- Fields that link the degree with a minor in another field such as business, health/wellness, and tourism

<sup>1</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1-2 hours;
- Area D1, 7-8 hours;
- Area D2, 3-4 hours.

<sup>2</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

## Major Requirements

|                           |            |
|---------------------------|------------|
| <b>Total Credit Hours</b> | <b>123</b> |
|---------------------------|------------|

<sup>1</sup> Students may substitute MUSA 1215 Secondary Applied Music or MUSA 1216 Secondary Applied Voice (secondary applied study) for up to three of these courses.

Students taking this option must still graduate with at least 39 hours of upper-division credits.

<sup>2</sup> Student may substitute two semester hours in electives if one of the foreign languages is used for Area B.

<sup>3</sup> Eleven semester hours must be at the 3000-level or above; a minor or area of concentration is recommended

<sup>4</sup> At least 66 semester hours must be earned in disciplines outside of music. These hours may be earned as general education, foreign language, general electives, and courses in a minor.

| CORE                         | Required Core (suggest either POLS 1101 or HIST 2111/HIST 2112 whichever you have not previously taken) | 3   |

|                     |              |
|---------------------|--------------|
| <b>Credit Hours</b> | <b>14-15</b> |
|---------------------|--------------|

|                           |            |
|---------------------------|------------|
| <b>Total Credit Hours</b> | <b>123</b> |
|---------------------------|------------|

<sup>1</sup> Must be taken in Year 1, either Fall or Spring.

<sup>2</sup> Take section for music majors only.

<sup>3</sup> B2: Select 1 or 2 hours of the following courses:  
ITDS 1779 Scholarship Across the Disciplines (2 cr)  
LEAD 1705 Introduction to Servant Leadership (2 cr)  
PERS 1506 Perspectives (1 cr; may be repeated with a different topic)  
PERS 1507 Perspectives (2 cr)

- <sup>4</sup> Eleven (11) general elective hours must be at the 3000 level or above. You need a total of 21 general elective hours (cannot be MUSP or MUSA courses)
- <sup>5</sup> See advisor for Independent Study form—must be approved to create your course.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

In order to be accepted as a music major, each student must demonstrate aptitude in his/her major instrument or voice through a placement audition and interview with a member of the music faculty. All newly admitted music majors also must take placement examinations in music theory and piano. Music majors who take time off before completing degree requirements will be required to re-audition if they have missed a full academic year (fall and spring, or spring and fall).

*Transfer students:* Please note that placement in music courses is based on audition and testing results and not necessarily on previous college credit.

## Undergraduate Audition Requirements

Prospective music majors must demonstrate basic aptitude in a performance medium through a **placement audition and interview**. Transfer students should call the Schwob School for additional audition requirements.

### Piano

Any Prelude and Fugue by J.S. Bach from WTC, Allegro (I movement) from sonata by J. Haydn, W.A. Mozart, or L. van Beethoven, one virtuoso étude by F. Chopin, F. Liszt, or S. Rachmaninoff. Any work from the romantic era by F. Chopin, R. Schumann, J. Brahms, or F. Liszt.

### Organ

One Hymn written in four-part chorale style, presented with an introduction, one stanza employing standard part-playing techniques, and an (optional) second stanza, which employs a re-harmonization or descant or other appropriate treatment. One work by J. S. Bach, which was originally conceived for the organ. One work contrasting in style to the J. S. Bach work presented, from the 19th or 20th Centuries, originally conceived for the organ. Sight-reading and manual and pedal scales will be examined.

### Harp

Two works or movements of works in contrasting styles, preferably from memory. Cadenza from the Tchaikovsky Waltz of the Flowers. One Pozzoli Etude, free choice.

### Voice

Two contrasting art songs from memory sung in the original language or in English translation with piano accompaniment. Opera arias after the Classical period and musical theatre selections are not acceptable. You may bring a pianist, or an accompanist will be provided for you at a fee. Be prepared to sight read single line melodies (major and minor tonalities), chant/count rhythmic patterns, and sing aural memory passages. Transfer students are required to include a repertoire list of music studied at the college level.

### Violin

- **Technique:** Three octaves minor and major scales (candidate's choice), including double stops, thirds and octaves. One etude or caprice by Rode, Dont, Dancla, Gaviniès, Wieniawski, or Paganini.
- **Bach:** Two contrasting movements from a sonata or partita for unaccompanied violin.
- **Concerto:** One movement from a standard 18th, 19th or 20th century concerto (if 1st movement, include cadenza).
- **Short piece:** One short work of the candidate's choice. (optional)

### Viola

- **Technique:** Scales in 3 octaves. Etudes: 2 etudes from Kreutzer, Fiorillo or Rode.
- **Bach:** Two contrasting movements from a sonata, suite or partita for unaccompanied viola.
- **Concerto:** One movement from standard 18th, 19th or 20th century (if 1st movement, include cadenza).

### Cello

- **Technique:** Scales in 3 octaves. Etudes: 2 etudes from Popper, Dotzauer, Feulliard or Greutzmacher.
- **Bach:** Two contrasting movements from a suite for solo cello.
- **Concerto:** One movement from standard 18th, 19th or 20th century (if 1st movement, include cadenza).

### Bass

- **Technique:** Scales in 3 octaves. 2 etudes from Bille, Rabbath or Simandl.
- **Bach:** Two contrasting movements from a sonata or partita for unaccompanied bass.
- **Concerto:** One movement from standard 18th, 19th or 20th century (if 1st movement, include cadenza).
- **Jazz Minor:** Excerpt from standard repertoire.

## Composition

1. Applicant submits two (2) original compositions (pdf files – handwritten or computer notated) and recordings/midi (mp3 files) of at least one of these works, one week prior to audition date.
2. During audition, applicant meets with audition committee for interview/ discussion of submitted works (ca. 15 minutes).
3. During audition, applicant meets with audition committee to demonstrate fundamental performing ability – including scales, arpeggios, and a short, lyrical excerpt – on a secondary instrument (ca. 5 minutes). Competence in this instrument does not guarantee

space in the performance studio for this instrument, nor the opportunity to perform on this instrument in large ensemble.

## Guitar

Three pieces in contrasting style, one arpeggio study (Carulli, Carcassi, Giuliani, etc.) and two-octave scales in four major and harmonic and melodic minor keys.

## Brass

One or two solos or concerto movements (or characteristic etudes) that demonstrate both lyrical and technical skills. Chromatic scale, 12 major scales with arpeggios, and sight-reading.

## Woodwinds

One or two solos or concerto movements (or characteristic etudes) that demonstrate both lyrical and technical skills. Sight-reading, all major scales and arpeggios, and a full-range chromatic scale.

## Percussion

**Snare drum:** One etude from Anthony Cirone's Portraits in Rhythm, or Delécluse 12 Etudes, or Mitchell Peters Intermediate Snare Drum Studies. **Timpani:** ONE etude from Mitchell Peters Fundamental Method for Timpani (from #44, 45, 47, 49), or 3-4 drum etude from Goodman Modern Method for Timpani. **Keyboards:** Choose ONE mallet piece from the following:

- Any xylophone ragtime solo by G.H. Green
- One movement from a Bach Cello Suite or Violin Partita
- One page etude from Goldenberg Modern School

### Optional but Strongly Recommended:

- **One** short four mallet solo or etude from Burritt, Smadbeck, Bobo, Sammut, Stout, Peters, Tyson, Gomez, Musser,
- Sight reading will be required for snare drum and mallets.

## Additional Program Requirements

### General Requirements

All music majors are required to attend all master classes in their major instrument and must perform at least once each semester in a recital or master class. All students enrolled in applied music must be concurrently enrolled in the major music ensemble activity that corresponds to their major instrument (Strings-Orchestra, Winds/Percussion – Wind Ensemble, Voice-Choral Ensemble).

Students must complete at least 66 semester hours in disciplines outside of music. These hours may be earned as general education requirements, foreign language, general electives, and courses in a minor.

### Additional Requirements

Students must consult the Schwob School of Music Student Handbook for additional information on requirements for graduation.

## Program Learning Outcomes

- Students will demonstrate proficiency in applied music through the preparation for and performance of musical works that exhibit effective artistic expression.
- Students will demonstrate competency in the application of knowledge of music theory through analysis and composition.

- Students will demonstrate competency in fundamental musical knowledge and skills through analytical listening, sight-singing conducting, and functional piano skills.
- Students will demonstrate understanding of the history of western music and the ability to place music in historical/cultural/stylistic contexts through the purposeful use of evidence, insightful reasoning, and supporting details.
- Students will demonstrate the ability to integrate skills and knowledge acquired over the course of an undergraduate education to complete a significant project that expands their knowledge in an area of interest.

## Music Education (BM) - Choral Concentration

### Program Overview

The Bachelor of Music in Music Education degree prepares students to become professional music educators. It provides skilled musicians the opportunity to develop expertise as a classroom teacher and ensemble director in K-12 music programs. Much like the Music Performance degree program, students also study applied music on a principal instrument or voice with our artist-faculty and perform in our large ensembles. Music Education students are held to the same high standards of performance as those in other music degree tracks.

The BME degree has two concentrations: Instrumental, and Choral. Coursework is completed at both the CSU College of Education and the Schwob School of Music. Field experiences provide "real-world" experiences for students to transfer directly to the music teaching endeavors after graduation. Our music education faculty specialists, along with applied and ensemble faculty, mentor students through this demanding program, a relationship which continues after graduation.

All educator preparation programs are approved by the Georgia Professional Standards Commission. Columbus State University is accredited by the National Association of Schools of Music (NASM)

In addition to the degree requirements, there are further requirements for teaching certification. Visit the Certification page (<https://cctl.columbusstate.edu/certification.php>) on the CSU Center for Quality Teaching and Learning (CQTL) website for detailed information about certification requirements and the certification process.

## Career Opportunities

The Bachelor of Music in Music Education degree leads to licensure in teaching for K-12 instruction in public and private schools.

## Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

| <b>Total Credit Hours</b> |              | <b>39</b> |

<sup>1</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1-2 hours;
- Area D1, 7-8 hours;
- Area D2, 3-4 hours.

<sup>2</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

<sup>1</sup> Must be taken in Year 1, either Fall or Spring.

<sup>2</sup> Take the music major section in the following courses: ITDS 1145 Comparative Arts, MUSC 1100 Music Appreciation, and EDUC 2130 Exploring Learning and Teaching.

<sup>3</sup> Or take in a Maymester for best scheduling options.

<sup>4</sup> Note that student teaching begins during Jan Term.

<sup>5</sup> There is a recent rule change for certification from the GaPSC.

As of July 1, 2019, students must make a B or higher in the Exceptional Children's course. The course could be any of the following depending on your major:

SPED 2256, EDCI 6228, KINS 4245, SPED 4115, PHED 6219

This rule change will not affect your graduation but you cannot become a certified educator with the state of Georgia until you receive the grade of B or higher in this course.

First-year spring notes: MUSA 2221 Applied Music jury examination advises student in continuing in this major.

Second-year spring notes: MUSA 2221 Applied Music jury examination determines whether the student may continue in the major or must identify other options. At the end of this semester, apply for admission to Teacher Education.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

Prospective music majors must demonstrate basic aptitude in a performance medium through a **placement audition and interview**. Transfer students should call the Schwob School for additional audition requirements.

## Voice

Two contrasting art songs from memory sung in the original language or in English translation with piano accompaniment. Opera arias after the Classical period and musical theatre selections are not acceptable. You may bring a pianist, or an accompanist will be provided for you at a fee. Be prepared to sight read single line melodies (major and minor tonalities), chant/count rhythmic patterns, and sing aural memory passages. Transfer students are required to include a repertoire list of music studied at the college level.

## Additional Program Requirements

In order to be accepted as a music major, each student must demonstrate aptitude in his/her major instrument or voice through a placement audition and interview with a member of the music faculty. All newly admitted music majors also must take placement examinations in music theory and piano. Music majors who take time off before completing degree requirements will be required to re-audition if they have missed a full academic year (fall and spring, or spring and fall).

*Transfer students:* Please note that placement in music courses is based on audition and testing results and not necessarily on previous college credit.

## General Requirements

All music majors are required to attend all master classes in their major instrument and must perform at least once each semester in a recital or master class. All students enrolled in applied music must be concurrently enrolled in the major music ensemble activity that corresponds to their major instrument (Strings-Orchestra, Winds/Percussion – Wind Ensemble, Voice-Choral Ensemble).

## Additional Requirements

Students must consult the Schwob School of Music Student Handbook for additional information on requirements for graduation. The handbook may be found at [https://music.columbusstate.edu/students/student\\_handbook\\_2015-16.pdf](https://music.columbusstate.edu/students/student_handbook_2015-16.pdf) (PDF) ([https://music.columbusstate.edu/students/student\\_handbook\\_2015-16.pdf](https://music.columbusstate.edu/students/student_handbook_2015-16.pdf))

## Program Learning Outcomes

- Students will be able to demonstrate proficiency in applied music through the preparation for and performance of a senior vocal recital that exhibits effective artistic expression.

- Students will be able to demonstrate competency in the application of knowledge of music theory through analysis and composition.
- Students will be able to demonstrate competency in fundamental musical knowledge and skills through analytical listening, sight-singing conducting, and functional piano skills.
- Students will be able to demonstrate an understanding of the history of western music and the ability to place music in historical/cultural/stylistic contexts through the purposeful use of evidence, insightful reasoning, and supporting details.
- Students will be able to demonstrate an informed connection between teaching skills of conducting, cognitive and social development, music theory and musicianship, and the means to impart knowledge to K-12 students, via teaching demonstration, and use of informed and supported research.

## Music Education (BM) - Instrumental Concentration

### Program Overview

The Bachelor of Music in Music Education program prepares students to become professional music educators. It provides skilled musicians the opportunity to develop expertise as a classroom teacher and ensemble director in K-12 music programs. Much like the Music Performance degree program, students also study applied music on a principal instrument or voice with our artist-faculty and perform in our large ensembles. Music Education students are held to the same performance standards as those in other music degree tracks.

The BME degree has two concentrations: Instrumental, and Choral. Coursework is completed at both the CSU College of Education and the Schwob School of Music. Field experiences provide "real-world" experiences for students to transfer directly to music teaching endeavors after graduation. Our music education faculty specialists, along with applied and ensemble faculty, mentor students through this demanding program, a relationship which continues after graduation.

All educator preparation programs are approved by the Georgia Professional Standards Commission. Columbus State University is accredited by the National Association of Schools of Music (NASM)

In addition to the degree requirements, there are further requirements for teaching certification. Visit the Certification page (<https://cctl.columbusstate.edu/certification.php>) on the CSU Center for Quality Teaching and Learning (CQTL) website for detailed information about certification requirements and the certification process.

### Career Opportunities

The Bachelor of Music in Music Education leads to licensure in teaching for K-12 instruction in public and private schools.

### Program of Study

| <b>Total Credit Hours</b> | <b>39</b>    |

<sup>1</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1-2 hours;
- Area D1, 7-8 hours;
- Area D2, 3-4 hours.

<sup>2</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

<sup>1</sup> Guitar and Keyboard students may take courses designated for either string students or for wind and percussion students.

<sup>2</sup> Courses in this area require Admission to Teacher Education Program.

<sup>3</sup> There is a recent rule change for certification from the Georgia Professional Standards Commission. As of July 1, 2019, students must make a B or higher in the Exceptional Children's course. The course could be any of the following depending on your major: SPED 2256, EDCI 6228, KINS 4245, SPED 4115, PHED 6219 This rule change will not affect your graduation but you cannot become a certified educator with the state of Georgia until you receive the grade of B or higher in this course.

- <sup>1</sup> MUSC 1100 Music Appreciation (section for music majors only).
- <sup>2</sup> MUSA 2221/2321 (second semester) jury examination advises student in continuing in this major or identify other options. Applied jury at the end of the fourth semester makes a firm decision as to whether a student may continue in the major.
- <sup>3</sup> Or take in a Maymester for optimal scheduling.
- <sup>4</sup> Jan Term: Brass majors take MUSE 2207 Brass Methods here.
- <sup>5</sup> String Majors: Substitute 3 hours of MUSC/MUSE electives.
- <sup>6</sup> Note that Student Teaching begins in Jan Term.
- <sup>7</sup> There is a recent rule change for certification from the GaPSC. As of July 1, 2019, students must make a B or higher in the Exceptional Children's course. The course could be any of the following depending on your major:  
SPED 2256, EDCI 6228, KINS 4245, SPED 4115, PHED 6219  
This rule change will not affect your graduation but you cannot become a certified educator with the state of Georgia until you receive the grade of B or higher in this course.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

Prospective music majors must demonstrate basic aptitude in a performance medium through a **placement audition and interview**. Transfer students should call the Schwob School for additional audition requirements.

## Piano

Any Prelude and Fugue by J.S. Bach from WTC, Allegro (I movement) from sonata by J. Hadyn, W.A. Mozart, or L. van Beethoven, one virtuoso étude by F. Chopin, F. Liszt, or S. Rachmaninoff. Any work from the romantic era by F. Chopin, R. Schumann, J. Brahms, or F. Liszt.

## Organ

One Hymn written in four-part chorale style, presented with an introduction, one stanza employing standard part-playing techniques, and an (optional) second stanza, which employs a re-harmonization or descant or other appropriate treatment. One work by J. S. Bach, which

was originally conceived for the organ. One work contrasting in style to the J. S. Bach work presented, from the 19th or 20th Centuries, originally conceived for the organ. Sight-reading and manual and pedal scales will be examined.

## Harp

Two works or movements of works in contrasting styles, preferably from memory. Cadenza from the Tchaikovsky Waltz of the Flowers. One Pozzoli Etude, free choice.

## Violin

- Technique:** Three octaves minor and major scales (candidate's choice), including double stops, thirds and octaves. One etude or caprice by Rode, Dont, Dancla, Gaviniès, Wieniawski, or Paganini.
- Bach:** Two contrasting movements from a sonata or partita for unaccompanied violin.
- Concerto:** One movement from a standard 19th or 20th century concerto (if 1st movement, include cadenza).
- Short piece:** One short work of the candidate's choice.

## Viola, Cello, Contrabass

Scales in 3 octaves.

Two contrasting selections or movements representing two of the following style periods: Baroque, Classical, Romantic, Impressionistic or Contemporary. A selection from the standard concerto repertoire and a movement of Bach is highly recommended (from 6 Sonatas & Partitas for Violin/Viola solo or from 6 Suites for solo cello/viola/bass).

## Etudes

- Viola: 2 etudes from Kreutzer, Fiorillo or Rode.
- Cello: 2 etudes from Popper, Dotzauer, Feuilliard or Greutzmacher.
- Bass: 2 etudes from Bille, Rabbath or Simandl.

## Guitar

Three pieces in contrasting style, one arpeggio study (Carulli, Carcassi, Giuliani, etc.) and two-octave scales in four major and harmonic and melodic minor keys.

## Brass

One or two solos or concerto movements (or characteristic etudes) that demonstrate both lyrical and technical skills. Chromatic scale, 12 major scales with arpeggios, and sight-reading.

## Woodwinds

One or two solos or concerto movements (or characteristic etudes) that demonstrate both lyrical and technical skills. Sight-reading, all major scales and arpeggios, and a full-range chromatic scale.

## Percussion

**Snare drum:** One etude from Anthony Cirone's *Portraits in Rhythm*, or Delécluse *12 Etudes*, or Mitchell Peters *Intermediate Snare Drum Studies*

**Timpani:** One etude from Mitchell Peters (*Fundamental Method for Timpani* (from #44, 45, 47, 49), or 3-4 drum etude from *Goodman Modern Method for Timpani*

**Keyboards:** Choose **One** mallet piece from the following:

1. Any xylophone ragtime solo by G.H. Green
2. One movement from a Bach *Cello Suite* or *Violin Partita*
3. One page etude from Goldenberg *Modern School*

## Optional but Strongly Recommended

**One** short four mallet solo or etude from Burritt, Smadbeck, Bobo, Sammut, Stout, Peters, Tyson, Gomez, Musser,

Sight reading will be required for snare drum and mallets.

## Additional Program Requirements

In order to be accepted as a music major, each student must demonstrate aptitude in his/her major instrument or voice through a placement audition and interview with a member of the music faculty. All newly admitted music majors also must take placement examinations in music theory and piano. Music majors who take time off before completing degree requirements will be required to re-audition if they have missed a full academic year (fall and spring, or spring and fall).

*Transfer students:* Please note that placement in music courses is based on audition and testing results and not necessarily on previous college credit.

## General Requirements

All music majors are required to attend all master classes in their major instrument and must perform at least once each semester in a recital or master class. All students enrolled in applied music must be concurrently enrolled in the major music ensemble activity that corresponds to their major instrument (Strings-Orchestra, Winds/Percussion – Wind Ensemble, Voice-Choral Ensemble).

## Additional Requirements

Students must consult the Schwob School of Music Student Handbook for additional information on requirements for graduation. The handbook may be found at [https://music.columbusstate.edu/students/student\\_handbook\\_2015-16.pdf](https://music.columbusstate.edu/students/student_handbook_2015-16.pdf) (PDF) ([https://music.columbusstate.edu/students/student\\_handbook\\_2015-16.pdf](https://music.columbusstate.edu/students/student_handbook_2015-16.pdf))

## Program Learning Outcomes

- Students will be able demonstrate proficiency in instrumental performance through the preparation for and performance of a senior recital that exhibits effective artistic expression.
- Students will be able demonstrate competency in the application of knowledge of music theory through analysis and composition.
- Students will be able demonstrate competency in fundamental musical knowledge and skills through analytical listening, sight-singing conducting, and functional piano skills.
- Students will be able demonstrate an understanding of the history of western music and the ability to place music in historical/cultural/stylistic contexts through the purposeful use of evidence, insightful reasoning, and supporting details.

# Music Performance (BM) - Instrumental Concentration

## Program Overview

The **Bachelor of Music in Performance** degree is for students who aspire to become professional performers. Students study privately under the direction of our artist-faculty and are held to the highest performance expectations, and classroom instruction with low student-to-teacher ratios in the core areas of music theory, ear training, and music history provide the fundamental background necessary for success as a well-rounded musician.

Students perform in our large ensembles (symphony orchestra, wind ensemble, choir, jazz band) as well as have the opportunity to grow through the chamber music experience each semester. These ensembles are coached by faculty and include multiple performance opportunities in our world-class facilities and throughout Columbus and the surrounding region. Celebrated guest artists from around the world come to the Schwob School of Music to teach and perform with and for our students. Students can also elect to take courses in areas that supplement their performing skills such as music business, audio technology, and body mapping, creating well-equipped performers for the 21st century marketplace.

## Career Opportunities

The **Bachelor of Music in Performance** degree is for students who aspire to become professional performers.

- music performance
- production
- studio instruction and related areas

**Credit Hours** **12-16**

**Total Credit Hours** **123-129**

<sup>2</sup> MUSC 1100 Music Appreciation (section for music majors only) or ITDS 1145 Comparative Arts.

<sup>3</sup> You may take KINS 1106 Lifetime Wellness and a PEDS course instead of MUSC 1206 Body Mapping.

<sup>4</sup> If MUSC 3116 Techniques and Structures of Music Since 1945 is not available, take an additional 2 hrs of electives from MUSA, MUSC, MUSE, MUSP.

<sup>5</sup> You must accumulate 10 credits of MUSA, MUSC, MUSE, and/or MUSP courses to fulfill area H.

First-year spring note: MUSA 2331/2231 second semester jury examination advises student in continuing in this major.

Second-year spring note: MUSA 2232/MUSA 2332 fourth semester jury examination determines whether the student may continue in the major or identify other options.

## Program Map for Guitar

| Course            | Title                                      | Credit Hours |
|-------------------|--------------------------------------------|--------------|
| <b>First Year</b> |                                            |              |
| <b>Fall</b>       |                                            |              |

- <sup>2</sup> MUSC 1100 Music Appreciation (section for music majors only) or ITDS 1145 Comparative Arts.
- <sup>3</sup> Select 3 credits from core requirements this semester—you might not be able to fit the exact ones listed.
- <sup>4</sup> You must accumulate 14 hours of MUSA, MUSC, MUSE, and/or MUSP courses to fulfill area H.
- <sup>5</sup> If MUSC 3116 Techniques and Structures of Music Since 1945 is not available, take an additional 2 hrs of electives from MUSA, MUSC, MUSE, MUSP.

First-year spring note: MUSA 2331/2231 second semester jury examination advises student in continuing in this major.

Second-year spring note: MUSA 2232/MUSA 2332 fourth semester jury examination determines whether the student may continue in the major or identify other options.

| AREA H                                            | Music Electives <sup>3</sup>                                       | 7-10 |

**Credit Hours 13-18**

**Total Credit Hours 123-137**

<sup>2</sup> MUSC 1100 Music Appreciation (section for music majors only).

<sup>3</sup> You must accumulate 23 credits of MUSA, MUSC, MUSE, and/or MUSP courses to fulfill area H. 8 credits must be at the 3000 level or higher.

<sup>4</sup> You may substitute KINS 1106 Lifetime Wellness and one PEDS course for MUSC 1206 Body Mapping.

First-year spring note: MUSA 2331/2231 second semester jury examination advises student in continuing in this major.

First-year spring note: MUSA 2232/MUSA 2332 fourth semester jury examination determines whether the student may continue in the major or identify other options.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

Prospective music majors must demonstrate basic aptitude in a performance medium through a **placement audition and interview**. Transfer students should call the Schwob School for additional audition requirements.

## Piano

Any Prelude and Fugue by J.S. Bach from WTC, Allegro (I movement) from sonata by J. Haydn, W.A. Mozart, or L. van Beethoven, one virtuoso étude by F. Chopin, F. Liszt, or S. Rachmaninoff. Any work from the romantic era by F. Chopin, R. Schumann, J. Brahms, or F. Liszt.

## Organ

One Hymn written in four-part chorale style, presented with an introduction, one stanza employing standard part-playing techniques, and an (optional) second stanza, which employs a re-harmonization or descant or other appropriate treatment. One work by J. S. Bach, which was originally conceived for the organ. One work contrasting in style to the J. S. Bach work presented, from the 19th or 20th Centuries, originally conceived for the organ. Sight-reading and manual and pedal scales will be examined.

## Harp

Two works or movements of works in contrasting styles, preferably from memory. Cadenza from the Tchaikovsky Waltz of the Flowers. One Pozzoli Etude, free choice.

## Violin

**Technique:** Three octaves minor and major scales (candidate's choice), including double stops, thirds and octaves. One etude or caprice by Rode, Dont, Dancla, Gaviniès, Wieniawski, or Paganini.

**Bach:** Two contrasting movements from a sonata or partita for unaccompanied violin.

**Concerto:** One movement from a standard 19th or 20th century concerto (if 1st movement, include cadenza).

**Short piece:** One short work of the candidate's choice.

## Viola, Cello, Contrabass

Scales in 3 octaves.

Two contrasting selections or movements representing two of the following style periods: Baroque, Classical, Romantic, Impressionistic or Contemporary. A selection from the standard concerto repertoire and a movement of Bach is highly recommended (from 6 Sonatas & Partitas for Violin/Viola solo or from 6 Suites for solo cello/viola/bass).

## Etudes

- Viola: 2 etudes from Kreutzer, Fiorillo or Rode.
- Cello: 2 etudes from Popper, Dotzauer, Feuilliard or Greutzmacher.
- Bass: 2 etudes from Bille, Rabbath or Simandl.

## Guitar

Three pieces in contrasting style, one arpeggio study (Carulli, Carcassi, Giuliani, etc.) and two-octave scales in four major and harmonic and melodic minor keys.

## Brass

One or two solos or concerto movements (or characteristic etudes) that demonstrate both lyrical and technical skills. Chromatic scale, 12 major scales with arpeggios, and sight-reading.

## Woodwinds

One or two solos or concerto movements (or characteristic etudes) that demonstrate both lyrical and technical skills. Sight-reading, all major scales and arpeggios, and a full-range chromatic scale.

## Percussion

**Snare drum:** One etude from Anthony Cirone's *Portraits in Rhythm*, or Delécluse 12 Etudes, or Mitchell Peters *Intermediate Snare Drum Studies*

**Timpani:** One etude from Mitchell Peters *Fundamental Method for Timpani* (from #44, 45, 47, 49), or 3-4 drum etude from Goodman *Modern Method for Timpani*

**Keyboards:** Choose **One** mallet piece from the following:

1. Any xylophone ragtime solo by G.H. Green
2. One movement from a Bach Cello Suite or Violin Partita
3. One page etude from Goldenberg Modern School

## Optional but Strongly Recommended

**One** short four mallet solo or etude from Burritt, Smadbeck, Bobo, Sammut, Stout, Peters, Tyson, Gomez, Musser,

Sight reading will be required for snare drum and mallets.

## Additional Program Requirements

In order to be accepted as a music major, each student must demonstrate aptitude in his/her major instrument or voice through a placement audition and interview with a member of the music faculty. All newly admitted music majors also must take placement examinations in music theory and piano. Music majors who take time off before completing degree requirements will be required to re-audition if they have missed a full academic year (fall and spring, or spring and fall).

*Transfer students:* Please note that placement in music courses is based on audition and testing results and not necessarily on previous college credit.

## General Requirements

All music majors are required to attend all master classes in their major instrument and must perform at least once each semester in a recital or master class. All students enrolled in applied music must be concurrently enrolled in the major music ensemble activity that corresponds to their major instrument (Strings-Orchestra, Winds/Percussion – Wind Ensemble, Voice-Choral Ensemble).

## Additional Requirements

Students must consult the Schwob School of Music Student Handbook for additional information on requirements for graduation.

## Program Learning Outcomes

- Demonstrate proficiency in instrumental performance through the reparation for and performance of a senior recital that exhibits effective artistic expression.
- Demonstrate competency in the application of knowledge of music theory through analysis and composition.
- Demonstrate competency in fundamental musical knowledge and skills through analytical listening, sight-singing conducting, and functional piano skills.
- Demonstrate an understanding of the history of western music and the ability to place music in historical/cultural/stylistic contexts through the purposeful use of evidence, insightful reasoning, and supporting details.

# Music Performance (BM) - Piano/Organ Concentration

## Program Overview

The **Bachelor of Music in Performance** degree is for students who aspire to become professional performers. Students study privately under the direction of our artist-faculty and are held to the highest performance expectations, and classroom instruction with low student-to-teacher ratios in the core areas of music theory, ear training, and music history provide the fundamental background necessary for success as a well-rounded musician.

Students perform in our large ensembles (symphony orchestra, wind ensemble, choir, jazz band) as well as have the opportunity to grow through the chamber music experience each semester. These ensembles are coached by faculty and include multiple performance opportunities in our world-class facilities and throughout Columbus and the surrounding region. Celebrated guest artists from around the world come to the Schwob School of Music to teach and perform with and for our students. Students can also elect to take courses in areas that supplement their performing skills such as music business, audio technology, and body mapping, creating well-equipped performers for the 21st century marketplace.

## Career Opportunities

The **Bachelor of Music in Performance** degree is for students who aspire to become professional performers.

- music performance
- production
- studio instruction and related areas

**Credit Hours** **11-18**

**Total Credit Hours** **123**

<sup>2</sup> MUSC 1100 Music Appreciation (section for music majors only).

<sup>3</sup> You must accumulate 9 hours of MUSA, MUSC, MUSE, and/or MUSP courses to fulfill area H.

<sup>4</sup> The fourth semester of MUSA 2331 Applied Music jury examination advises student in continuing in this major.

<sup>5</sup> If MUSC 3116 Techniques and Structures of Music Since 1945 is not available, take an additional 2 hrs of electives from MUSA, MUSC, MUSE, MUSP.

<sup>6</sup> Note that one FRENCH or GERMAN course may count in area B1. In this case, take 3 hours of MUSC or MUSE courses, or ITDS 5555U Interdisciplinary Special Topics.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

Prospective music majors must demonstrate basic aptitude in a performance medium through a **placement audition and interview**. Transfer students should call the Schwob School for additional audition requirements.

## Piano

Any Prelude and Fugue by J.S. Bach from WTC, Allegro (I movement) from sonata by J. Hadyn, W.A. Mozart, or L. van Beethoven, one virtuoso étude by F. Chopin, F. Liszt, or S. Rachmaninoff. Any work from the romantic era by F. Chopin, R. Schumann, J. Brahms, or F. Liszt.

## Organ

One Hymn written in four-part chorale style, presented with an introduction, one stanza employing standard part-playing techniques, and an (optional) second stanza, which employs a re-harmonization or descant or other appropriate treatment. One work by J. S. Bach, which was originally conceived for the organ. One work contrasting in style to the J. S. Bach work presented, from the 19th or 20th Centuries, originally conceived for the organ. Sight-reading and manual and pedal scales will be examined.

## Additional Program Requirements

In order to be accepted as a music major, each student must demonstrate aptitude in his/her major instrument or voice through a placement audition and interview with a member of the music faculty. All newly admitted music majors also must take placement examinations in music theory and piano. Music majors who take time off before completing degree requirements will be required to re-audition if they have missed a full academic year (fall and spring, or spring and fall).

*Transfer students:* Please note that placement in music courses is based on audition and testing results and not necessarily on previous college credit.

## General Requirements

All music majors are required to attend all master classes in their major instrument and must perform at least once each semester in a recital or master class. All students enrolled in applied music must be concurrently enrolled in the major music ensemble activity that corresponds to their major instrument (Strings-Orchestra, Winds/Percussion – Wind Ensemble, Voice-Choral Ensemble).

## Additional Requirements

Students must consult the Schwob School of Music Student Handbook for additional information on requirements for graduation. The handbook may be found at [https://music.columbusstate.edu/students/student\\_handbook\\_2015-16.pdf](https://music.columbusstate.edu/students/student_handbook_2015-16.pdf) (PDF) ([https://music.columbusstate.edu/students/student\\_handbook\\_2015-16.pdf](https://music.columbusstate.edu/students/student_handbook_2015-16.pdf))

## Program Learning Outcomes

- Demonstrate proficiency in piano or organ performance through the preparation for and performance of a senior recital that exhibits effective artistic expression.
- Demonstrate competency in the application of knowledge of music theory through analysis and composition.
- Demonstrate competency in fundamental musical knowledge and skills through analytical listening, sight-singing conducting, and functional piano skills.

- Demonstrate an understanding of the history of western music and the ability to place music in historical/cultural/stylistic contexts through the purposeful use of evidence, insightful reasoning, and supporting details.

## Music Performance (BM) - Vocal Concentration

### Program Overview

The **Bachelor of Music in Performance** degree is for students who aspire to become professional performers. Students study privately under the direction of our artist-faculty and are held to the highest performance expectations, and classroom instruction with low student-to-teacher ratios in the core areas of music theory, ear training, and music history provide the fundamental background necessary for success as a well-rounded musician.

Students perform in our large ensembles (symphony orchestra, wind ensemble, choir, jazz band) as well as have the opportunity to grow through the chamber music experience each semester. These ensembles are coached by faculty and include multiple performance opportunities in our world-class facilities and throughout Columbus and the surrounding region. Celebrated guest artists from around the world come to the Schwob School of Music to teach and perform with and for our students. Students can also elect to take courses in areas that supplement their performing skills such as music business, audio technology, and body mapping, creating well-equipped performers for the 21st century marketplace.

### Career Opportunities

The **Bachelor of Music in Performance** degree is for students who aspire to become professional performers.

- music performance
- production
- studio instruction and related areas

### Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

### Core Requirements

B1: Select 3 hours of following courses: 3

COMM 1110 Public Speaking

Any Foreign Language 1001, 1002, 2001, 2002

B2: Select 1 or 2 hours of the following courses: 1-2

ITDS 1779 Scholarship Across the Disciplines

LEAD 1705 Introduction to Servant Leadership

PERS 1506 Perspectives 1-hour

PERS 1507 Perspectives 2-hour

Area B Total 4-5

### Area C Humanities/Fine Arts/Ethics

Select one of the following humanities courses: 3

ENGL 2111 World Literature I

ENGL 2112 World Literature II

ITDS 1145 Comparative Arts <sup>2</sup>

ITDS 1155 The Western Intellectual Tradition

ITDS 2125 Historical Perspectives on the Philosophy of Science and Mathematics

PHIL 2010 Introduction to Philosophy

Select one of the following fine arts courses: 3

ARTH 1100 Art Appreciation

ITDS 1145 Comparative Arts <sup>2</sup>

MUSC 1100 Music Appreciation

THEA 1100 Theatre Appreciation

ARTH 2125 Introduction to the History of Art I– Prehistoric through Gothic

ARTH 2126 Introduction to the History of Art II– Renaissance through Modern

Area C Total 6

### Area D Science/Math/Technology <sup>1</sup>

D1: Select two science courses from the following list. One science course must include a lab; the other science course may or may not include the lab: 7-8

ANTH 1145 Human Origins (no lab)

ASTR 1105 Descriptive Astronomy: The Solar System  
& ASTR 1305 and Descriptive Astronomy Lab (lab optional)

ASTR 1106 Descriptive Astronomy: Stars and Galaxies  
& ASTR 1305 and Descriptive Astronomy Lab

ATSC 1112 Understanding the Weather  
& 1112L and Understanding the Weather Lab

BIOL 1215K Principles of Biology (lab included)

BIOL 1125 Contemporary Issues in Biology Non-Lab (no lab)

BIOL 1225K Contemporary Issues in Biology with Lab (lab included)

CHEM 1151 Survey of Chemistry I  
& 1151L and Survey of Chemistry I Lab

CHEM 1152 Survey of Chemistry II  
& 1152L and Survey of Chemistry II Lab

CHEM 1211 Principles of Chemistry I  
& 1211L and Principles of Chemistry I Lab

CHEM 1212 Principles of Chemistry II  
& 1212L and Principles of Chemistry II Lab

ENVS 1105 Environmental Studies  
& 1105L and Environmental Studies Laboratory (lab optional)

ENVS 1205K Sustainability and the Environment

GEOL 1110 Natural Disasters: Our Hazardous Environment (no lab)

GEOL 1121 Introductory Geoscience I: Physical Geology  
& 1121L and Introductory Geoscience I: Physical Geology Lab

GEOL 1122 Introductory Geo-sciences II: Historical Geology  
& GEOL 1322 and Introductory Geo-sciences II: Historical Geology Lab

GEOL 2225 The Fossil Record (lab included)

PHYS 1111 Introductory Physics I  
& PHYS 1311 and Introductory Physics I Lab

PHYS 1112 Introductory Physics II  
& PHYS 1312 and Introductory Physics II Lab

PHYS 1125 Physics of Color and Sound  
& PHYS 1325 and Physics of Color and Sound Lab (lab optional)

PHYS 2211 Principles of Physics I  
& PHYS 2311 and Principles of Physics I Lab

PHYS 2212 Principles of Physics II  
& PHYS 2312 and Principles of Physics II Lab

D2: Select one of the following or a science course from above: 3-4

CPSC 1105 Introduction to Computing Principles and Technology

CPSC 1301K Computer Science I

GEOG 2215 Introduction to the Geographic Information Systems

MATH 1113 Pre-Calculus

MATH 1125 Applied Calculus

MATH 1131 Calculus with Analytic Geometry I

MATH 1132 Calculus with Analytic Geometry II

MATH 1165 Computer-Assisted Problem Solving

MATH 2125 Introduction to Discrete Mathematics

PHIL 2500 Formal Logic

STAT 1401 Elementary Statistics

Area D Total 10-11

### Area E Social Sciences

HIST 2111 U. S. History to 1865 3

or HIST 2112 U. S. History since 1865

POLS 1101 American Government 3

Area E Total 6

### Wellness Requirement

Select one of the following: 3

KINS 1106 Lifetime Wellness

or PHED 120 Concepts of Fitness

Select one PEDS course (p. 615)

OR

MUSC 1206 Body Mapping

Wellness Total 3

**Total Credit Hours 39**

<sup>1</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1-2 hours;
- Area D1, 7-8 hours;
- Area D2, 3-4 hours.

<sup>2</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

Major Requirements

| Code                                            | Title                                       | Credit Hours |

- <sup>2</sup> MUSC 1100 Music Appreciation (section for music majors only) or ITDS 1145 Comparative Arts.
- <sup>3</sup> Choose 3 credits from core requirements this semester - you might not be able to fit the exact ones listed above.
- <sup>4</sup> You may substitute PHED 1205 Concepts of Fitness or KINS 1106 Lifetime Wellness and any one PEDS course for the MUSC 1206 Body Mapping course.

First-year spring note: MUSA 2231 second semester jury examination advises student in continuing in this major.

Second-year spring note: MUSA 2232 fourth semester jury examination determines whether the student may continue in the major or identify other options.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

Prospective music majors must demonstrate basic aptitude in a performance medium through a **placement audition and interview**. Transfer students should call the Schwob School for additional audition requirements.

## Voice

Two contrasting art songs from memory sung in the original language or in English translation with piano accompaniment. Opera arias after the Classical period and musical theatre selections are not acceptable. You may bring a pianist, or an accompanist will be provided for you at a fee. Be prepared to sight read single line melodies (major and minor tonalities), chant/count rhythmic patterns, and sing aural memory

passages. Transfer students are required to include a repertoire list of music studied at the college level.

## Additional Program Requirements

In order to be accepted as a music major, each student must demonstrate aptitude in his/her major instrument or voice through a placement audition and interview with a member of the music faculty. All newly admitted music majors also must take placement examinations in music theory and piano. Music majors who take time off before completing degree requirements will be required to re-audition if they have missed a full academic year (fall and spring, or spring and fall).

*Transfer students:* Please note that placement in music courses is based on audition and testing results and not necessarily on previous college credit.

## General Requirements

All music majors are required to attend all master classes in their major instrument and must perform at least once each semester in a recital or master class. All students enrolled in applied music must be concurrently enrolled in the major music ensemble activity that corresponds to their major instrument (Strings-Orchestra, Winds/Percussion – Wind Ensemble, Voice-Choral Ensemble).

## Additional Requirements

Students must consult the Schwob School of Music Student Handbook for additional information on requirements for graduation. The handbook may be found at [https://music.columbusstate.edu/students/student\\_handbook\\_2015-16.pdf](https://music.columbusstate.edu/students/student_handbook_2015-16.pdf) (PDF). ([https://music.columbusstate.edu/students/student\\_handbook\\_2015-16.pdf](https://music.columbusstate.edu/students/student_handbook_2015-16.pdf))

## Program Learning Outcomes

- Demonstrate proficiency in vocal performance through the preparation for and performance of a senior recital that exhibits effective artistic expression.
- Demonstrate competency in the application of knowledge of music theory through analysis and composition.
- Demonstrate competency in fundamental musical knowledge and skills through analytical listening, sight-singing conducting, and functional piano skills.
- Demonstrate an understanding of the history of western music and the ability to place music in historical/cultural/stylistic contexts through the purposeful use of evidence, insightful reasoning, and supporting details.

## Music Performance (MM)

### Program Overview

The **Master of Music in Performance** degree is for students with an undergraduate degree in music who wish to pursue advanced studies in either instrumental or vocal performance or conducting. This degree combines private study with our artist faculty with graduate-level courses in music history, theory, and research. Students perform in large ensembles, chamber music, and present at least one graduate recital as well as a graduate research project or lecture recital, preparing them as performers and scholars. This is a two-year program.

## Career Opportunities

- music performance
- production
- studio instruction at the advanced/collegiate level

## Program of Study

## Admission Requirements

For more information, or if no information is listed, please contact the individual teacher.

## Voice

- Aria from opera or oratorio
- German Lied
- French mélodie
- 20th-21st Century English art song
- Baroque piece in Italian or English

Please note that all four major languages (English, Italian, German and French) must be represented. Therefore, if the aria is in a language other than Italian, the Baroque selection must be Italian rather than English.

## Flute

- Mozart: First movement from either the G or D Major Concerto
- Bach: Two movements from a sonata of your choice
- A 20th century work for solo flute or flute and piano
- Three standard orchestral excerpts

## Oboe

- Mozart C Major Concerto (first movement with cadenza)
- Poulenc Sonata (all three movements)
- One solo work of the applicant's choice.
- Orchestral excerpts:
- Beethoven--Symphony No. 3, Mvt. 2
- Brahms--Violin Concerto, Mvt. 2
- Rossini--*La Scala*, slow and fast solos

## Clarinet

- First movement of either of the Brahms Op. 120 Sonatas
- One movement of the Poulenc Sonata
- One unaccompanied work of the applicant's choice
- Three standard orchestral excerpts

## Saxophone

- *Concertino da Camera* by Jacques Ibert
- A baroque transcription such as J.S. Bach BWV 1035 (Sonata No. 6, trans. Mule)
- A sonata such as the Muczynski Sonata or the *Fuzzy Bird Sonata* by Yoshimatsu
- An unaccompanied work such as *Caprice in Forme de Valse* by Bonneau or *Maï* by Noda or any medium-up tempo blues such as *Tenor Madness* or *Now's the Time* (performance of the blues tune must be entirely from memory)

## Bassoon

- Mozart Concerto, any two movements
- An additional solo work of your choice
- Orchestra excerpts: Tchaikovsky IV, second movement; Mozart, *Marriage of Figaro* overture

## Brass

The audition for the Master's Degree in Performance and the Graduate Assistantship requires approximately 20 to 25 minutes of playing, to include solo literature of the student's choice, plus 3-5 standard orchestral excerpts. Piano accompaniment is encouraged, but not required, and will not be provided.

Trumpet players should perform on different keyed trumpets in the audition.

Tuba players should expect to showcase a balance between bass-tuba and contrabass-tuba solos and excerpts.

## Percussion

- One concert snare drum solo: *Delécluse: Douze Etudes* (any)
- One advanced four-mallet marimba work
- One solo timpani work: Elliott Carter, *Delécluse* etude or concerto

## Violin

- Two contrasting movements from an unaccompanied Bach sonata or partita, or the entire Chaconne
- Two Paganini caprices, or any Ysaye sonata for solo violin
- A complete sonata for violin and piano from the 19th or 20th century
- A complete concerto from the Romantic period or 20th century<sup>1</sup>

<sup>1</sup> Works 1, 2, and 4 must be memorized.

## Viola

A varied selection, approximately 30 minutes in length, representing three contrasting styles of music. Single movements may be played. A selection from the standard concerto repertoire and a movement of Bach is highly recommended (from 6 Sonatas & Partitas for Violin/Viola solo or from 6 Suites for solo cello/viola).

## Cello

A varied selection, approximately 30 minutes in length, representing three contrasting styles of music. Single movements may be played. Suggested Repertoire: Any Bach or Reger Suite, several movements; any movement of a concerto, such as: Haydn, D major; Schumann; Dvorak; Barber; Bloch, *Schelomo*; Tchaikovsky, *Rococo Variations*; or equivalent. Virtuoso pieces such as: Dvorak, *Rondo op. 94*; Bruch, *kol Nidre*; Hindemith, *Capriccio*, etc.

## Double Bass

- An advanced etude, such as Bille, Simandl, Rossi, Storch, etc.
- A movement from Bach's unaccompanied cello suite
- Two contrasting movements from a major concerto, such as Dragonetti, Bottesini, Koussevitzky, etc.

## Guitar

- Any 3 movements of a Suite, Sonata, or Partita of J.S. Bach (Prelude, Fugue and Allegro, BWV 998 is also acceptable)
- Any significant 19th century work (e.g. Giuliani, Sor, Coste, Aguado, Regondi, etc.)
- A 20th century work of Turina, Torroba, Ponce, Tedesco, Rodrigo, Brouwer, or comparable
- One contrasting work of the applicant's choice

## Harp

One movement of a concerto from the following list:

1. Debussy *Dances Sacree and Profane*
2. Ravel *Introduction and Allegro*
3. Mozart *Flute and Harp Concerto*
4. Handel *Concerto in B Flat*
5. Dittersdorf *Concerto for Harp*

One Tchaikovsky orchestral cadenza from the following list:

- Nutcracker
- Swan Lake
- Sleeping Beauty

## Piano

- Any Prelude and Fugue from WTC, or a Toccata, Partita, or English Suite or French Suite or the Chromatic Fantasy and Fugue
- A complete Classical Sonata by Haydn, Mozart, Beethoven, or Schubert
- A significant composition from the Romantic era
- A composition from the 20th century

The program must be performed from memory. A short interview will be conducted in which the applicant should demonstrate a knowledge of music history and the history of piano performance.

## Organ

- One of the following works by J. S. Bach:
  - Any of the complete Trio Sonatas
  - One of the large Preludes/Toccatas/Fantasias and Fugues\* or the Passacaglia in C minor<sup>1</sup>
- A major work from the Romantic or Impressionist tradition
- A major work written since 2000

<sup>1</sup> This repertoire must be approved by the University Organist in advance of the audition

Optional addition: an improvisation on a theme given at the time of the audition (The theme will be given 30 minutes before the audition is scheduled to begin, so that the candidate can complete a study of the material at a piano.)

## Additional Program Requirements

### Proficiency Requirements

Exams in music history, music theory, and ear training will be given just before the start of fall semester each year. Students who do not successfully pass all exams will have the option to re-take the exams once more before the following spring semester before completing remedial coursework where required by the music faculty.

### Additional Requirements

Students must consult the Schwob School of Music Handbook for M.M. Performance majors for additional information on requirements for graduation.

The handbook may be found at: <http://music.columbusstate.edu/students/MM%20Performance%20handbook%20rev%205-2013.pdf> (PDF) ([http://music.columbusstate.edu/students/MM%20Performance%20handbook%20rev%205-2013.pdf%20\(PDF\)/](http://music.columbusstate.edu/students/MM%20Performance%20handbook%20rev%205-2013.pdf%20(PDF)/))

## Program Learning Outcomes

- Ability to work independently and make effective artistic and intellectual judgments and professional decisions in the area of specialization.
- Demonstration of professional competence in the area of specialization.
- Production of a final project demonstrating significant preparation in music performance and related disciplines.

## Turner College of Business

The mission of the D. Abbott Turner College of Business: *We create better futures for our diverse student body by producing a career-ready workforce. Our programs are in business and technology – and where the two meet.*

The Turner College is located in the Synovus Center for Commerce and Technology on the main campus, and houses the Departments of Accounting and Finance; Management and Marketing; and, the TSYS School of Computer Science.

The TSYS School has several nationally recognized programs and has been designated by the U.S. National Security Agency as a Center of Academic Excellence in Cyber Defense Education.

The College's business programs are distinguished by their accreditation by AACSB International – the Association to Advance Collegiate Schools of Business. This is a distinction shared by fewer than 5% of the business schools in the world – a distinction that validates the quality of both our faculty and programs, and signals that we have reached a level of excellence achieved by only the most select schools.

Both our business and computer science programs have been nationally recognized as Best Values for their combination of excellence and affordability. Our Master of Science in Organizational Leadership with tracks in Human Resource Management, Servant Leadership and Leader Development, has reinforced our reputation as a “military friendly” institution. The growing recognition of our business and computer science programs adds great value to the degrees of our graduates.

## Departments

- Department of Accounting and Finance (p. 139)
- Department of Management & Marketing (p. 147)
- TSYS School of Computer Science (p. 185)

## Department of Accounting and Finance

The Department of Accounting and Finance includes the faculty in Accounting, Economics, and Finance. Students may earn the BBA with majors in Accounting and Finance. Economics is offered as a minor for both business and non-business students. The department also supports the College's MBA and MSOL (Master of Science in Organizational Leadership) degrees. All are accredited by AACSB.

### MAJORS

- Accounting (BBA)
- Finance (BBA)

### BBA Learning Outcomes

- Demonstrate proficiency in problem-solving and decision-making in a business context.
- Demonstrate knowledge of key business disciplines and concepts.
- Recognize and analyze ethical issues in a business context.
- Demonstrate knowledge of global business concepts and cultural diversity in a business context.
- Communicate effectively in a business context.

- Demonstrate proficiency in using information technology in a business context.

The Department of Accounting and Finance offers the following degrees:

- Accounting (BBA) (p. 140)
- Finance (BBA) (p. 143)

## Accounting (BBA)

### Program Overview

The accounting program prepares students for a career in accounting with the foundation coursework required to pursue post-graduation professional certificates or licenses such as the Certified Management Accountant (CMA) or the Certified Public Accountant (CPA). The program also prepares students to pursue graduate coursework in accounting. The accounting major includes 24 upper division required hours of accounting. Students are offered a variety of required and elective courses designed to meet the needs of today's working professional in accounting and with other core business courses are prepared to be a confident and prepared professional. Courses are offered on a rotating basis during the day, at night or online. In addition, students may join an affiliated club and network with local and regional professionals.

### Career Opportunities

The BBA in Accounting prepares you for an accounting career in a private, public or non-profit organization. Graduates may find positions in financial accounting, auditing, management accounting, forensic accounting, governmental accounting, and taxation.

<sup>1</sup> MATH 1111 College Algebra is recommended in Area A. Business majors must complete MATH 1111 College Algebra with a C or better grade for admission to BUSA 3115 Business Analytics I and Area G courses.

<sup>2</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1-2 hours;
- Area D1, 7-8 hours;
- Area D2, 3-4 hours.

<sup>3</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

<sup>4</sup> MATH 1125 Applied Calculus is recommended for students considering graduate studies. CPSC 1301K Computer Science I is recommended for students enrolled in MISM programs.

## Major Requirements

<sup>1</sup> B2: Select 1 or 2 hours of the following courses:  
ITDS 1779 Scholarship Across the Disciplines (2 cr)  
LEAD 1705 Introduction to Servant Leadership (2 cr)  
PERS 1506 Perspectives (1 cr; may be repeated with a different topic)  
PERS 1507 Perspectives (2 cr)

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

An overall 2.0 GPA is required for graduation.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

Students must earn a C or better in Area F, have a C average in Area G, and earn a C or better in accounting courses.

## Program Learning Outcomes

- 1. Apply Generally Accepted Accounting Principles to business transactions and prepare external financial statements.
- 2. Identify and analyze financial and non-financial information to make effective managerial decisions.
- 3. Demonstrate an understanding of fundamental individual income tax laws and prepare an individual income tax return.
- 4. Demonstrate competency using technology and controls in the accounting processing cycle.
- 5. Demonstrate knowledge of auditing concepts and application of the attest function.

## Finance (BBA)

### Program Overview

The finance program provides students with the background necessary for a career in Banking, Investments, Financial Planning, or Corporate Finance. The program also prepares students for masters programs in finance or business administration and provides students with the foundational knowledge necessary to pursue professional designations such as Certified Financial Planner (CFP) or Chartered Financial Analyst (CFA). In addition, the finance faculty work with the math department to provide a minor in actuarial science.

The program offers a variety of courses both on campus and online. These courses cover a wide array of topics, ranging from corporate finance and investments, to banking, insurance, and real estate, to international finance, financial technology, and financial data analytics. Most on campus classes are taught in the state of the art *Center for Financial Analysis and Financial Markets Research*, and many

courses include experiential learning in securities trading, financial modeling, and valuation through simulations or hands-on training.

Outside of the classroom, opportunities for extracurricular activities abound. Many students are active in the CSU chapter of the Financial Management Association, a student organization that brings in speakers from the financial services industry and provides networking opportunities for students. Other students participate in student competitions like the CFA Institute's Global Equity Research Challenge. In addition, finance majors have traveled to finance conferences in Dayton and New York, and visited financial institutions, including the Federal Reserve Bank of Atlanta, the International Securities Exchange, and the New York Stock Exchange.

## Career Opportunities

Career opportunities for finance majors are available in a variety of fields, including banking, corporate finance, risk management and insurance, real estate, and financial planning. While in school, many students also participate in internships or co-ops with some of the region's largest employers.

<sup>1</sup> MATH 1111 College Algebra is recommended in Area A. Business majors must complete MATH 1111 College Algebra with a C or better grade for admission to BUSA 3115 Business Analytics I and Area G courses.

<sup>2</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1-2 hours;
- Area D1, 7-8 hours;
- Area D2, 3-4 hours.

<sup>3</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

<sup>4</sup> MATH 1125 Applied Calculus is recommended for students considering graduate studies.  
CPSC 1301K Computer Science I is recommended for students enrolled in MISM programs.

## Major Requirements

 PERS 1506 Perspectives (1 cr; may be repeated with a different topic)  
 PERS 1507 Perspectives (2 cr)

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

An overall 2.0 GPA is required for graduation.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

All students must earn C or better in Area F, C average in Area G, C or better in Finance courses.

## Program Learning Outcomes

1. Understand and apply the time value of money concepts to basic asset valuations
2. Determine and analyze the appropriate measures of risk and return on individual assets and portfolios
3. Demonstrate a working knowledge of financial instruments, institutions and markets
4. Apply critical-thinking and decision-making analyses to capital budgeting decisions.

## Department of Management & Marketing

The Department of Management and Marketing offers five undergraduate majors and two graduate programs: the MBA and MSOL. All programs are accredited by AACSB.

### Undergraduate Majors

1. Cybersecurity Management (BBA)
2. General Business Options:

- General Business (BBA)
- General Business (BBA) - Online
- General Business (BBA) - International Track

### 3. Management Options:

- Management (BBA)
- Management (BBA) - Entrepreneurship Concentration
- Management (BBA) - Human Resource Concentration

### 4. Management Information Systems (BBA) - (Also available Online)

### 5. Marketing (BBA)

## Graduate Degrees

### 1. MBA Options:

- Business Administration (MBA)
- Business Administration (Online MBA) - Georgia WebMBA Consortium Program

### 2. Organizational Leadership (MSOL)

- Human Resources Management Track
- Leader Development Track
- Servant Leadership Track

## BBA Learning Outcomes

1. Demonstrate proficiency in problem-solving and decision-making in a business context.

- General Business (BBA) (p. 153)
- General Business (BBA) - International Business Track (p. 157)
- Management (BBA) (p. 161)
- Management (BBA) - Entrepreneurship Concentration (p. 164)
- Management (BBA) - Human Resource Concentration (p. 168)
- Management Information Systems (BBA) (p. 171)
- Management Information Systems - Online (BBA) (p. 175)
- Marketing (BBA) (p. 179)
- Organizational Leadership (MSOL) - Human Resources Management Track (p. 183)
- Organizational Leadership (MSOL) - Leader Development Track (p. 184)
- Organizational Leadership (MSOL) - Servant Leadership Track (p. 184)

# Business Administration (MBA)

## Program Overview

The Turner College of Business offers an accredited on-campus Master of Business Administration (MBA) degree that prepares individuals for managerial positions in business, industry, or government. With our smaller average class size, dedicated faculty and staff, and reasonable tuition, we may be the best buy in higher education in the region. Emphasis is placed on strategic planning, business intelligence and analytics, organizational behavior, accounting, operations, marketing, finance, information systems, and their impacts on managerial decision-making. Teamwork, the international context of business, and the ethical dimensions of managerial decisions are stressed throughout the program. Our MBA program allows students to gain awareness of international, multicultural, ethical, and diversity issues within today's global business environment.

The MBA is a 30-hour program requiring a student to complete 10 graduate courses (eight required and two elective courses). Full-time students can complete the program in one year by taking 12 hours during fall and spring semesters and six hours during the summer term. All MBA classes are taught in the evening. The program can also be adapted for students who wish to attend part-time. Students can enter the MBA program in spring, summer or fall semesters and have a maximum of six years from the first term of enrollment to complete all MBA degree requirements.

## Career Opportunities

Careers for MBA graduates cover a very wide and diverse field of industries and opportunities. Graduates will find challenging and fulfilling positions in public and private sectors including: government agencies, large corporations, non-profit organizations, small businesses, academia, marketing and many other fields. Many MBA graduates find ease in moving up to higher management positions within their current jobs and have ample opportunity to continue to advance their careers.

## Program of Study

### Undergraduate Prerequisites

| Code      | Title                                | Credit Hours |
|-----------|--------------------------------------|--------------|
| ACCT 2101 | Principles of Accounting I           | 3            |
| ACCT 2102 | Principles of Accounting II          | 3            |
| BUSA 3115 | Business Analytics I (or Statistics) | 3            |
| FINC 3105 | Principles of Finance                | 3            |

Student must fulfill by test or course with a C or better prior to registration for the following:

|          |                                     |
|----------|-------------------------------------|
| MBA 6115 | Business Intelligence and Analytics |
| MBA 6145 | Managerial Economics                |
| MBA 6157 | Managerial Finance                  |
| MBA 6165 | Operations Management               |

## MBA Program

| Code     | Title                               | Credit Hours |
|----------|-------------------------------------|--------------|
| MBA 6000 | MBA Professional Exit Requirement   | 0            |
| MBA 6115 | Business Intelligence and Analytics | 3            |

|                                                                           |                                            |           |
|---------------------------------------------------------------------------|--------------------------------------------|-----------|
| MBA/ACCT 6117                                                             | Managerial Accounting                      | 3         |
| MBA 6126                                                                  | Global Strategic Management                | 3         |
| MBA 6138                                                                  | Management Information Systems             | 3         |
| MBA 6145                                                                  | Managerial Economics                       | 3         |
| MBA 6157                                                                  | Managerial Finance                         | 3         |
| MBA 6165                                                                  | Operations Management                      | 3         |
| MBA 6176                                                                  | Marketing Management                       | 3         |
| MBA 6795                                                                  | Seminar in Organizational Behavior         | 3         |
| or MSOL 6155                                                              | Strategic Leadership and Change Management |           |
| Select 3 hours of MBA, MSHR, MSOL, MSSSL, or approved graduate electives. |                                            | 3         |
| <b>Total Credit Hours</b>                                                 |                                            | <b>30</b> |

## Admission Requirements

Beyond the general graduate program requirements (<https://catalog.columbusstate.edu/admissions/graduate-admission/>), the MBA degree program has the following additional requirements:

- A current resume
- Applicants must have a 2.75 GPA or higher for regular admission. Applicants with a GPA between 2.5 and 2.74 may be admitted provisionally.\*
- GMAT/GRE scores are not required however, applicants may submit official scores to improve their admission status. Only scores within the past five years will be accepted.
  - GMAT school code: R64-XW-20
  - GRE school code: 5123

## Undergraduate Prerequisites

| Code         | Title                                | Credit Hours |
|--------------|--------------------------------------|--------------|
| ACCT 2101    | Principles of Accounting I           | 3            |
| ACCT 2102    | Principles of Accounting II          | 3            |
| BUSA 3115    | Business Analytics I (or Statistics) | 3            |
| or MISM 3116 | Business Analytics II                |              |
| FINC 3105    | Principles of Finance                | 3            |

Student must fulfill by test or course with a C or better prior to registration for the following:

|          |                       |
|----------|-----------------------|
| MBA 6117 | Managerial Accounting |
| MBA 6145 | Managerial Economics  |
| MBA 6157 | Managerial Finance    |
| MBA 6165 | Operations Management |

Prerequisite requirements may be satisfied by passing the above-listed courses with a grade of a B or higher or by completing the MBA Foundation Modules with a score of 80% or higher. Please contact the Turner College of Business directly for information about the MBA Foundation Modules.

## Additional Program Requirements

This degree is subjected to the following requirements and conditions:

- Students with previous graduate work may request up to six hours of transfer credit. Only credit from an AACSB accredited institution will be approved.
- All students must complete the core curriculum for the degree.
- A minimum B average in core courses, with no more than two Cs, is required for degree completion.
- Students have a maximum of seven years from the first term of enrollment to complete all MBA degree requirements.
- Students admitted to the program on provisional status must maintain a 3.0 GPA average in the first nine hours to remain enrolled in the program.
- Full-time students: To complete the degree requirements in one year requires a summer or fall program start date.
- Part-time students: The program may be started in the spring, summer, or fall semester

\* International students cannot be admitted provisionally and must meet the requirements for regular admission.

## Program Learning Outcomes

- Data-driven Decision Making:\ Analyze and evaluate alternative courses of action using appropriate qualitative and quantitative methods and tools.\
- Ethical Perspective:\ Recognize and evaluate the impact on business decisions of the ethical and social dimensions of business activities.
- Technology:\ Assess and recommend integrated technology solutions to support and advance business strategy and operations.
- Strategic Integration/Global: \ Integrate multiple business functions across a broad range of situations to solve organizational problems and make strategic decisions in a global environment.

## Business Administration (online) (MBA) - Georgia WebMBA Consortium Program®

### Program Overview

The Turner College of Business offers an online Master of Business Administration (MBA) degree through the Georgia WebMBA®, a consortium of AACSB-accredited schools. The online program delivers an internationally accredited, accelerated MBA degree with the same quality and service offered on campus.

The online MBA is a general-purpose management degree that prepares individuals for leadership positions in business, industry, or government. Emphasis is placed upon global business, organizational behavior, accounting, operations, marketing, finance, management information systems, and their impact on managerial decision making. The program focuses on the practical application of these tools, techniques, and concepts.

Teamwork, the international context of business, and the ethical dimensions of managerial decisions are stressed throughout the program. The WebMBA focuses on applying knowledge and skills in real business settings through team-based learning. Students working full-

time find that team and cohort-based courses help them learn from each other while providing a support network.

The program opens three cohorts in fall and spring with students taking two courses each semester for five consecutive semesters. The cost of the program is well below the national average. There are no campus visits required except for orientation offered in Atlanta, GA at the beginning of spring and fall semesters.

## Career Opportunities

Careers for MBA graduates cover a very wide and diverse field of industries and opportunities. Graduates will find challenging and fulfilling positions in public and private sectors including: government agencies, large corporations, non-profit organizations, small businesses, academia, marketing and many other fields. Many MBA graduates find ease in moving up to higher management positions within their current jobs and have ample opportunity to continue to advance their careers.

## Program of Study Undergraduate Prerequisites

| Code      | Title                                | Credit Hours |
|-----------|--------------------------------------|--------------|
| ACCT 2101 | Principles of Accounting I           | 3            |

- 1
- MATH 1111 College Algebra is recommended in Area A. Business majors must complete MATH 1111 College Algebra with a C or better grade for admission to BUSA 3115 Business Analytics I and Area G courses.
- 2
- Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.
  - Area B1, 3 hours;
  - Area B2, 1-2 hours;
  - Area D1, 7-8 hours;
  - Area D2, 3-4 hours.
- 3
- ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.
- 4
- MATH 1125 Applied Calculus is recommended for students considering graduate studies.  
CPSC 1301K Computer Science I is recommended for students enrolled in MISM programs.

| <b>Total Credit Hours</b> | <b>123</b> |
|---------------------------|------------|

An overall 2.0 GPA is required for graduation.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

All students must earn C or better in Area F, C average in Area G, C or better in Area H, and C average in Area I business electives.

## Program Learning Outcomes

- 1. Demonstrate knowledge of cybersecurity concepts from an organizational perspective.
- 2. Apply project and risk management principles and techniques for cybersecurity systems.
- 3. Identify and apply appropriate cybersecurity risk management system techniques and technologies to secure business systems.

## General Business (BBA)

### Program Overview

The general business program offers a solid background in business fundamentals and can be tailored to accommodate a variety of career aspirations. The program also serves students who have already begun their careers and who wish to further their advancement potential. This major allows students a greater degree of flexibility in course selection, allowing students to select courses that most directly relate to their businesses or careers.

### Career Opportunities

General business majors have a broad degree of career choices. The ones most suited to their degree depend on the specific course selection. General business prepares students for careers ranging from entrepreneurial ventures, small business or family business proprietorship, to corporate careers in many of the areas listed for the other business majors.

### Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

## Core Requirements

| Code                                                                              | Title                                                                                | Credit Hours |

<sup>1</sup> MATH 1111 College Algebra is recommended in Area A. Business majors must complete MATH 1111 College Algebra with a C or better grade for admission to BUSA 3115 Business Analytics I and Area G courses.

<sup>2</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1-2 hours;
- Area D1, 7-8 hours;
- Area D2, 3-4 hours.

<sup>3</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

<sup>4</sup> MATH 1125 Applied Calculus is recommended for students considering graduate studies.  
CPSC 1301K Computer Science I is recommended for students enrolled in MISM programs.

## Major Requirements

| Code                                                | Title | Credit Hours |

**Total Credit Hours** **123**

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

An overall 2.0 GPA is required for graduation.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

All students must earn C or better in Area F, C average in Area G, C or better in Area H, and C average in Area I business electives.

## Program Learning Outcomes

- 1. Demonstrate knowledge of HR planning, recruiting, selection, training, development, compensation, benefits, performance management feedback, and disciplinary systems
- 2. Demonstrate the ability to apply basic psychological theories of decision-making based on value priorities and perceptions
- 3. Explain the international dimensions of business functions, including marketing, finance, management operations, and entrepreneurship.
- 4. Apply critical thinking skills to evaluate different options for starting, operating and growing a small business.

## General Business (BBA) - International Business Track

### Program Overview

The BBA in General Business - International Business (IB) track provides students with the knowledge, skills, and experience necessary for a successful career in the global business environment. Students in international business study the business practices of other nations and learn about the international aspects of finance, management, marketing, cultural and legal issues, and logistics. The IB program is unique in that it combines preparation in business administration with foreign language training, area studies, and a meaningful overseas work or study experience.

### Career Opportunities

International Business graduates can pursue opportunities for employment by multinational corporations, businesses involved in

foreign trade, government/public institutions, and international nonprofit organizations. Examples of job positions include:

- Foreign Trade Consultant/Specialist
- Global Sourcing Specialist
- Human Resources Specialist
- Import/Export Administrator/Specialist
- International Account Representative
- International Business Development Manager
- International Financial Analyst
- International Marketing Specialist
- International Product/Brand Manager
- International Purchasing Agent

<sup>1</sup> MATH 1111 College Algebra is recommended in Area A. Business majors must complete MATH 1111 College Algebra with a C or better grade for admission to BUSA 3115 Business Analytics I and Area G courses.

<sup>2</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1-2 hours;
- Area D1, 7-8 hours;
- Area D2, 3-4 hours.

<sup>3</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

<sup>4</sup> MATH 1125 Applied Calculus is recommended for students considering graduate studies.  
CPSC 1301K Computer Science I is recommended for students enrolled in MISM programs.

## Major Requirements

|---------------------------|------------|

<sup>1</sup> Business Elective Options for IB concentration:

- BUSA 3555 Selected Topics in Business
- 2001 level or higher Foreign Language course
- any 3000 or 4000 level business course (ACCT/BUSA/ECON/FINC/MGMT/MISM/MKTG)

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

All students must earn C or better in Area F, C average in Area G, C or better in Area H, and a C average in Area I business electives.

## Program Learning Outcomes

- 1. Demonstrate knowledge of cultural risk in international business.
- 2. Identify elements related to understanding the global forces shaping our world in historical socio-economic and political contexts.
- 3. Explain the international dimensions of business functions, including marketing, finance, management, operations, and entrepreneurship.
- 4. Identify the strategies of international business and foreign market opportunity assessment.

- 5. Demonstrate the ability to apply basic psychological theories of decision-making based on value priorities and perceptions.

## Management (BBA)

### Program Overview

The B.B.A. in Management major consists of three distinct concentrations. Each concentration prepares students for successful careers in business; however the focus is different. The general **Management** concentration prepares students for careers in diverse management areas, ranging from retail management, industrial management, service management, and numerous other managerial areas.

Good managers find ways to make their organizations successful. They do this by building competitive advantage in the forms of cost competitiveness, quality, speed, and innovation. Today's organizations in both the private and public sectors need managers who can function effectively in uncertain and changing environments while applying known fundamentals of business practice.

### Career Opportunities

Account Executive, Benefits Manager, Budget Officer, Compensation Manager, Consultant, Credit and Collections Manager, Government Services Administrator, Hospital Administrator, Human Resource Manager, Industrial Relations Director, Information Systems Manager, Management Analyst, Payroll Manager, Recruiter, Retail Manager, Selection Expert, Services Manager, Training and Development Manager

### Program of Study

- <sup>1</sup> MATH 1111 College Algebra is recommended in Area A. Business majors must complete MATH 1111 College Algebra with a C or better grade for admission to BUSA 3115 Business Analytics I and Area G courses.
- <sup>2</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.
- Area B1, 3 hours;
  - Area B2, 1-2 hours;
  - Area D1, 7-8 hours;
  - Area D2, 3-4 hours.
- <sup>3</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.
- <sup>4</sup> MATH 1125 Applied Calculus is recommended for students considering graduate studies.  
CPSC 1301K Computer Science I is recommended for students enrolled in MISM programs.

## Major Requirements

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

An overall 2.0 GPA is required for graduation.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

All students must earn C or better in Area F, C average in Area G, C or better in Area H, and C average in Area I business electives.

## Program Learning Outcomes

1. Identify various functions of managers in organizations.
2. Demonstrate knowledge of behavioral and human resource management issues in organizations.
3. evaluate leadership issues in management.
4. Demonstrate knowledge of global management issues.

# Management (BBA) - Entrepreneurship Concentration

## Program Overview

The B.B.A. in Management major consists of three distinct concentrations. Each concentration prepares students for successful careers in business; however the focus is different. The **Small Business and Entrepreneurship** concentration prepares students to start, operate, and/or build their small business to be competitive in a global environment. The program includes hands-on experiences including student learning projects with a small company and writing a business plan. While students completing the degree might choose to start a new business, the knowledge, skills, and abilities that are learned in the program will also prepare students to be valued members of a large company.

## Career Opportunities

The Entrepreneurship concentration prepares students for careers ranging from entrepreneurial ventures, small business or family business proprietorship, to corporate careers in many of the areas listed for the other business majors.

## Program of Study

- 1

MATH 1111 College Algebra is recommended in Area A. Business majors must complete MATH 1111 College Algebra with a C or better grade for admission to BUSA 3115 Business Analytics I and Area G courses.
- 2

Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

  - Area B1, 3 hours;
  - Area B2, 1-2 hours;
  - Area D1, 7-8 hours;
  - Area D2, 3-4 hours.
- 3

ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.
- 4

MATH 1125 Applied Calculus is recommended for students considering graduate studies.  
CPSC 1301K Computer Science I is recommended for students enrolled in MISM programs.

| AREA I    | General Elective                                            | 3 |

**Credit Hours 15**

**Total Credit Hours 123**

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

An overall GPA of 2.0 is required to meet CSU graduation requirement

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

All students must earn C or better in Area F, C average in Area G, C or better in Area H, and C average in Area I business electives.

## Program Learning Outcomes

1. Identify various functions of managers in organizations.
2. Demonstrate knowledge of behavioral and human resource management issues in organizations.
3. Evaluate options for starting, operating, and growing a small business.

- 4. Students will demonstrate knowledge of essential elements of a business plan.

# Management (BBA) - Human Resource Concentration

## Program Overview

The B.B.A. in Management major consists of three distinct concentrations. Each concentration prepares students for successful careers in business; however the focus is different. The **Human Resource Management (HRM) concentration** prepares students specifically for careers in the Human Resource department of an organization. Jointly developed with the Society for Human Resource management (SHRM) and recognized as a SHRM-aligned program, our HRM degree prepares students for the challenges of working in human resources in the 21st century.

## Career Opportunities

Account Executive, Benefits Manager, Compensation Manager, Consultant, Hospital Administrator, Human Resource Manager, Payroll Manager, Recruiter, Selection Expert, Services Manager, Training and Development Manager

## Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

## Core Requirements

| Code                                              | Title                                       | Credit Hours |
|---------------------------------------------------|---------------------------------------------|--------------|
| <b>Area A Essential Skills</b>                    |                                             |              |
| ENGL 1101                                         | English Composition I (minimum grade of C)  | 3            |
| ENGL 1102                                         | English Composition II (minimum grade of C) | 3            |
| Select one of the following:                      |                                             | 3            |
| MATH 1001                                         | Quantitative Skills and Reasoning           |              |

<sup>1</sup> MATH 1111 College Algebra is recommended in Area A. Business majors must complete MATH 1111 College Algebra with a C or better grade for admission to BUSA 3115 Business Analytics I and Area G courses.

<sup>2</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1-2 hours;
- Area D1, 7-8 hours;
- Area D2, 3-4 hours.

<sup>3</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

<sup>4</sup> MATH 1125 Applied Calculus is recommended for students considering graduate studies.  
CPSC 1301K Computer Science I is recommended for students enrolled in MISM programs.

| <b>Total Credit Hours</b> |                                                               | <b>123</b> |

<sup>1</sup> Students must complete a graduation check before registering in BUSA 4185 Strategic Management.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

An overall 2.0 GPA is required for graduation.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

All students must earn C or better in Area F, C average in Area G, C or better in Area H, and C average in Area I business electives.

## Program Learning Outcomes

- 1. Identify various functions of managers in organizations.
- 2. Demonstrate knowledge of behavioral and human resource management issues in organizations.
- 3. Demonstrate knowledge of HR planning, recruiting, selection, training, development, compensation, benefits, performance management, and employee disciplinary systems.
- 4. Apply HR laws to decisions involving the organization's human resources.

# Management Information Systems (BBA)

## Program Overview

The management information systems (MIS) major prepares students for careers involving leading-edge enterprise technologies and the analysis, design, and management of computer-based information systems.

MIS majors combine strong technical skills with an understanding of organizations and business. Professionals who understand how to strategically and effectively use information systems in organizations are in high demand in every industry - for profit, non-profit, government, and academia.

Graduates in this field enjoy excellent placement at some of the highest starting salaries of any business major. Department of Labor projections indicate this trend will continue into the next century, as organizations increasingly rely on knowledge workers and strategic information systems.

Management Information Systems was ranked #8 among the most valuable college majors in terms of salary and career prospects by Forbes Magazine, and #2 by Kiplinger Magazine in their 2015-2016 list of Best College Majors for your Career.

### *What's the difference between a Computer Science and MIS degree?*

Computer Science (CS) programs focus on the theoretical side of computers, data structures, networks and coding. CS programs are typically offered in science and engineering colleges at universities whereas Management Information Systems (MIS) programs are offered in business colleges. MIS focuses on the information and systems needed to manage organizations efficiently and effectively.

## Career Opportunities

MIS majors are prepared for careers in project management, business analysis, networking, system architecture and design, information assurance, and technical support. MIS careers are in every industry and graduates are prepared to work as in-house information systems staff, as consultants for information systems and accounting firms, as independent contractors, and as business entrepreneurs. Your degree will also prepare you for graduate school in business, information systems, or a related field.

A degree in management information systems prepares you for the following careers:

- Information systems manager
- Business analyst
- IT project manager
- IT consultant
- Network and Internet manager
- Webmaster
- Electronic commerce manager
- IT Security manager
- Network administrator
- Web developer
- Database analyst

## Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

## Core Requirements

| Code                                                                              | Title                                                                                | Credit Hours |
|-----------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|--------------|

<sup>1</sup> MATH 1111 College Algebra is recommended in Area A. Business majors must complete MATH 1111 College Algebra with a C or better grade for admission to BUSA 3115 Business Analytics I and Area G courses.

<sup>2</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1-2 hours;
- Area D1, 7-8 hours;
- Area D2, 3-4 hours.

<sup>3</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

<sup>4</sup> MATH 1125 Applied Calculus is recommended for students considering graduate studies.  
CPSC 1301K Computer Science I is recommended for students enrolled in MISM programs.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses

can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

An overall 2.0 GPA is required for graduation.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

All students must earn C or better in Area F, C average in Area G, C or better in Area H and a C average in Area I business electives.

## Program Learning Outcomes

1. Select and apply appropriate systems analysis and design techniques to create a system design for a business process including systems development planning, requirements determination and analysis, and data/process modeling.
2. Demonstrate knowledge of database concepts, and apply data modeling techniques to create a relational database model.
3. Demonstrate knowledge of data networking and application of security concepts for protecting organizational data and information systems.
4. Demonstrate knowledge of project and risk management principles and techniques for information systems projects.

## Management Information Systems - Online (BBA)

### Program Overview

The management information systems (MIS) major prepares students for careers involving leading-edge enterprise technologies and the analysis, design, and management of computer-based information systems.

MIS majors combine strong technical skills with an understanding of organizations and business. Professionals who understand how to strategically and effectively use information systems in organizations are in high demand in every industry - for profit, non-profit, government, and academia.

Graduates in this field enjoy excellent placement at some of the highest starting salaries of any business major. Department of Labor projections indicate this trend will continue into the next century, as organizations increasingly rely on knowledge workers and strategic information systems.

#### *What's the difference between a Computer Science and MIS degree?*

Computer Science (CS) programs focus on the theoretical side of computers, data structures, networks and coding. CS programs are typically offered in science and engineering colleges at universities

whereas Management Information Systems (MIS) programs are offered in business colleges. MIS focuses on the information and systems needed to manage organizations efficiently and effectively.

## Career Opportunities

MIS majors are prepared for careers in project management, business analysis, networking, system architecture and design, information assurance, and technical support. MIS careers are in every industry and graduates are prepared to work as in-house information systems staff, as consultants for information systems and accounting firms, as independent contractors, and as business entrepreneurs. Your degree will also prepare you for graduate school in business, information systems, or a related field.

A degree in management information systems prepares you for the following careers:

- Information systems manager
- Business analyst
- IT project manager
- IT consultant
- Network and Internet manager
- Webmaster
- Electronic commerce manager
- IT Security manager
- Network administrator
- Web developer
- Database analyst

- <sup>1</sup> MATH 1111 College Algebra is recommended in Area A. Business majors must complete MATH 1111 College Algebra with a C or better grade for admission to BUSA 3115 Business Analytics I and Area G courses.
- <sup>2</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.
- Area B1, 3 hours;
  - Area B2, 1-2 hours;
  - Area D1, 7-8 hours;
  - Area D2, 3-4 hours.
- <sup>3</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.
- <sup>4</sup> MATH 1125 Applied Calculus is recommended for students considering graduate studies. CPSC 1301K Computer Science I is recommended for students enrolled in MISM programs.

## Major Requirements

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

An overall 2.0 GPA is required for graduation.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

All students must earn C or better in Area F, C average in Area G, C or better in Area H and a C average in Area I business electives.

## Program Learning Outcomes

- 1. Select and apply appropriate systems analysis and design techniques to create a system design for a business process including systems development planning, requirements determination and analysis, and data/process modeling.
- 2. Demonstrate knowledge of database concepts, and apply data modeling techniques to create a relational database model.
- 3. Demonstrate knowledge of data networking and application of security concepts for protecting organizational data and information systems.
- 4. Demonstrate knowledge of project and risk management principles and techniques for information systems projects.

## Marketing (BBA)

### Program Overview

Students completing the marketing major will learn how to effectively conceive, promote, price, and distribute goods and services. This requires the ability to discover consumer needs, to assess complex and changing marketing situations, to determine the best marketing strategies for these situations, and to execute the strategies effectively. Marketing is an integral and essential part of any successful business.

### Career Opportunities

Marketing Manager, Salesperson, Promotions Manager, Public Relations Manager, Merchandising Manager, Account Manager/Executive, Internet Marketing Director, Strategic Marketing Manager, Communication Officer, Consultant, Advertising Manager, Marketing Researcher

### Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

<sup>1</sup> MATH 1111 College Algebra is recommended in Area A. Business majors must complete MATH 1111 College Algebra with a C or better grade for admission to BUSA 3115 Business Analytics I and Area G courses.

<sup>2</sup> Note: Students must complete Area B and Area D with a combined total of 15 credit hours within the following ranges. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1-2 hours;
- Area D1, 7-8 hours;
- Area D2, 3-4 hours.

<sup>3</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

<sup>4</sup> MATH 1125 Applied Calculus is recommended for students considering graduate studies.  
CPSC 1301K Computer Science I is recommended for students enrolled in MISM programs.

## Major Requirements

| Code                                                               | Title                                           | Credit Hours |

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

An overall 2.0 GPA is required for graduation.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

All students must earn C or better in Area F, C average in Area G, C or better in Area H, and a C average in Area I business electives.

## Program Learning Outcomes

- 1. Apply marketing concepts and basic marketing theories to business situations.
- 2. Demonstrate the impact of marketing and business performance.
- 3. Apply digital technology and statistical methods to marketing issues.

- 4. Solve marketing problems through the use of critical thinking and analytical skills.

## Organizational Leadership (MSOL) - Human Resources Management Track

### Program Overview

The *Human Resources Management* track of the Master of Science in Organizational Leadership program will prepare professionals to develop and implement HR planning, recruiting, training, compensation, benefits, performance management and disciplinary systems in a legal and ethical fashion. The track will academically prepare students to pass the Professional and Senior Professional in Human Resources (PHR & SPHR) exams. The MSOL Human Resources track is aligned with the Society for Human Resource Management's HR Curriculum Guidebook and Templates.

The MSOL is a 36-hour program, requiring a student to complete 12 graduate courses. Full-time students can complete the program in four semesters. All MSOL classes are taught in the evening. The program can be adapted for students who wish to attend part-time and complete the program within 18-24 months.

### Career Opportunities

For the HR track, career options include, but are not limited to: HR manager, Recruiter, Interviewer, Benefits Specialist, Trainer, Compensation, Employee Development, Diversity management, EEO compliance, OSHA compliance, Industrial Relations specialist/manager, career development, Selection specialist/manager, Job Analysis specialist, Work/Life managers and much more.

## Admission Requirements

Beyond the general graduate program requirements (<https://catalog.columbusstate.edu/admissions/graduate-admission/>), the MSOL degree program also has the following additional requirements:

- A current resume
- Applicants must have a 2.75 GPA or higher for regular admission. Applicants with a GPA between 2.5 and 2.74 may be admitted provisionally\*.
- GMAT/GRE scores are not required however, applicants may submit official scores to improve their admission status. Only scores within the past five years will be accepted.
  - GMAT school code: R64-XW-20
  - GRE school code: 5123

## Additional Program Requirements

This degree is subjected to the following requirements and conditions:

- Up to nine hours of transfer credit may be accepted from an AACSB accredited institution.
- All students must complete the common core for the degree.
- A minimum B average in core courses, with no more than two C's, is required for degree completion.
- Students have a maximum of seven years from the first term of enrollment to complete all MSOL degree requirements.
- Students admitted to the program on provisional status must maintain a 3.0 GPA average in the first nine hours to remain enrolled in the program.

\* International students cannot be admitted provisionally and must meet the requirements for regular admission.

## Program Learning Outcomes

- Graduates will apply leadership principles and theory to develop solutions to organizational problems in domestic and global business environments.
- Graduates will apply key theories of organizational behavior and change management to diagnose and solve problems in an organizational setting.
- Graduates will select relevant financial and economic information and apply the information to issues of organizational leadership.
- Graduates will apply ethical concepts to the development of solutions to organizational problems.

# Organizational Leadership (MSOL) - Servant Leadership Track

## Program Overview

Students in the MSOL program can specialize their education and select the *Servant Leadership track* that's both rare and tailored for those with a desire to practice Servant Leadership in their organizations. The Servant Leadership track will prepare professionals to meet the leadership needs of their organization by drawing on the wealth of resources situated here in Columbus, GA, ranging from the expertise of leading Servant Leadership practitioners, numerous applicable case studies, and opportunities for field experience. Columbus, GA, named the nation's first "Servant Leadership City" by the Greenleaf Center for Servant

Leadership, has a wide-spread commitment to servant leadership from Columbus-based corporations, non-profits organizations, and educational institutions.

Servant Leadership is a philosophy and practice of leadership that seeks to move management and employee interaction away from command and control models. Servant Leadership practitioners achieve results for their organization by giving priority attention to the needs and the development of those being led. Students will discuss current trends and issues related to Servant Leadership while learning to build a culture of Servant Leadership in various organizational environments.

The MSOL is a 36-hour program, requiring a student to complete 12 graduate courses. Full-time students can complete the program in four semesters. All MSOL classes are taught in the evening. The program can be adapted for students who wish to attend part-time and complete the program within 18-24 months.

## Career Opportunities

Graduates of the Servant Leadership track pursue a wide variety of careers. Most people choose this field because they are committed to the principles of servant leadership and enjoy working on issues or problems that affect many sectors of the public. The degree prepares graduates for higher leadership and executive positions in private, public and non-profit organizations.

## TSYS School of Computer Science

The TSYS School of Computer Science serves the educational needs of students and businesses in this region by offering programs in computer science, cybersecurity, information technology, software development and more. We work closely with regional businesses and industries to understand their needs and create a responsive, state-of-the-art learning environment. Students may choose from two graduate, seven undergraduate, and six certificate programs — each designed

to encourage creative problem-solving, foster innovation, and develop hands-on skill.

Undergraduate Programs

- Computer Science (BS) with Tracks in:
  - Cybersecurity
  - Education
  - Enterprise Computing Track
  - Games Programming
  - Software Systems
  - Web Development
- Cybersecurity (BS)
- Cybersecurity of FinTech (Nexus)
- Cybersecurity of FinTech (Certificate)
- Information Technology (BSIT) - (Also offered Online)

Graduate Programs

- Applied Computer Science (MS) with Tracks in:
  - AI and Machine Learning (Also offered Online)
  - Cybersecurity (Also offered Online)
  - Software Development (Also offered Online)
- Cybersecurity Management (MS) - (Online Only)
- Graduate Certificate in AI & Machine Learning (Also offered Online)
- Graduate Certificate in Cybersecurity Management - (Online Only)

The TSYS School of Computer Science offers the following degrees:

- Applied Computer Science (MS) (p. 186)
- Computer Science (BS) - CyberSecurity Track (p. 188)
- Computer Science (BS) - Education Track (p. 191)
- Computer Science (BS) - Enterprise Computing Track (p. 195)
- Computer Science (BS) - Games Programming Track (p. 198)
- Computer Science (BS) - Software Systems Track (p. 201)
- Computer Science (BS) - Web Development Track (p. 204)
- Cybersecurity (BS) (p. 207)
- Cybersecurity Management (MS) (p. 210)
- Cybersecurity of FinTech (Nexus) (p. 211)
- Information Technology (BSIT) (p. 213)
- Information Technology (online) (BSIT) (p. 217)

Applied Computer Science (MS)  
Program Overview

The TSYS School of Computer Science offers the Master of Science in Applied Computer Science with four concentrations: Cybersecurity, Software Development, AI and Machine Learning, and Traditional.

Career Opportunities

Based on the area of concentration chosen, the Master of Science in Applied Computer Science degree prepares you for a broad range of careers including:

- Software Engineers / Architects
- Computer Programmers / Software Developers
- Web Developers
- Machine learning Engineers

- Computer and Network Security Specialists
- Cybersecurity Professionals

Program of Study

The Master of Science in Applied Computer Science program requires students to complete 30 hours of computer science coursework and an exit course, CPSC 6000 Graduate Exit Examination. Students selecting the thesis option are required to complete 34 hours. The students must select one of the following four concentrations:

1. Cybersecurity
2. Software Development
3. AI and Machine Learning
4. Traditional

Cybersecurity

<sup>1</sup> With the exception of CPSC 6105 Fundamental Principles of Computer Science and CPSC 6106 Fundamentals of Computer Programming and Data Structures.

- <sup>2</sup> Graduating students must successfully complete CPSC 6000 Graduate Exit Examination which will require the student to complete an exit survey and a comprehensive exam.

## Admission Requirements

Requirements for all applicants for admission into the program for the Master of Science in Applied Computer Science include the following:

An undergraduate degree from an accredited college or university,  
AND  
any one of:

- A minimum 2.75 undergraduate cumulative GPA
- A minimum 3.00 cumulative GPA in the undergraduate major
- A combined score of at least 290 on the verbal and the quantitative sections of the GRE
- Significant experience (as judged by the Computer Science School) in industrial software development as documented by a resume and other appropriate documents, including published papers or patents.

Students may be admitted to the program unconditionally or conditionally (provisionally).

Additional requirements for unconditional admission into the MS program include:

1. An undergraduate major in Computer Science, Applied Computer Science, Computer Information Science / Systems, Computer Engineering or other closely related field from an accredited college or university  
AND
2. Demonstrated experience in the fundamentals of computer programming and knowledge in the fundamental principles of computer science, as evidenced by either
  - a passing grade of B or better in courses substantially equivalent to CPSC 6105 Fundamental Principles of Computer Science, and CPSC 6106 Fundamentals of Computer Programming and Data Structures  
OR
  - passing tests of programming competency in data structures and other areas of computer science

Students admitted conditionally to the program must show proficiency in Fundamental Principles of Computer Science (CPSC 6105 Fundamental Principles of Computer Science) and Fundamentals of Computer Programming and Data Structures (CPSC 6106 Fundamentals of Computer Programming and Data Structures) before being allowed to take any 6000-level course for graduate credit in Computer Science.

## Additional Program Requirements

Approval of an application for the Master of Science degree in Applied Computer Science is contingent upon the successful completion of an approved program and recommendation for the degree by the Turner College of Business. Applications for degree conferral must be submitted to the Office of the Registrar no later than the semester prior to completion of degree requirements.

The following requirements must be met for the completion of the degree program:

- Students must earn a 3.0 grade point average calculated on all graduate work attempted for which letter grades are awarded.
- At least 24 of the hours required for the degree must be earned in the program. A maximum of six semester hours with no grade lower than B may be accepted for transfer. Transfer credit will be used in computing the student's grade point average.
- All degree requirements must be completed within seven years of first enrollment.
- Any program for the Master of Science in Applied Computer Science must include at least ten courses (30 semester hours) taken for graduate credit.
- Any program for the Master's Degree in Applied Computer Science must include four courses (12 semester hours) in the Core Curriculum.
- A student opting for a thesis in Applied Computer Science must take CPSC 6985 Research and Thesis at least twice for a minimum total of four credit hours. Only four hours of CPSC 6985 Research and Thesis may be applied to the Master's Degree.
- A candidate for the MS thesis option degree must take CPSC 6986 Thesis Defense during the semester of their defense.
- A student who elects the thesis option for the degree may not graduate until a thesis has been produced, approved by the student's thesis committee, and successfully defended in a public presentation.
- A student who changes from the thesis option to the non-thesis option for a degree may not apply any hours taken in CPSC 6985 Research and Thesis towards the 30-hour minimum for the degree.

## Program Learning Outcomes

- Identify a modeling and simulation paradigm appropriate for solving a given problem and select an appropriate simulation package for implementing the solution
- Design efficient algorithms and recognize situations where this is not possible\
- Identify and apply an appropriate object-oriented design pattern for a software engineering problem\
- Identify cybersecurity threats and related vulnerabilities in computer information systems and describe ways to mitigate threats to information systems\
- [For Software Development concentration] Design, implement, test and maintain software systems in various application domains
- [For Cybersecurity concentration] Apply security principles and practices to maintain operations in the presence of risks and threats\
- [For Traditional concentration] Use a wide variety of computer science concepts and tools to solve real-world problems
- [For AI and Machine Learning concentration] Identify and apply artificial intelligence algorithms and tools to solve real-world problems

## Computer Science (BS) - CyberSecurity Track

### Program Overview

CyberSecurity Track provides the student with skills required to compete in today's computing environment and to be able to adapt to tomorrow.

Much effort is expended ensuring that the program is viable and current, focusing on the newer technologies and emphasizing applications of current methods for securing information and systems.

## Career Opportunities

Computer Programmers, Mainframe Programmers, Web Developers, Network and Security Specialists

## Program of Study

<sup>1</sup> Note: Students whose majors require 2 lab science courses in Area D complete Area B and Area D with a combined total of 15 credit hours. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1 hour;
- Area D1, 8 hours;
- Area D2, 3 hours.

<sup>2</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

## Major Requirements

| Code                                               | Title                                                     | Credit Hours |

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

Student must earn a C or better in all CPSC courses in Areas F, G, and H.

## Program Learning Outcomes

- Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.\
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the cybersecurity.
- Communicate effectively in a variety of professional contexts.\
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.\
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.\
- Apply security principles and practices to maintain operations in the presence of risks and threats.

## Computer Science (BS) - Education Track

### Program Overview

The Bachelor of Science in CS ( Education track) offered by the TSYS School of Computer Science is aimed at preparing computer science teachers to teach computer science and related topics in grades P to 12.

The BS in Computer Science - Education track provides solid background in computer science, as well as course work necessary for teaching certification at the P-12 level. With the nation facing a critical shortage of qualified computer science teachers, the student who completes the

BS with certification should expect a solid academic preparation and numerous job prospects. As a part of UTeach Columbus, this program stresses early field experiences, inquiry based lessons, and highly engaged instruction. The Uteach coursework focuses directly on math, science, and computer science classroom settings.

All educator preparation programs are approved by the Georgia Professional Standards Commission. In addition to the degree requirements, there are further requirements for teaching certification. Visit the Certification page (<https://cctl.columbusstate.edu/certification.php>) on the CSU Center for Quality Teaching and Learning (CQTL) website for detailed information about certification requirements and the certification process.

## Career Opportunities

K-12 Computer Science Teachers, Computer Programmers, Mainframe Programmers, Web Developers, Network and Security Specialists

## Program of Study

<sup>1</sup> Note: Students whose majors require 2 lab science courses in Area D complete Area B and Area D with a combined total of 15 credit hours. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1 hour;
- Area D1, 8 hours;
- Area D2, 3 hours.

<sup>2</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

## Major Requirements

There is a recent rule change for certification from the GaPSC. As of July 1, 2019, students must make a B or higher in the Exceptional Children's course. The course could be any of the following depending on your major: SPED 2256, EDCI 6228, KINS 4245, SPED 4115, PHED 6219. This rule change will not affect your graduation but you cannot become a certified educator with the state of Georgia until you receive the grade of B or higher in this course.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.

- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

During the sophomore year, students intending to complete a teacher education program make formal application to the teacher education program. Normally, this occurs after the student has completed three semesters of full-time course work. Application is made to the COEHP Center for Quality Teaching and Learning. For a list of current admission requirements, go to: <https://cqtl.columbusstate.edu/teacher-education.php>.

## Additional Program Requirements

For teacher certification, students must obtain a minimum overall and CSU grade point average of 2.5.

Prior to the student teaching semester, students must meet all requirements for admission to Student Teaching. For a list of current requirements, go to <https://cqtl.columbusstate.edu/student-teaching.php>.

To be recommended for teacher certification, students must pass the GACE Computer Science Test (for additional information on the GACE, go to <https://gace.ets.org/>).

## Program Learning Outcomes

- Graduates will demonstrate basic understanding of theoretical aspects of computer science
- Graduates will be able to use an integrated development environment to code and implement an executable program
- Graduates will be able to produce a software solution using an object-oriented programming architecture
- Graduates will demonstrate an understanding of the vulnerabilities and threats to information security and measures to defend against them.
- Graduates will be able to produce a web-based software solution using high-level development tools
- Graduates will be able to analyze, design and implement a solution to real-world information processing problems
- Graduates will be familiar with methods used to design and access databases
- Graduates will demonstrate knowledge of the social and ethical impact of computers
- Graduates will demonstrate proficiency in planning instruction based on standards and knowledge of students
- Graduates will demonstrate proficiency in using a wide range of instructional strategies and differentiating instruction to help all students learn
- Graduates will demonstrate proficiencies related to assessing learning and teaching and using assessment data to adapt instruction for improved student learning
- Graduates will display values, commitments, dispositions, and habits associated with effective and professional teaching

## Computer Science (BS) - Enterprise Computing Track

### Program Overview

Graduates will be able to design and implement software, devise new ways to use computers, and develop effective ways to solve computing problems. According to the US Department of Labor, computer science and information technology job opportunities are expected to grow at approximately 22% through 2020, which is much faster than the average for all occupations.

### Career Opportunities

Computer Programmers, Mainframe Programmers, Web Developers, Network and Security Specialists

### Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

### Core Requirements

| Code                                                                      | Title                                                                | Credit Hours |
|---------------------------------------------------------------------------|----------------------------------------------------------------------|--------------|
| <b>Area A Essential Skills</b>                                            |                                                                      |              |
| ENGL 1101                                                                 | English Composition I (minimum grade of C)                           | 3            |

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A " (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

Student must earn a C or better in all CPSC courses in Areas F, G, and H.

## Program Learning Outcomes

- Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.\
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in enterprise information and transaction processing systems.
- Communicate effectively in a variety of professional contexts.\
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.\
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.\
- Apply computer science theory and software development fundamentals to produce computing-based solutions.\

# Computer Science (BS) - Games Programming Track

## Program Overview

The BS in Computer Science - Games Programming Track provides students with a thorough understanding of the theory, design and programming techniques required for producing games software. This track equips students with the theoretical and practical knowledge for careers in the games and simulation industries. Topics covered include

games theory, design and programming; graphics techniques including virtual environments; artificial intelligence techniques; multi-player and Internet games programming; and games specific software tools.

## Career Opportunities

Computer Programmers, Game & Simulation Programmers, Web Developers, Network & Security Specialists

## Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

## Core Requirements

| Code                                                                      | Title                                                                | Credit Hours |
|---------------------------------------------------------------------------|----------------------------------------------------------------------|--------------|
| <b>Area A Essential Skills</b>                                            |                                                                      |              |
| ENGL 1101                                                                 | English Composition I (minimum grade of C)                           | 3            |
| ENGL 1102                                                                 | English Composition II (minimum grade of C)                          | 3            |
| Select the following course (the extra credit of MATH applies to Area I): |                                                                      | 3            |
| MATH 1113                                                                 | Pre-Calculus                                                         |              |
| Area A Total                                                              |                                                                      | 9            |

<sup>1</sup> Note: Students whose majors require 2 lab science courses in Area D complete Area B and Area D with a combined total of 15 credit hours. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1 hour;
- Area D1, 8 hours;
- Area D2, 3 hours.

<sup>2</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

## Major Requirements

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

Students must earn a C or better in all CPSC courses in Areas F, G, and H.

## Program Learning Outcomes

- Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in gaming systems.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.

# Computer Science (BS) - Software Systems Track

## Program Overview

Graduates will be able to design and implement software, devise new ways to use computers, and develop effective ways to solve computing problems.

## Career Opportunities

Software Engineers/Architects, Computer Programmers, Web Developers, Network and Security Specialists

## Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

## Core Requirements

| Code                                                                      | Title                                                                                | Credit Hours |

<sup>1</sup> Note: Students whose majors require 2 lab science courses in Area D complete Area B and Area D with a combined total of 15 credit hours. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.

- Area B1, 3 hours;
- Area B2, 1 hour;
- Area D1, 8 hours;
- Area D2, 3 hours.

<sup>2</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses

can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A" (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

Students must earn a C or better in all CPSC courses in Areas F, G, and H.

## Program Learning Outcomes

- Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of software systems.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.

# Computer Science (BS) - Web Development Track

## Program Overview

Graduates will be able to design and implement software, devise new ways to use computers, and develop effective ways to solve computing problems. According to the US Department of Labor, computer science and information technology job opportunities are expected to grow at approximately 22% through 2020, which is much faster than the average for all occupations.

## Career Opportunities

Computer Programmers, Mainframe Programmers, Web Developers, Network and Security Specialists

## Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

## Core Requirements

| Code                                                                      | Title                                                                                | Credit Hours |

- <sup>1</sup> Note: Students whose majors require 2 lab science courses in Area D complete Area B and Area D with a combined total of 15 credit hours. Any additional hours may be applied to Area F or beyond, depending on the program of study. Students should consult their advisors.
- Area B1, 3 hours;
  - Area B2, 1 hour;
  - Area D1, 8 hours;
  - Area D2, 3 hours.

- <sup>2</sup> ITDS 1145 Comparative Arts, though listed under both humanities and fine arts, may be taken only once.

## Major Requirements

## Additional Notes

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

- This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements or course offerings could change. As always, check with your advisor.
- Students must complete "Area A " (ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1113 Pre-Calculus or MATH 1131 Calculus with Analytic Geometry I) prior to reaching 30 hours and earn a "C" or higher in all three courses.
- As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

## Admission Requirements

There are no program specific admission requirements.

## Additional Program Requirements

Student must earn a C or better in all CPSC courses in Areas F, G, and H.

## Program Learning Outcomes

- Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in web-based systems.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.

## Cybersecurity (BS)

### Program Overview

All graduates in the B.S. in Cybersecurity program offered by the Turner College of Business will learn the essential skills necessary to join the cybersecurity workforce.

### Career Opportunities

Typical current cybersecurity positions include:

- Cybersecurity Manager
- Cybersecurity Management Consultant
- Cyber Security Analyst- Awareness and Education
- Cybersecurity Regulatory Governance Lead
- Cyber Security Measures and Reporting Lead
- IT Cyber Security Controls Assessor
- Information Security Governance Specialist
- Cybersecurity Regulatory Compliance Instructor
- Cybersecurity Policy and Compliance Analyst

### Program of Study

Click on the Program Map tab to view a term-by-term guide for completing the program requirements.

## Core Requirements

| Code                                                                      | Title                                                                                | Credit Hours |
|---------------------------------------------------------------------------|--------------------------------------------------------------------------------------|--------------|
| <b>Area A Essential Skills</b>                                            |                                                                                      |              |
